Proposal Number	Proposal Text	Mgmt Rec	Vote Instruction
1	Accept Financial Statements and Statutory Reports	For	For
2	Approve Remuneration Policy	For	Against
<i>Blended Rationale: A vote AGAINST this resolution is considered warranted:- The Company has disclosed an intention to align executive pension contributions to the wider workforce, but this will not occur until June 2025. This is market-lagging, and it is unclear why such a delay would be considered appropriate.- The CEO's pension allowance is currently set at 30% of salary equivalent. While the Company's commitment to reduce the Director's pension to 25% in 2021 (in line with their pathway towards pension alignment to UK market practice) is acknowledged, the baseline remains high in the UK context.</i>

1.2	Elect Director J. David Wargo	For	Withhold
	<i>Blended Rationale: WITHHOLD votes are warranted for incumbent director nominees Julie Frist and J. 3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
	<i>Blended Rationale: A vote AGAINST this proposal is warranted. While the company discloses details regarding the portion of the CEO's compensation allocated to the company and the periodic equity grants made to the NEOs, it does not provide sufficient disclosure regarding the compensation arrangements between the NEOs and the manager for shareholders to make a reasonable assessment of executive pay. This lack of information prevents shareholders from making a meaningful assessment of pay programs and practices and makes it difficult for shareholders to cast a fully informed say-on-pay vote.</i>		
4	Advisory Vote on Say on Pay Frequency	Three Years	One Year
	<i>Blended Rationale: A vote for the adoption of an ANNUAL say-on-pay frequency is warranted. Annual say-on-pay votes are considered a best practice as they give shareholders a regular opportunity to opine on executive pay.</i>

	<i>Blended Rationale: A vote FOR this proposal is warranted as it would give shareholders a more meaningful voice in the election of directors and further enhance the company's corporate governance.</i>

	<i>Blended Rationale: A vote FOR is warranted, since there is no evidence of excessiveness on the part of the supervisory board regarding this remuneration proposal.</i>		
9	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
	<i>Blended Rationale: A vote AGAINST this proposal is warranted. Following certain outsized equity awards granted in FY18 to the company's former CEO, total CEO pay has since normalized. In addition, while performance was measured over two six-month periods, STI payouts were based on rigorous financial goals and no payout was made in FY20 due to below threshold performance. Under the LTI program, the relative TSR metric targets merely median performance; however, the payouts are capped at target for negative TSR performance and the majority of the equity awards were performance-based with clearly disclosed multi-year goals. However, following last year's failed say-on-pay vote, the compensation committee did not adequately respond to shareholder concerns. While the company engaged with shareholders, disclosed their specific concerns regarding the pay programs, and disclosed certain pay decisions related to those concerns, the committee did not make any significant pay program changes or commitments in response to shareholders' concerns. Given the significant level of opposition to last year's say-on-pay proposal, shareholders would expect concrete actions and/or commitments taken in response to shareholders' expressed concerns and the ultimate say-on-pay vote result.</i>

9	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<i>Blended Rationale: A vote AGAINST this proposal is warranted. Following certain outsized equity awards granted in FY18 to the company's former CEO, total CEO pay has since normalized. In addition, while performance was measured over two six-month periods, STI payouts were based on rigorous financial goals and no payout was made in FY20 due to below threshold performance. Under the LTI program, the relative TSR metric targets merely median performance; however, the payouts are capped at target for negative TSR performance and the majority of the equity awards were performance-based with clearly disclosed multi-year goals. However, following last year's failed say-on-pay vote, the compensation committee did not adequately respond to shareholder concerns. While the company engaged with shareholders, disclosed their specific concerns regarding the pay programs, and disclosed certain pay decisions related to those concerns, the committee did not make any significant pay program changes or commitments in response to shareholders' concerns. Given the significant level of opposition to last year's say-on-pay proposal, shareholders would expect concrete actions and/or commitments taken in response to shareholders' expressed concerns and the ultimate say-on-pay vote result.</i>

2	Approve Ernst & Young LLP as Auditors and Authorize Trustees to Fix Their Remuneration	For	For
3	Advisory Vote on Executive Compensation Approach	For	Against

Blended Rationale: Vote AGAINST this non-binding say-on-pay proposal. The quantitative pay-for-performance screen has identified a high concern driven by the Trust's relative degree of pay-and-performance alignment (RDA), measured against a comparable group of companies. This comes after last year, Sustainability Advisory Services identified a medium concern driven by RDA as well. As such, it appears the misalignment between Trust performance and CEO pay increased. While the CEO's total direct compensation decreased by approximately 19 percent over the last fiscal year, a comparison of the Trust's pay-for-performance evaluation compared to its peers shows a misalignment. The Trust's one-, three-, and five-year TSR was in the lowest quartile compared to peers, while the CEO's compensation was ranked near the top. An assessment of the Trust's operational performance against its peers, as measured by ROI and ROE shows similar underperformance in 2018 and 2020. In addition, the company has granted multiple one-time awards to the CEO over the last few years. In light of the above, there appears to be a pay-for-performance disconnect at this time.

The CEO's equity awards granted in FY20 included the replacement equity awards granted in lieu of his canceled awards from FY20 and FY19 as well as the value of the original awards granted in FY20. Although at least half of the replacement awards are performance-based and award values are lower than the canceled awards, the relative TSR metrics targets median performance and EPS growth is measured annually. Additionally, although STI payouts were based on sales growth and no payouts were made for FY20, the program design risks payouts for quarterly performance and the payouts are not meaningfully capped. Further, significant concerns were raised surrounding high NEO base salaries and sizeable perks for certain NEOs. In addition, executives received excessive financial planning perquisites and gross-ups on personal aircraft use, which are considered problematic pay practices.</i>

---	------------------------------------	---------	-----

Blended Rationale: A vote FOR this proposal is warranted. While the company substantially implemented most of the provisions requested by the proponent following the majority-supported proposal at last year's annual meeting, this proposal requests the company incorporate the remainder of the proponent's requests. The addition of reputational risk as a potential triggering event would allow the board more flexibility in determining the necessity of a clawback. Further, disclosure of situations where the board considered, but ultimately decided against recoupment, would provide shareholders with more information regarding the committee's application of the policy.

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For
	<i>Blended Rationale: A vote AGAINST the proposal is warranted. The company did not fully disclose adjustments made to an outstanding performance equity grant, which resulted in the award vesting at maximum. Investors generally disfavor adjustments to in-flight equity awards and, in this case, the adjustment increased aggregate compensation expense by more than \$5 million. Further, the lack of detail regarding the metric that was adjusted, the magnitude of the adjustment, and the committee's rationale for the change is concerning.</i>

Proposal Number	Proposal Text	Mgmt Rec	Vote Instruction
	Annual Meeting Agenda		
2.b	Approve Remuneration Report	For	Against
	<i>Blended Rationale: A vote AGAINST is warranted because:- We note that CEO John Elkann also receives remuneration for his executive roles on EXOR investee companies Stellantis and Ferrari and is eligible for variable remuneration, raising further questions on the adequateness of a remuneration package at EXOR that is in line with fully operating companies. Total pay amounted to EUR 2.4 million and EUR 768 thousand respectively from Stellantis and Ferrari on a granted basis in 2020, whereas his Exor package amounted to EUR 7.4 million already.- No performance measures are attached to the LTI grants whereas stock options are the main value driver of the total remuneration. Although this concern is somewhat mitigated as no options were granted in 2020, considering options continue to vest and delivering significant value continued concern is raised.- The board has not demonstrated adequate responsiveness to the significant dissent recorded for the vote on remuneration report at the 2020 AGM.However, it should be noted that the remuneration report is clear on the performance achievement relative to targets set under the cash-based incentive plan.</i>

6.c	Grant Board Authority to Issue Shares	For	Against
<i>Blended Rationale: A vote AGAINST is warranted because- The potential volume of this authorization is considered to be excessive, namely in excess 200 percent relative to the currently issued share capital; and- The authorization has a duration of 60 months, which is considered to be excessive for Dutch market best practice.</i>			
6.d	Authorize Board to Exclude Preemptive Rights from Share Issuances	For	Against
<i>Blended Rationale: A vote AGAINST is warranted because- The potential volume of this authorization is considered to be excessive, namely in excess 200 percent relative to the currently issued share capital; and- The authorization has a duration of 60 months, which is considered to be excessive for Dutch market best practice.</i>			
6.e	Grant Board Authority to Issue Special Voting Shares A without Preemptive Rights	For	Against
<i>Blended Rationale: A vote AGAINST is warranted because this proposal would accommodate the existence of the loyalty voting structure and deviates from the one-share-one-vote principle, because loyal shareholders get an additional loyalty share that has one vote.</i>

5	Approve Grant of Performance Rights to Michael Arnett	For	Against
<i>Blended Rationale: A vote AGAINST these resolutions is warranted because local market guidelines do not support the grant of incentive equity awards to NEDs in light of ensuring independent judgment by NEDs and preventing any potential conflict of interest.</i>			
6	Approve Grant of Performance Rights to Brian van Rooyen	For	Against
<i>Blended Rationale: A vote AGAINST these resolutions is warranted because local market guidelines do not support the grant of incentive equity awards to NEDs in light of ensuring independent judgment by NEDs and preventing any potential conflict of interest.</i>			
7	Approve Amendment of Terms of Performance Rights Previously Issued to Salvatore Pietro Amico	For	Against
<i>Blended Rationale: A vote AGAINST this resolution is warranted because the proposed amendment, in effect, provides for a retesting of the securities granted under the Performance Rights Plan, which undermines the incentive value of the awards by making performance hurdles easier to attain.</i>

3	Approve Remuneration Report	For	Against
	<i>Blended Rationale: A vote AGAINST is warranted because:- Two-thirds of equity grants is vesting before the third anniversary, in deviation of best market practices and the Dutch Corporate Governance Code;- The 'LTI' continues to be measured on the basis of one-year performance periods only;- Retrospective disclosure on performance achievement against targets is not sufficient to entirely understand the link between performance and pay. More specifically, the non-financial KPIs under the STI and all KPIs under the LTI do not have detailed information on how performance targets were applied in 2020. This is however while acknowledging that the company is addressing these concerns under the proposed amended remuneration policy (Item 4).</i>

6	Approve Grant of Options Under the Share Option Scheme	For	Against
<i>Blended Rationale: A vote AGAINST this proposal is warranted given the following:- The company could be considered a mature company and the limit under the scheme exceeds 5 percent of the company's issued capital.- Performance conditions and meaningful vesting periods attached to the options were not disclosed.- The directors eligible to receive options under the scheme are involved in the administration of the scheme.</i>

6	Reelect Patrick Pouyanne as Director	For	Against
<i>Blended Rationale: Significant risks to shareholders stemming from severe ESG controversies have been identified at the company, which reflects a failure by the board to proficiently guard against and manage material environmental, social and governance risks.- Votes AGAINST CEO/Chair Patrick Pouyanne are warranted given that the CEO and chair of the board ultimately shoulders the most responsibility amongst all board members for failing to effectively supervise the management of risks to the company and its shareholders, and should therefore be held the most accountable for poor board oversight of ESG risk exposures at the firm.In addition, as the functions of chairman and CEO are combined, a vote AGAINST the reelection of Patrick Pouyanne (Item 6) is warranted.</i>

13	Approve Remuneration Policy of Chairman and CEO	For	Against
<i>Blended Rationale: A vote AGAINST this remuneration policy is warranted since:- The company proposes to increase the base salary by 11 percent from 2022 over the new mandate. Such increase would lead to an increase of the bonus opportunity and of the maximum potential payout.- The maximum cap for the LTI plan is proposed to be substantially increased by 39 percent with an average of 100,000 granted shares over the next three years. The company does not provide any compelling rationale to support this increase.- The amended bonus structure regarding financial parameters would allow compensation between those criteria in the event of exceptional performance.- Targets under the condition related to the reduction of GHG emissions (Scopes 1 and 2) are set above results of past years. As such, they cannot be considered as stringent enough.- The board could maintain the right to acquire performance shares after the departure of the beneficiary within the company; and- The company does not provide any cap for golden hello and exceptional remunerations.</i>

Blended Rationale: A vote AGAINST this proposal is warranted due to a pay-for-performance misalignment. The company does not disclose target opportunities and the specific goals and actual results that annual incentives were based on, making it difficult to ascertain the link between pay and performance. Moreover, the company granted an outsized stock option grant to the CEO and significant option grants to the NEOs, half of which already vested after one year. These option grants resulted in their respective total compensation significantly exceeding the median CEO pay at companies of similar size and industry.

4	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<i>Blended Rationale: A vote AGAINST this proposal is warranted. Given the company's first annual meeting, this is also the first time Sustainability Advisory Services has conducted a review of the company's pay programs. Although some concern is raised regarding the use of an annual performance period under a component of the LTI program, the majority of the FY20 LTI awards are performance-based (the vast majority for the CEO) and a portion of the CEO's performance shares are based on rigorous multi-year goals. However, significant concerns are raised regarding the annual bonus program. In particular, although certain considerations were disclosed, the NEOs' annual bonus determinations were largely discretionary. Additionally, a portion of CEO Lee's bonus payout was entirely based on annual dividends paid to shareholders for which the proxy lacks disclosure regarding the link between the dividend payment decisions and company performance. Further, the proxy also lacks disclosure regarding the details for the NEOs' carried interest compensation determinations, which makes up a large portion of one NEO's total pay. Although the company has a distinctive operating structure, investors increasingly prefer a more formula-driven annual incentive pay design, which utilizes clearly disclosed pre-set metrics, goals and pay opportunities.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For
	<i>Blended Rationale: A vote FOR this proposal is warranted. Annual and long-term incentives are at least half based on pre-set objective performance metrics. In addition, a below-target bonus payout and forfeited equity for the FY20 tranche of the LTI appear to be aligned with financial performance. Further, the board made several positive changes to the compensation program based on shareholder feedback, including improved disclosure of the annual incentive program and the elimination of above-market interest payments for NEOs beginning in 2021. Also, the company increased the objective metric weighting for bonuses and introduced multi-year performance periods for equity awards in 2021. However, executive compensation levels warrant continued close monitoring in light of consecutive base salary increases, a significant increase (in volume) to the FY20 equity award for the CEO, and planned increases to the PSU award cap for FY21.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
	<i>Blended Rationale: A vote AGAINST this proposal is warranted. The compensation committee discretionarily increased payouts for long-term performance awards granted in 2018, in response to COVID-19. NEOs ultimately received 100 percent of target payouts for these awards, amid negative shareholder returns and poor operational performance for the year. Further, while the 2019 PSAs remain outstanding, the committee expects to take similar actions on these grants. The CEO elected to forego an annual incentive award for 2020; however, other NEOs' bonuses paid out slightly above target, with their awards based entirely on subjective individual assessments and pandemic response. Meanwhile, although the 2020 LTI grants are majority performance conditioned, target goals remain undisclosed, which impedes an evaluation of goal rigor and pay and performance linkage, and the awards are based on a single year's performance. Sustainability Advisory Services acknowledges that many companies were greatly affected by COVID-19. However, investors generally do not view discretionary modifications to previously granted long-term incentives as an appropriate reaction to challenges posed by the pandemic.</i>		
3	Amend Qualified Employee Stock Purchase Plan	For	For

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against

Blended Rationale: A vote AGAINST this proposal is warranted. The compensation committee discretionarily increased payouts for long-term performance awards granted in 2018, in response to COVID-19. NEOs ultimately received 100 percent of target payouts for these awards, amid negative shareholder returns and poor operational performance for the year. Further, while the 2019 PSAs remain outstanding, the committee expects to take similar actions on these grants. The CEO elected to forego an annual incentive award for 2020; however, other NEOs' bonuses paid out slightly above target, with their awards based entirely on subjective individual assessments and pandemic response. Meanwhile, although the 2020 LTI grants are majority performance conditioned, target goals remain undisclosed, which impedes an evaluation of goal rigor and pay and performance linkage, and the awards are based on a single year's performance. Sustainability Advisory Services acknowledges that many companies were greatly affected by COVID-19. 3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For
<i>Blended Rationale: A vote FOR this proposal is warranted as pay and performance are reasonably aligned for the year in review. The annual incentive program over FY20 was split due to COVID-19, with the first half of the year's bonus determined by various management achievements at the discretion of the compensation committee. The second half of the year's annual bonus was based on a pre-set financial target. While long-term equity awards were entirely time-based due to uncertainty from the pandemic and the corresponding difficulty of determining the impact on the business, the FY21 long-term incentive will consist of half performance-conditioned equity awards tied to a multi-year measurement period.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For
	<i>Blended Rationale: A vote FOR this item is warranted. Although concerns are noted, pay and performance appear reasonably aligned for the year in review. Annual incentives for FY20 were originally based on achievement of financial metrics but were changed to individual performance assessment due to the impact of the COVID-19 pandemic. The CEO received no bonus payout for his annual incentive. Long-term incentives for the CEO were time-based due to difficulty in determining meaningful performance targets. However, the FY21 long-term incentive will return to a mix of equity awards both performance- and time-based.</i>

1	Re-elect John Rishton as Director	For	For
2	Re-elect Stephen Carter as Director	For	For
3	Re-elect Stephen Davidson as Director	For	Against
<i>Blended Rationale: A vote AGAINST this candidate is considered warranted because:- Davidson chairs the Remuneration Committee, a role that he has held since 2015. Recurring concerns have been identified around the Company's approach to executive pay, as the last three shareholder votes on the remuneration policy (one in 2018, and two in 2020) have been met with significant dissent. The latter of these, in relation to the General Meeting convened in December 2020, resulted in more than 40% of votes being cast against the proposed policy. The Remuneration Committee does not appear to have responded to the voting outcome in any meaningful way, and in fact made awards under the contentious Equity Revitalisation Plan approximately three weeks after the December 2020 General Meeting. Concerns are also raised in relation to the Committee's decision to use discretion to allow a vesting event under the FY2018 LTIP during the year, which would have otherwise lapsed.</i>

<i>Blended Rationale: A vote AGAINST this resolution is considered warranted because:- Adjustments were made to the in-flight performance conditions attached to the FY2018 LTIP awards, resulting in a significant vesting event where awards would have otherwise lapsed; and- The Company went forward with awards under the contentious Equity Revitalisation Plan approximately three weeks after the General Meeting in December 2020, where over 40% of votes were cast against the scheme and the attendant remuneration policy.</i>

	<p><i>Blended Rationale: A vote AGAINST this proposal is warranted. Following low support for this proposal for consecutive years, the compensation committee engaged with shareholders but did not disclose with sufficient specificity the compensation concerns leading to the low support. Further, the committee determined to make no material changes to the pay program, indicating poor responsiveness. There are additional ongoing concerns regarding pay structure. NEO pay primarily consists of base salaries and grants of fully-vested stock option awards. While the board sets NEO total pay levels for the year, the NEOs themselves select the form in which their pay is delivered. This has resulted in excessive base salaries for certain NEOs – notably a \$20 million salary for co-CEO Sarandos. The lack of any time- or performance-vesting criteria on incentive pay is problematic.</i></p>

	<i>Blended Rationale: A vote AGAINST this proposal is warranted, as the proponent has not sufficiently demonstrated that a focus on reducing the CEO-employee pay ratio figure is a needed addition to the company's compensation philosophy. While there are compensation-related concerns at the company, it is unclear whether reducing the CEO pay ratio, which is the proponent's primary focus, would address investors' concerns or meaningfully improve pay stewardship.</i>

Michael (Mike) Sievert, Christian Illek, Marcelo Claire, Raphael Kubler, Thorsten Langheim, Dominique Leroy, Omar Tazi and Michael Wilkens for failing to establish a board on which a majority of the directors are independent directors. WITHHOLD votes are warranted for Christian Illek, Marcelo Claire, Raphael Kubler, Dominique Leroy and Michael Wilkens for serving as non-independent members of key board committees. WITHHOLD votes are further warranted for compensation committee members Christian Illek, Marcelo Claire, Raphael Kubler, and Kelvin Westbrook, in the absence of a say-on-pay proposal on the ballot, due to an unmitigated pay-for-performance misalignment. CEO Sievert and NEO Ray each received a large one-time equity award, for which the goals are not particularly rigorous or certain forward-looking goals are not disclosed. In addition, the relative TSR metric under the LTI program targets median performance. Further, the FY20 STI program was modified, resulting in above-target payouts. Significant risks to shareholders stemming from moderate to severe ESG controversies have been identified at the company, which reflects a failure by the board to proficiently guard against, manage and mitigate material environmental, social and governance risks. In addition, the company does not have any public reports or information on its website about its sustainability strategy or communications regarding its environmental and social performance.* WITHHOLD votes for board chair Timotheus (Tim) Hoettges are warranted given that the chair of the board ultimately shoulders the most responsibility amongst all board members for failing to effectively supervise the management of risks to the company and its shareholders, and should therefore be held the most accountable for poor board oversight of ESG risk exposures at the firm. A vote FOR the remaining director nominees is warranted.</i>

1.3	Elect Director Bavan M. Holloway	For	For
	<i>Blended Rationale: WITHHOLD votes are warranted for non-independent director nominees Timotheus (Tim) Hoettges, G. Michael (Mike) Sievert, Christian Illek, Marcelo Claire, Raphael Kubler, Thorsten Langheim, Dominique Leroy, Omar Tazi and Michael Wilkens for failing to establish a board on which a majority of the directors are independent directors. WITHHOLD votes are warranted for Christian Illek, Marcelo Claire, Raphael Kubler, Dominique Leroy and Michael Wilkens for serving as non-independent members of key board committees. WITHHOLD votes are further warranted for compensation committee members Christian Illek, Marcelo Claire, Raphael Kubler, and Kelvin Westbrook, in the absence of a say-on-pay proposal on the ballot, due to an unmitigated pay-for-performance misalignment. CEO Sievert and NEO Ray each received a large one-time equity award, for which the goals are not particularly rigorous or certain forward-looking goals are not disclosed. In addition, the relative TSR metric under the LTI program targets median performance. Further, the FY20 STI program was modified, resulting in above-target payouts. Significant risks to shareholders stemming from moderate to severe ESG controversies have been identified at the company, which reflects a failure by the board to proficiently guard against, manage and mitigate material environmental, social and governance risks. In addition, the company does not have any public reports or information on its website about its sustainability strategy or communications regarding its environmental and social performance.* WITHHOLD votes for board chair Timotheus (Tim) Hoettges are warranted given that the chair of the board ultimately shoulders the most responsibility amongst all board members for failing to effectively supervise the management of risks to the company and its shareholders, and should therefore be held the most accountable for poor board oversight of ESG risk exposures at the firm. A vote FOR the remaining director nominees is warranted.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For
	<i>Blended Rationale: A vote FOR this proposal is warranted, with caution. The change in pension value constituted a large portion of the CEO's reported pay for FY20 and FY19; however, adjusting for this, the CEO's targeted total pay was mostly flat. Some goal rigor concerns are raised. Specifically, STI targets were set below the prior year's targets and actual results with no specific rationale nor a lowered pay opportunity, and the committee exercised upward discretion in payouts due to the pandemic. Additionally, the relative metrics target merely median performance with no vesting cap for negative TSR. However, STI payouts remained at target amid strong TSR performance, and the STI program continues to be largely based on pre-set financial goals. Further, half of the equity awards are performance-based with clearly disclosed multi-year goals. Nevertheless, close shareholder monitoring is warranted with respect to incentive program goal setting and payouts.</i>

Blended Rationale: A vote AGAINST this proposal is warranted. Amid strong stock price performance, CEO pay increased significantly due to his large entirely time-based equity grant for FY20. The award magnitude exceeds the median total CEO pay of the peers, and the award lacks performance conditions. Also, a newly hired NEO received a similarly sized and entirely time-based equity award. Investors would expect a significant portion of the equity awards be based on rigorous multi-year goals, especially given their large magnitude. Further, although based on pre-set financial metrics, STI program utilizes quarterly performance periods with no disclosed cap on a portion of the payouts.

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<i>Blended Rationale: A vote AGAINST this proposal is warranted. In response to COVID-related impacts, the compensation committee granted special equity awards that, in the case of the NEOs, were generally valued equal to the executive's annual LTI award. It also made changes to long-term performance equity granted in 2019, along with mid-year changes to the 2020 STI and LTI programs. Investors have expressed a degree of flexibility regarding modest changes to short-term pay programs in light of the pandemic; however, retroactive modifications to long-term incentives (particularly those granted before 2020) coupled with sizable additional equity awards are viewed as problematic reactions to COVID-related impacts.</i>

Blended Rationale: A vote AGAINST this proposal is warranted. The CEO's FY20 pay included option awards relating to FY20 and FY19 performance year, resulting in a significant year-over-year increase. Although the LTI program was improved by the introduction of performance shares, there are significant concerns regarding the incentive programs. In particular, the proxy lacks disclosure surrounding the STI goal descriptions and specific achievements relating to such goals, reducing pay transparency. Additionally, the majority of the equity awards lack performance conditions and the performance shares are based on one-year goals, for which targets were not disclosed. Further, the CEO's option awards for the FY20 and FY19 performance year were relatively large.

Annual incentives are primarily, and long-term incentives are half, based on pre-set objective measures. However, due to certain persisting concerns regarding the utilization of annual performance periods in the long-term incentive plan and lack of award cap disclosure, as well as discretionary bonuses made without disclosed details, the executive pay levels will warrant further close monitoring.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<i>Blended Rationale: Following last year's relatively low support for this proposal, the committee engaged with shareholders, disclosed the feedback received from these discussions, and took some positive actions that appear to address shareholders' feedback. The most notable action was a reduction in 2020 incentive pay to partially offset the value of one-time equity awards granted in 2019. Accordingly, the committee demonstrated adequate responsiveness to last year's low vote result. For the 2020 performance year, both annual and long-term incentives were discretionarily reduced to partially offset the prior year's one-time awards. Nevertheless, there are ongoing concerns regarding the structure and goal rigor of the annual incentive assessment for the year in review. Although the committee slightly increased the weighting of the financial component in response to shareholders' feedback, nearly half of the assessment continued to rely on subjective performance metrics. In addition, all financial target goals were set lower than the prior year's attained performance without a clearly disclosed corresponding reduction in payout opportunity. In light of the concerns noted above, the quantitative pay-for-performance misalignment is not mitigated and a vote AGAINST this proposal is warranted.</i>

4	SP 1: Produce a Human Rights Risk Report	Against	For
	<i>Blended Rationale: Vote FOR this shareholder proposal. Given the human rights controversy the company is involved in and in the absence of clear policies and processes to mitigate these human rights risks and manage future risks as it transforms to an AI technology company, the specific disclosure requested by the proponents could be beneficial to shareholders and their ability to assess the ongoing risks and have comfort that the company and the board are appropriately prioritizing their oversight of these risks. Furthermore, it appears the company's strategy should be informed by the UNGPs as the most widely accepted set of governing principles on human rights risks.</i>

2	Ratify Deloitte & Touche LLP as Auditors	For	For
3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<i>Blended Rationale: A vote AGAINST this proposal is warranted. The magnitude of the new CEO's equity awards raises concern, particularly for an internal promotion. Given the size of the awards, pay-for-performance concerns are heightened. Although half of the awards consist of premium-priced options, many investors would expect a greater proportion of performance-based awards, given the magnitude. Further, the proxy does not indicate the awards are intended to cover multiple years of pay, and a sizable portion of the shares covered by the awards time-vest after one year. In addition, annual bonuses were discretionary, without any disclosed pre-set objective metrics, weightings, target goals or even specific individual or company achievements. Concerns over the bonus structure are heightened given that the CEO received a maximum bonus, and her base salary, which her bonus opportunity is based upon, is relatively large. Investors increasingly prefer a pay program structure that emphasizes transparent pay determinations through the use of pre-set objective metrics with clearly disclosed goals.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<i>Blended Rationale: A vote AGAINST the proposal is warranted. The annual bonus payouts, although informed by company performance, appear to be primarily based on the compensation committee's discretionary assessment of performance. In addition, while the CEO's annual equity grant is predominantly in performance-conditioned stock options, the grant value of the award is outsized and the performance period is not clearly defined.</i>

1c	Elect Director Laurie Simon Hodrick	For	For
2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<i>Blended Rationale: A vote AGAINST this proposal is warranted. It is typically expected that pay levels normalize following an IPO. However, although the company completed its IPO in 2017, the CEO's total pay kept increasing year-over-year, and his base salary and equity awards remained relatively high. Additionally, the committee does not utilize an STI program and long-term incentives are entirely time-vesting, while investors generally expect incentive awards be based on pre-set rigorous performance criteria.</i>

Annual incentives rely entirely on pre-set, objective and rigorous goals, and the long-term incentives are primarily performance-based for the CEO and utilize a multi-year performance period. However, continuing concerns regarding the CEO's total compensation, as well as the annual incentive pay schedule, warrant further close monitoring.</i>

1	Accept Financial Statements and Statutory Reports	For	For
2	Approve Remuneration Report	For	Against
<i>Blended Rationale: A vote AGAINST the remuneration report is considered warranted:- The Remuneration Committee exercised discretion and adjusted the PBT outcome under the annual bonus and the EPS outcome of the FY2018/19 LTIP awards to take into account the full costs of managing COVID-19 which totaled GBP 290 million. The PBT element comprised 50% of the total bonus whilst the Basic EPS measure comprised 20% of the LTIP award. As a result of the adjustments, these elements were met in full. It is highlighted that if no discretion were made, performance under the PBT measure and the EPS measure would have resulted in nil vesting for these elements.</i>

	<i>Blended Rationale: WITHHOLD votes are warranted for incumbent directors Brendan O'Grady and Derek Ross given the board's failure to remove, or subject to a sunset requirement, the classified board and the supermajority vote requirement to enact certain changes to the governing documents, each of which adversely impacts shareholder rights. WITHHOLD votes are also warranted for Brendan O'Grady for serving as a non-independent member of a key board committee. WITHHOLD votes are further warranted for incumbent compensation committee member Brendan O'Grady, in the absence of a say-on-pay proposal, due to a misalignment between pay and performance. The co-CEOs' total compensations were relatively high due to excessive equity awards. In addition, specific metrics, goals, and actual results under the STIP remain undisclosed, significant discretionary bonuses were granted to NEOs, and equity awards were entirely time-based.</i>

3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<i>Blended Rationale: A vote AGAINST this proposal is warranted. The CEO's pay increased year-over-year due to the off-cycle equity awards replacing outstanding performance shares. Originally, short-term incentives were linked to rigorous financial goals, and the equity awards were mostly performance-based with multi-year financial goals. However, the incentive awards were modified due to the COVID-19 pandemic. Although the resulting STI payouts were somewhat reasonable, the modifications to LTI awards and the vesting design of the off-cycle equity awards raise significant concerns. In particular, although the relative TSR metric targets outperformance, no vesting cap is disclosed for negative TSR performance, performance measurement periods are relatively short, and a portion of the performance shares were effectively replaced with time-based shares with a short vesting period. Such modifications to in-progress and closing-cycle equity awards are generally not viewed as an appropriate reaction to COVID-19 by many investors.</i>

<i>Blended Rationale: A vote FOR this proposal is warranted. Certain issues under the incentive programs raise some concern. Specifically, incentive programs utilize relatively short performance periods with the STI based on quarterly periods and FY20 PSUs based on annual goals. Additionally, the proxy discloses annual targets rather than quarterly targets under the STI program, and the threshold goals for the PSUs remain undisclosed. However, the STI program is primarily based on financial metrics and the majority of the CEO's equity awards are performance-based. Further, incentive program payouts for FY20 were below target, aligned with relatively lagging TSR performance. Nevertheless, close monitoring of pay outcomes is warranted.</i>

	<i>Blended Rationale: A vote AGAINST non-independent director nominees Patrick Drahi, Dexter Goei, Gerrit Jan Bakker, David Drahi, Dennis Okhuijsen, and Charles Stewart is warranted for failing to establish a board on which a majority of directors are independent and due to the company's lack of a formal nominating committee. A vote AGAINST incumbent board chair Patrick Drahi is warranted for lack of gender diversity on the board. A vote AGAINST Audit Committee members Mark Mullen and Raymond Svider is warranted in light of the pledging activity at the company that poses a material risk to shareholders. A vote AGAINST compensation committee members Mark Mullen and Raymond Svider is further warranted in the absence of a say-on-pay proposal, due to an unmitigated pay-for-performance misalignment. The CEO's equity awards are outsized, and the majority of the NEOs' long-term incentives lack pre-set performance criteria. A vote AGAINST all nominees is warranted for failure to remove, or make subject to a sunset provision, the problematic capital structure adopted in connection with the company's IPO.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For
	<i>Blended Rationale: A vote FOR this proposal is warranted. CEO pay increased due to a one-time equity award. Some concern is noted regarding the CEO's relatively high STI pay opportunity and annual performance measurement periods under the LTI. However, the FY20 STI program was primarily based on rigorous financial goals. Although one-time awards are time-vesting, their value is reasonable, and the annual LTI awards are entirely performance-based with no upside potential. In addition, although based on three annual goals, the performance-based LTI design reflects a year-over-year improvement, as the prior year's performance shares were based on one-year performance only.</i>

<i>Blended Rationale: A vote AGAINST this proposal is warranted. Two NEOs received outsized equity awards, valued at well over \$100 million each. Although the awards are performance conditioned and are intended to cover all compensation for seven years, the annualized grant-date value exceeds the median total pay of company-defined peers. Further, while the stock price hurdles represented a significant premium over the base price, the hurdles may be achieved by short-term peaks in stock-price performance over a seven-year period. Annual incentives for other NEOs were based on pre-set objective metrics; however, their equity awards, which are the largest component of compensation, remained entirely time based.</i>

1.1	Elect Director Jeff Lawson	For	Withhold
<i>Blended Rationale: WITHHOLD votes are warranted for director nominees Jeff Lawson, Jeffrey (Jeff) Epstein, and Byron Deeter given the board's failure to remove, or subject to a sunset requirement, the supermajority vote requirement to enact certain changes to the governing documents and the classified board, each of which adversely impacts shareholder rights.</i>			
1.2	Elect Director Byron Deeter	For	Withhold
<i>Blended Rationale: WITHHOLD votes are warranted for director nominees Jeff Lawson, Jeffrey (Jeff) Epstein, and Byron Deeter given the board's failure to remove, or subject to a sunset requirement, the supermajority vote requirement to enact certain changes to the governing documents and the classified board, each of which adversely impacts shareholder rights. WITHHOLD votes are further warranted for Nominating and Corporate Governance Committee member Byron Deeter due to the board's adoption of an unduly restrictive federal forum selection bylaw, which has not been submitted to a shareholder vote.</i>			
1.3	Elect Director Jeffrey Epstein	For	Withhold
<i>Blended Rationale: WITHHOLD votes are warranted for director nominees Jeff Lawson, Jeffrey (Jeff) Epstein, and Byron Deeter given the board's failure to remove, or subject to a sunset requirement, the supermajority vote requirement to enact certain changes to the governing documents and the classified board, each of which adversely impacts shareholder rights.</i>			
2	Ratify KPMG LLP as Auditors	For	For
3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against

Blended Rationale: A vote AGAINST this proposal is warranted. Amid strong TSR performance, the CEO's total pay remained elevated. Although the CEO's base salary is relatively low and there is no STI program, his equity grant value exceeds the median total CEO pay of the peers. Additionally, the committee does not utilize an STI program and long-term incentives are entirely time-vesting, while investors generally expect incentive awards to be based on pre-set rigorous performance criteria.

1.1	Elect Director Scott W. Morrison	For	Withhold
	<i>Blended Rationale: WITHHOLD votes are warranted for director nominees Mark Perry, Scott Morrison, and Deval Patrick given the board's failure to remove, or subject to a sunset requirement, the supermajority vote requirement to enact certain changes to the governing documents and the classified board, each of which adversely impacts shareholder rights.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
	<i>Blended Rationale: A vote AGAINST this proposal is warranted. The CEO's total pay increased by almost \$10 million from the prior year due to the addition of a special PSU award. While the grant was entirely performance-based, the value was more than total median CEO pay in the peer group.</i>

	<i>Blended Rationale: A vote AGAINST this item is warranted because:- All remuneration committee members are affiliated with the controlling shareholder;- Disclosure is insufficient on the EUR 1.18 million 'exclusive' bonus received by former CEO in relation to 2019, reported in this year's remuneration report; and- The c. 19 percent increase in the executive chairman's salary has not been explained.</i>		
7	Amend Remuneration Policy	For	Against
	<i>Blended Rationale: A vote AGAINST the proposed amendments to the company's remuneration policy is warranted because:- Salary levels have not been disclosed;- The policy significantly increases management's variable pay opportunity, without a compelling rationale;- The focus on short-term incentives (200 percent of salary at max) vs long-term (120 percent at max) is inappropriate; and- The company has missed the opportunity to introduce a clawback provision in its remuneration policy.</i>

2.a	Receive Board Report (Non-Voting)		
2.b	Approve Remuneration Report	For	Against
	<i>Blended Rationale: A vote AGAINST is warranted because:- Insufficient retrospective disclosure on the applicable performance metrics under the STI;- The board decided to grant EUR 3 million in RSUs to the CEO as part of the LTI whereas vesting of these RSUs is not subject to performance;- A one-off award of net EUR 10 million was awarded to the CEO (gross EUR 15.3 million) to compensate for forfeited awards at his previous employer JAB (controlling shareholder of the company). The award is considered excessive and may potentially double in value as the award was invested in the company's investment scheme that matches 1:1 the investment award after a five year period; and- Payments in relation to the termination of former CEO Casey Keller are in deviation of market best practice and concerns are raised with regard to the compensation for a RSU grant in 2020 he did not receive given his resignation.</i>

3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
	<i>Blended Rationale: A vote AGAINST this proposal is warranted. Although annual and long-term incentives are primarily based on objective performance measures, the company uses the same metric – annual recurring revenue measured over a one-year period – as the sole metric for the annual incentive and as the main metric for the performance share units. The company made a mid-year adjustment to the ARR growth target, which ultimately had the effect of turning below-threshold performance on this metric into above-target performance; and the committee neither adjusted payout opportunities in line with the reduced targets, nor exercised discretion to cap payouts. Such modifications to in-progress equity awards are generally not viewed by investors as an appropriate response to the COVID-19 pandemic.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against

Blended Rationale: A vote AGAINST the proposal is warranted. The annual bonus was largely based on rigorous financial metrics, and potential payout was reduced when these goals were also reduced mid-year, though a concern is noted regarding the lack of disclosure surrounding individual performance. Significant concerns are noted within the LTI program. Although half the grant is based on performance equity with a multi-year performance period, the grant value to certain NEOs is excessive.

Proposal Number	Proposal Text	Mgmt Rec	Vote Instruction
1	Accept Financial Statements and Statutory Reports	For	For
2	Approve Remuneration Report	For	Abstain

Blended Rationale: An ABSTAIN vote for the remuneration report is considered warranted for the following reasons:- Significant award outcomes have been achieved under the bonus plan in relation to FY2020/21 performance, which are not considered appropriate given the impact that the COVID-19 pandemic has had on the Company, resulting in staff redundancies, furloughing staff through participation in government assistance schemes, the suspension of dividend payments, and raising capital through a rights issue to improve the Company's liquidity position. The abstention vote recommendation acknowledges that no bonus payments have been made in FY2020/21, as the Company has carried over the achieved bonus awards until FY2021/22, which may pay out subject to the achievement of additional performance metrics. A vote AGAINST this resolution is warranted for those shareholders who have a fiduciary responsibility to vote either for or against, or who do not recognise withhold as a valid option.

1	Amend Articles to Allow Virtual Only Shareholder Meetings	For	Against
	<i>Blended Rationale: A vote AGAINST this proposal is warranted because:- Japanese companies are able to hold virtual meetings using temporary regulatory relief (without amending articles) for two years, but the passage of this proposal will authorize the company to hold virtual meetings permanently, without further need to consult shareholders, even after the current health crisis is resolved.- The proposed language in the articles fails to specify situations under which virtual meetings will be held, raising concerns that meaningful exchange between the company and shareholders could be hindered, especially in controversial situations such as when shareholder proposals are submitted, a proxy fight is waged, or a corporate scandal occurs.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against

Blended Rationale: Following low support for this proposal last year, the committee demonstrated adequate responsiveness by disclosing shareholder engagement and feedback as well as certain improvements to the pay program. Nevertheless, there are pay-for-performance concerns for the year in review. Specifically, the CEO's equity awards granted in 2020 are outsized compared to the median total pay of peers. In addition to his "2020 Long-Term Performance Grant," Kotick received his "2021 Long-Term Performance Grant" in 2020, although his amended agreement already provides eligibility for an additional award in 2021. The vesting of the 2021 Long-Term Performance Grant was accelerated at the maximum performance level due to the triggering of the Shareholder Value Creation Incentive condition. Concerns are also raised regarding COO Alegre's compensation. Per his employment agreement, his base salary is set well above the company's peer median for the CEO position, and his target annual incentive may increase to up to double the initial target opportunity. Further, the first tranche of most of Alegre's sign-on equity awards depended on metrics that were duplicated in the STI program, which provided multiple payouts for the same short-term achievement. Lastly, the company entered into an employment agreement with the COO that provides a problematic life insurance perquisite to the executive's spouse. In light of these concerns, a vote AGAINST this proposal is warranted.

<i>Blended Rationale: A vote AGAINST this proposal is warranted. The CFO's employment agreement provides for modified single trigger severance. Accordingly, he may receive severance for a voluntary resignation upon the change in control. Further, the agreements with other NEOs, including the CEO, allow for a cash payment upon a termination by the company "for any reason" in connection with a change in control. These provisions appear to allow for cash payments even if an executive is terminated "for cause" upon the CIC. Both severance provisions are considered to be problematic pay practices.</i>

1.1	Elect Director Angela Ahrendts	For	Withhold
	<i>Blended Rationale: WITHHOLD votes are warranted for Brian Chesky, Kenneth (Ken) Chenault, and Angela Ahrendts given the board's failure to remove, or subject to a reasonable sunset requirement, the multi-class capital structure, the classified board, and the supermajority vote requirement to enact certain changes to the governing documents, each of which adversely impacts shareholder rights.</i>

2	Ratify PricewaterhouseCoopers LLP as Auditors	For	For
3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
	<i>Blended Rationale: A vote AGAINST this proposal is warranted. Concerns regarding the large time-vesting equity awards are mitigated, as the awards were primarily made in connection with the company's recent IPO. Additionally, although the STI program was modified due to the pandemic, the actual payouts were well below the original targets. Investors may expect incentive programs be more strongly performance-based with pre-set goals going forward. However, the CEO's front-loaded RSUs intended to cover a ten-year period raises significant concerns. Although the award vesting requires significant stock price growth, such large awards can limit the committee's ability to adjust pay in the event of unexpected decline in performance.</i>

1	Amend Articles to Allow Virtual Only Shareholder Meetings	For	Against
<i>Blended Rationale: A vote AGAINST this proposal is warranted because:- Japanese companies are able to hold virtual meetings using temporary regulatory relief (without amending articles) for two years, but the passage of this proposal will authorize the company to hold virtual meetings permanently, without further need to consult shareholders, even after the current health crisis is resolved.- The proposed language fails to specify situations under which virtual meetings will be held, raising concerns that meaningful exchange between the company and shareholders could be hindered, especially in controversial situations such as when shareholder proposals are submitted, a proxy fight is waged, or a corporate scandal occurs.</i>

<i>Blended Rationale: A vote AGAINST this proposal is warranted given significant concerns regarding COVID-related compensation adjustments. Performance goals were adjusted for the annual incentive and the 2018 closing-cycle performance shares. Both awards would have been originally earned below target, but the modifications resulted in target payouts. Although some investors have expressed a degree of flexibility regarding adjustments to short-term awards, adjustments to closing-cycle equity awards are not viewed as an appropriate reaction to COVID-related disruptions.</i>

Blended Rationale: A vote AGAINST the proposed transaction is warranted because:- The company appears to be overpaying for assets in a transaction that although not without strategic merit, comes at a hefty price for current shareholders, who will bear substantial dilution;- The question on valuation should be considered in the context of a change in control, as PPF is effectively acquiring a majority stake in Moneta without paying a control premium; and- Considering the company's robust operating performance and standalone guidance, and given that Moneta's share price has underperformed peers and the Index since the unaffected date, there is seemingly limited downside risk for Moneta shares in rejecting the deal.

<i>Blended Rationale: A vote AGAINST this proposal is warranted because:- Japanese companies are able to hold virtual meetings using temporary regulatory relief (without amending articles) for two years, but the passage of this proposal will authorize the company to hold virtual meetings permanently, without further need to consult shareholders, even after the current health crisis is resolved.- The proposed language fails to specify situations under which virtual meetings will be held, raising concerns that meaningful exchange between the company and shareholders could be hindered, especially in controversial situations such as when shareholder proposals are submitted, a proxy fight is waged, or a corporate scandal occurs.</i>

8	Approve Compensation of Yannick Bollore, Chairman of the Supervisory Board	For	Against
<p><i>Blended Rationale: A vote AGAINST this remuneration report is warranted. Yannick Bollore is considered as an executive of the group by Sustainability Advisory Services due to the level and structure of his remuneration, which are comparable to those of Vivendi's management board members. His remuneration report falls short of good market practice because notably as:- Information on his short-term variable remuneration as chairman and CEO of Havas is very limited; and- Yannick Bollore received performance shares while he serves as supervisory board chairman of the company. This type of remuneration for a supervisory board chairman is a highly uncommon practice with unclear added value for shareholders.</i></p>

These are neither properly tackled by the company's procedures nor likely to be balanced out by the remunerations that they receive at Vivendi; and- Given their executive functions in another listed group, the company failed to properly demonstrate the link between the activities carried out for Vivendi and the remunerations paid by Vivendi;</i></p>

Further, while the equity awards for non-CEO executives were half performance conditioned, the target goal is also undisclosed, the PSUs are earned based on a single year's performance, and the incoming president's grants were substantial in magnitude. Lastly, the committee modified LTI PSUs that had been granted in September 2019 in response to COVID-related impacts.</i>

Proposal Number	Proposal Text	Mgmt Rec	Vote Instruction
1.1	Elect Director Roxanne S. Austin	For	Withhold
	<i>Blended Rationale: WITHHOLD votes are warranted for director nominees Gerhard Watzinger, Roxanne Austin, and Sameer Gandhi given the board's failure to remove, or subject to a reasonable sunset requirement, the dual-class capital structure, supermajority and "pop-up" supermajority vote requirements to enact certain changes to the governing documents, and the classified board, each of which adversely impacts shareholder rights.</i>		
1.2	Elect Director Sameer K. Gandhi	For	Withhold
	<i>Blended Rationale: WITHHOLD votes are warranted for director nominees Gerhard Watzinger, Roxanne Austin, and Sameer Gandhi given the board's failure to remove, or subject to a reasonable sunset requirement, the dual-class capital structure, supermajority and "pop-up" supermajority vote requirements to enact certain changes to the governing documents, and the classified board, each of which adversely impacts shareholder rights.</i>

2	Ratify PricewaterhouseCoopers LLP as Auditors	For	For
	<i>Blended Rationale: A vote FOR this proposal to ratify the auditor is warranted.</i>		
3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
	<i>Blended Rationale: A vote AGAINST this proposal is warranted. Although the CEO's annual bonus payout is no longer discretionary, target goals for his and other NEOs' annual incentive programs are undisclosed, thereby impeding an informed assessment of payouts, which were all above target. Three executives' salaries were increased to levels that exceed the CEO peer median; the high salaries have a compounding effect on target annual incentives, which are directly proportional to salary levels. In addition, each NEO's equity award was valued well above the median total pay of peer CEOs, and the awards are primarily time-based. The portion that is performance-based depends on a rigorous revenue target; however, performance is measured over only one year, while investors typically expect the majority of equity awards to be earned based on multi-year performance periods.</i>		
4	Advisory Vote on Say on Pay Frequency	Three Years	One Year
	<i>Blended Rationale: A vote for the adoption of an ANNUAL say-on-pay frequency is warranted. Annual say-on-pay votes are considered a best practice as they give shareholders a regular opportunity to opine on executive pay.</i>		
5	Amend Qualified Employee Stock Purchase Plan	For	For
	<i>Blended Rationale: A vote FOR this proposal is warranted. Although the number of shares that may become available for issuance under the plan pursuant to the share replenishment provision could result in excessive voting power dilution, implementing an additional limitation on the plan's share replenishment provision is a positive amendment.</i>

3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against

Blended Rationale: A vote AGAINST this proposal is warranted. Concerns are raised regarding the incentive programs. Although the bonus determinations were informed by the achievements in certain metrics, the committee retains a significant amount of discretion in payout decisions. Additionally, the CEO's FY20 equity awards were relatively large, and equity awards lack pre-set performance conditions. Further, the committee made COVID-related modifications to in-progress PSUs, which is not viewed as an appropriate reaction to pandemic-related business disruption by many investors.

5	Approve Compensation of Denis Kessler, Chairman and CEO	For	Against
<p><i>Blended Rationale: A vote AGAINST this remuneration report is warranted because:- It is difficult to assess the overperformance of the qualitative performance criteria attached to the bonus.- The target setting for the solvency-based criterion is based on the lower threshold level of the Quantum Leap plan's target range, delivering a limited variability on the criterion.- The performance criteria attached to the LTIP granted are deemed to lack stringency.- There is no indication that the LTIPs will be pro-rated despite Mr. Kessler stepping down as CEO.</i></p>

<p><i>Blended Rationale: A vote AGAINST this remuneration policy is warranted because:- The absence of precise and explicit remuneration policy for the new CEO makes his remuneration unclear on some aspects.- The ROE performance condition attached to the LTIP remains problematic; and- The performance conditions attached to the termination package are deemed to lack stringency.</i></p>

Proposal Number	Proposal Text	Mgmt Rec	Vote Instruction
1	Accept Financial Statements and Statutory Reports	For	For
2	Approve Remuneration Report	For	Against
<p><i>Blended Rationale: A vote AGAINST the remuneration report is considered warranted because:- Despite participation in the UK Government's Coronavirus Job Retention Scheme and the Republic of Ireland's Temporary Wage Subsidy Scheme, bonuses were paid to the Executive Chair and the CFO in FY2020/21.</i></p>			
3	Approve Remuneration Policy	For	Against
<p><i>Blended Rationale: A vote AGAINST the proposed remuneration policy is considered warranted because:- Under the proposed policy, share awards may be granted under the LTIP. However, only the Executive Chair will receive his LTIP award in share awards. For the other executives, initially, one-third of awards will be granted in share awards with the balance paid in cash. Further, cash awards will vest after a three-year period (share awards will vest five years after grant). Overall, the structure of the proposed LTIP is not considered fully in line with UK best practice.- Concerns raised with the policy last year remain the lack of shareholding guidelines, the all-cash structure of the annual bonus and the lack of clarity under the policy with regard to the treatment of LTIP awards upon a change of control.</i></p>			
4	Re-elect Peter Cowgill as Director	For	Against
<p><i>Blended Rationale: Votes AGAINST incumbent Nominating Committee chair Peter Cowgill are warranted for lack of gender diversity on the board.A vote AGAINST the re-election of Peter Cowgill is further warranted because:- Peter Cowgill serves in the effective role of a combined Board Chair and CEO, which contradicts the provisions of the UK Corporate Governance Code;- In addition to being Executive Chair at JD Sports, Peter Cowgill serves as board chair of Quiz Plc. He is also chair of a non-listed company, Roxor Group Limited. These are significant external time commitments, and may potentially undermine his effectiveness as the Executive Chair of the Company.A vote AGAINST the re-election of Andrew Leslie is warranted because:- Andrew Leslie is a non-independent NED on the Board, and is also Chair of the Remuneration Committee and a member of the Audit Committee. His membership on the Board has contributed to the composition of the Board and the key Committees failing to comply with the provisions of the UK Code.- The remuneration report has consistently registered significant levels of dissent from shareholders since the 2014 AGM, during which time the director has chaired the Remuneration Committee. Given the continued level of dissent, along with ongoing concerns regarding the viability of the remuneration arrangements at the Company, the director's re-election cannot be supported.Votes FOR the remaining nominees are warranted.</i></p>

<i>Blended Rationale: A vote AGAINST the proposed 2021 LTIP is considered warranted because:- Although share awards are being introduced, only the Executive Chair will receive an LTIP award wholly as a share award. The other Executive Directors will participate initially with a minimum of one-third of any base award granted as a share award and the balance as a cash award. Prosus NV

Proposal Number	Proposal Text	Mgmt Rec	Vote Instruction
1	Approve Proposed Transaction	For	Against
<i>Blended Rationale: A vote AGAINST is warranted at this time because:- The proposed group restructuring is not considered to fully address the substantial discount to NAV the company is trading at;- Absence of concrete and comprehensive evidence that this proposal will in fact address the NAV discount or what subsequent steps will be taken to address this concern in full;- The proposal entails increased complexity and an introduction of a cross-holding structure resulting in a governance that is considered to be a poor construct for management accountability and potentially perpetuates existing issues with the creation of disparity between economic and voting control at Prosus.However, this is not without recognizing that management suggests a well-intentioned solution which in theory should benefit both sides, whereas Naspers' control over Prosus remains similar (i.e. 72 percent voting control).</i>

1.1	Elect Director Fahim Ahmed	For	Withhold
<i>Blended Rationale: WITHHOLD votes are warranted for incumbent directors Fahim Ahmed, Michael Chang, and James Star given the board's failure to remove, or subject to a sunset requirement, the dual-class capital structure, classified board, and the pop-up supermajority vote requirement to enact certain changes to the governing documents, each of which adversely impacts shareholder rights. WITHHOLD votes are further warranted for non-independent director nominees Fahim Ahmed and Michael Chang for failing to establish a board on which a majority of the directors are independent directors, and for serving as non-independent members of certain key board committees.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For
	<i>Blended Rationale: A vote FOR this proposal is warranted. CEO pay declined and pay-for-performance concerns for the year in review were sufficiently mitigated. Specifically, while performance was measured over two six-month periods, STI payouts for the CEO were based on pre-set financial goals. Further, equity awards were primarily performance-based with clearly disclosed multi-year goals. However, some concern does remain, as the relative TSR metric targets merely median performance, and payouts are not capped for negative TSR performance. Following last year's failed say-on-pay vote, the company engaged with shareholders to gather their feedback on executive compensation and other matters. In addition, a supplemental filing provides further details on the specific feedback received, all of which related to last year's special value creation awards, and an extended commitment to refrain from granting VCAs for a period of time. Specifically, the committee committed to not make additional VCA grants to the NEOs for at least five years from the date of the 2021 AGM, unless the awards are ratified or approved by shareholders. Further, the supplemental filing notes that if at any time similar awards are considered, the committee intends to incorporate shareholder feedback into the timing, structure, and performance targets of such grants. The additional disclosure of shareholder feedback and commitment provided in the supplemental filing represent a significant improvement from the disclosure and changes disclosed in the proxy statement.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For
<i>Blended Rationale: A vote AGAINST this proposal is warranted. While CEO pay declined and pay-for-performance concerns for the year in review were sufficiently mitigated, the compensation committee did not adequately respond to last year's failed say-on-pay vote. Although the company engaged with shareholders, disclosed certain concerns regarding large VCA awards made to the CEO last year, and committed not to make additional awards in the next two years, disclosed investor feedback was vague and the no changes were made to the existing VCA awards. Without clear disclosure of the investor concerns that led to the failed vote, it is difficult to assess if the committee's actions fully address shareholder dissatisfaction. In addition, last year's proxy already noted that the company did not intend to grant VCA awards on an annual or on-going basis, prior to the failed vote.</i>

6	Approve Payment and Facilities to be Extended to Rahul Kumar Kamalnayan Bajaj as Chairman Emeritus	For	Against
<i>Blended Rationale: A vote AGAINST this resolution is warranted because:- The proposed payments are a deviation from market practice and stand out as excessive given that he is no longer a board member and in view of the limited role and responsibilities of the chairman emeritus – which is considered to be an honorary position in the Indian context.- The articulated contribution of the nominee towards the company is generic in nature and reflects the expected duties of any non-executive director. There is no disclosed rationale to justify the significantly higher pay level as compared to other board members who, by virtue of their position, would be expected to have a greater role in mentoring and guiding the management. - The proposal would enable the company to alter the terms and conditions of his proposed payments without seeking further shareholder approval – in its current form, this allows circumvention of the existing regulations applicable to non-executive directors on the board.</i>

<i>Blended Rationale: There appears to be sound strategic rationale for a combination with PPL and the all-stock consideration provides an opportunity for shareholders to participate in the potential upside of the combined company. However, the combination with PPL carries execution risk and shareholders have also been offered a competing bid from BIP which has financing certainty, no regulatory risk, and an all-cash option. Absent an improvement of terms from PPL, shareholders appear to be better off with the riskless option from BIP's deal. As such, shareholders are recommended to vote AGAINST this proposal based on the current terms.</i>

2.2	Elect Geoffrey Cumming as Director	For	For
2.3	Elect Warren Bell as Director	For	Against
<i>Blended Rationale: A vote AGAINST the re-election of Warren Bell is warranted. His presence contributes to the board not being majority independent. He is designated as the sole shareholder representative of Hickman Family Trustees Ltd (which owns 6.64 percent of the company's shares). Bell's board representation of 11 per cent is disproportionate to the shareholding which he represents. He is also a member of the audit committee, which is only 50 percent independent, and does not meet good governance expectations of many shareholders.</i>

<i>Blended Rationale: A vote AGAINST the re-election of Jo Appleyard is warranted. 4	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
	<i>Blended Rationale: A vote AGAINST this proposal is warranted. While annual incentives were primarily determined by objective metrics, NEOs received supplemental recognition bonuses which appear to incorporate a significant amount of committee discretion. In addition, the value of the CEO's long-term incentive award increased substantially from the previous year and was greater than 2.5 times the median total pay for CEOs in the company-defined peer group. This is of particular concern given that a significant majority of the equity awards remained time-vesting.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For
	<i>Blended Rationale: The annual incentive plan was based on pre-set financial goals, determined semi-annually and long-term incentives consisted of a majority performance-conditioned equity. However, the performance objectives for long-term equity incentives are determined annually, followed by two additional years of vesting, with half of the award based on achievement of the objectives. This may potentially over-emphasize short-term results. Nevertheless, a vote FOR this proposal is warranted as pay and performance are reasonably aligned for the year in review.</i>		
3	Advisory Vote on Say on Pay Frequency	One Year	One Year
	<i>Blended Rationale: A vote for the adoption of an ANNUAL say-on-pay frequency is warranted. Annual say-on-pay votes are considered a best practice as they give shareholders a regular opportunity to opine on executive pay.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<i>Blended Rationale: A vote AGAINST this proposal is warranted. The STI and LTI programs no longer utilize a duplicated metric, and the LTI performance period was extended to multiple years. In addition, the incentive programs are primarily based on objective performance. However, no quantified goals are provided for several performance metrics, which precludes an assessment of goal rigor and pay and performance linkage, and the CEO's target STI opportunity is sizable. Although annual PSU awards are capped at target if TSR is negative, the target of median performance may not be viewed as particularly rigorous, a portion can be earned based on a secondary peer group, and certain forward-looking goals were not disclosed. Further, NEOs received special COVID-related PSU grants which are based on a one-year performance period and lack disclosure of specific target goals.</i>

	<i>Blended Rationale: Vote WITHHOLD for Dani Reiss for serving as an executive director and Joshua (Josh) Bekenstein for serving as a controlling shareholder on the Nominating Committee.</i>		
1.2	Elect Director Ryan Cotton	For	Do Not Vote
	<i>Blended Rationale: Vote WITHHOLD for Ryan Cotton for serving as a controlling shareholder on the Compensation Committee. The quantitative pay-for-performance screen has identified a high concern due to company's CEO pay-to-TSR alignment (PTA) and by the company's multiple of peer group median (MOM). This concern level has been maintained after qualitative assessment due to the following reasons:- The CEO's total compensation in FY 2021 increased by 166 percent as compared to FY 2020, driven by approximately \$5.7 million bonus (\$0 in FY 2020 and highest in last five fiscal years), \$1.1 million RSU awards (\$0 in FY 2020), and 61% increase in stock option awards based on grant date value;- The target achievement levels used to determine the CEO's annual bonus in 2021 were significantly lower than the targets set in the previous years and the actual results of prior years. In addition, the company does not appear to have any maximum payout set for bonus and the achievement of above target was designed to result in bonus being earned at 100% of target plus 6% (8% in 2020) of target for each 1% over EBIT target;- Notwithstanding the company's one-year TSR of 75 percent, on relative basis, the company has underperformed its's self-selected peers over both one-year and three-year timeframes, while the CEO's granted pay was second highest as compared to its peers.Considering the above listed reasons, along with other problematic pay practices including lack of performance conditions in connection with large equity grants, a vote withhold is warranted for the continuing compensation committee members Ryan Cotton (committee chair) and Maureen Chiquet.</i>

	<i>Blended Rationale: The quantitative pay-for-performance screen has identified a high concern due to company's CEO pay-to-TSR alignment (PTA) and by the company's multiple of peer group median (MOM). This concern level has been maintained after qualitative assessment due to the following reasons:- The CEO's total compensation in FY 2021 increased by 166 percent as compared to FY 2020, driven by approximately \$5.7 million bonus (\$0 in FY 2020 and highest in last five fiscal years), \$1.1 million RSU awards (\$0 in FY 2020), and 61% increase in stock option awards based on grant date value;- The target achievement levels used to determine the CEO's annual bonus in 2021 were significantly lower than the targets set in the previous years and the actual results of prior years. In addition, the company does not appear to have any maximum payout set for bonus and the achievement of above target was designed to result in bonus being earned at 100% of target plus 6% (8% in 2020) of target for each 1% over EBIT target;- Notwithstanding the company's one-year TSR of 75 percent, on relative basis, the company has underperformed its's self-selected peers over both one-year and three-year timeframes, while the CEO's granted pay was second highest as compared to its peers.Considering the above listed reasons, along with other problematic pay practices including lack of performance conditions in connection with large equity grants, a vote withhold is warranted for the continuing compensation committee members Ryan Cotton (committee chair) and Maureen Chiquet.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
	<i>Blended Rationale: Following last year's failed say-on-pay vote, the compensation committee demonstrated adequate responsiveness by disclosing shareholder engagement and feedback as well as certain improvements to the pay program. Most notably, in a supplemental filing, the committee made a commitment to not grant special equity awards to the NEOs at least through the end of FY26. However, there are unmitigated pay-for-performance concerns for the year in review. Specifically, the CEO's "enhanced" equity awards granted in FY21 on a one-time basis are outsized at \$30 million, which alone exceeded the median total pay for CEOs in the company-defined peer group. Further, a significant portion of the annual incentive program was based on qualitatively-disclosed strategic objectives, which makes it difficult for shareholders to assess the pay for performance linkage. In addition, concerns are heightened given that the CEO received a maximum annual incentive payout of \$5 million. Lastly, a portion of the PSUs continue to utilize relatively short performance periods with additional vesting opportunities, which reduce the long-term nature of the program. In light of these concerns, a vote AGAINST this proposal is warranted.</i>

DXC Technology Company

Proposal Number	Proposal Text	Mgmt Rec	Vote Instruction
3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against

Blended Rationale: Following the low support for say-on-pay in 2020, the company engaged with a significant portion of its shareholder base and made changes and commitments to address certain concerns related to the executive compensation program. These included the company making a commitment to only pay for actual performance and not waive performance conditions on incentive awards going forward. In addition, the company improved its disclosure regarding the rationale for using certain performance metrics. However, there is an unmitigated pay-for-performance misalignment for the year in review. Specifically, the annual incentive pool was funded above target based on financial goals that were set significantly lower than the prior year, while executives' payout opportunities remained unchanged. The application of a subjective strategic modifier then increased the CEO's payout from above target to the maximum level. Further, the company does not provide a compelling rationale for the significant decrease in the proportion of PSUs granted to certain NEOs. In addition, retention and one-time awards appear to be problematic, as certain awards are entirely time-based with a fairly short vesting period. This also includes a sizable lump-sum cash payment to one NEO. Finally, the CEO's employment agreement provides for a cash payment upon any termination of employment, which is considered a problematic pay practice. Although the compensation committee has demonstrated adequate responsiveness, a vote AGAINST this proposal is warranted in light of the above pay-for-performance concerns.

6	Approve Payment of Remuneration of S. Sandilya as Chairman (Non-Executive & Independent Director)	For	Against
---	---	-----	---------

Blended Rationale: A vote AGAINST this resolution is warranted given that:- There are concerns over the lack of alignment between pay and performance.- His pay in FY2021 increased by c.11%, as compared to the 1% increase in the median remuneration of employees.- He is a member of the Nomination and Remuneration committee, which poses material conflicts of interest with regard to his pay arrangements.

<i>Blended Rationale: A vote AGAINST this proposal is warranted because:- Japanese companies are currently allowed to hold virtual only meetings using temporary regulatory relief (without amending articles) for two years, but the passage of this proposal will authorize the company to hold virtual only meetings permanently, without further need to consult shareholders, even after the current health crisis is resolved.- The proposed language fails to specify situations under which virtual meetings will be held, raising concerns that meaningful exchange between the company and shareholders could be hindered, especially in controversial situations such as when shareholder proposals are submitted, a proxy fight is waged, or a corporate scandal occurs.</i>

7	Approve Remuneration Policy	For	Against

8	Approve Implementation of the Remuneration Policy	For	Against
	<i>Blended Rationale: A vote AGAINST this item is considered:- LTIP award quantum is high, and comprises a large portion that is not subject to pre-determined performance conditions.</i>		
9	Place Authorised but Unissued Shares under Control of Directors	For	Against
	<i>Blended Rationale: A vote AGAINST this item is warranted:- The proposed authority could result in significant levels of dilution and would give the Board the ability to make significant decisions that ought to be presented for specific shareholder approval.- The authority could involve the issues of new A ordinary shares, which have multiple voting rights, and therefore perpetuate the Company's dual-class share structure.</i>

<i>Blended Rationale: A vote AGAINST this resolution is warranted in view of the following concerns in the executive's remuneration:- There is no clarity on the metrics and parameters that will guide variable pay outcomes under this framework. This is concerning given a sizeable quantum of his remuneration is attributed to these pay components.- There is no information on the size, scope and nature of stock options/RsUs that could be granted to him.- His total pay quantum is considered highly excessive and aggressively positioned when compared to industry peers.- Disclosures on his previous remuneration payouts could be made more robust.</i>

3	Approve Omnibus Stock Plan	For	Against
<i>Blended Rationale: Based on evaluation of the estimated cost, plan features, and grant practices using the Equity Plan Scorecard (EPSC), a vote AGAINST this proposal is warranted due to the following key factors:- The plan cost is excessive;- The estimated duration of available and proposed shares exceeds six years;- The disclosure of change-in-control ("CIC") vesting treatment is incomplete (or is otherwise considered discretionary);- The plan allows broad discretion to accelerate vesting; and- There is a pay-for-performance misalignment that is driven by problematic equity grant practices, and the plan is not sufficiently broad-based (an overriding factor).</i>			
4	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against

Blended Rationale: A vote AGAINST this proposal is warranted. The compensation committee has not demonstrated sufficient responsiveness to last year's failed say-on-pay vote. In addition, there is an unmitigated pay-for-performance misalignment for the year in review. Although the CEO's STI and LTI are entirely based on pre-set objective metrics, significant concerns are raised. Specifically, the CEO's entire STI and majority of LTI is determined based on annual EBITDA performance, the remaining LTI determination is also based on only one-year performance, and performance targets in incentive programs were set below the prior year's targets and actual results without a decline in pay opportunities. Further, the magnitude of the CEO's granted equity was outsized, even in consideration of recent strong share price performance.

1	Accept Financial Statements and Statutory Reports	For	For
2	Approve Remuneration Report	For	Against
	<i>Blended Rationale: A vote AGAINST this item is considered warranted:- The CFO received a significant salary increase, which brings his salary above median for FTSE 100 companies. This will accompany significant variable pay award opportunities in FY2022, due to a larger LTIP award, and a once-off Strategic Plan award grant following the AGM.- Bonus award target-setting for FY2021 can accommodate further stretch, and is justified with limited rationale.</i>		
3	Approve Remuneration Policy	For	Against
	<i>Blended Rationale: A vote AGAINST this item is considered warranted:- The new LTIP will have a higher award opportunity, under which additional one-off Strategic Plan awards will be granted to EDs in FY2022. The total quantum is significant and is not supported with compelling rationale.</i>

<i>Blended Rationale: A vote AGAINST this proposal is warranted. Significant front-loaded option awards are granted for the NEOs, which can limit the committee's ability to adjust pay based on performance. In addition, the annualized value of the CEO's award is relatively large. While a majority of stock options are tied to performance metrics, forward-looking goals were not specified, and the metrics utilized are the same as for the annual incentive plan.</i>

<i>Blended Rationale: A vote AGAINST this proposal is warranted because:- Japanese companies are currently allowed to hold virtual only meetings using temporary regulatory relief (without amending articles) for two years, but the passage of this proposal will authorize the company to hold virtual only meetings permanently, without further need to consult shareholders, even after the current health crisis is resolved.- The proposed language fails to specify situations under which virtual meetings will be held, raising concerns that meaningful exchange between the company and shareholders could be hindered, especially in controversial situations such as when shareholder proposals are submitted, a proxy fight is waged, or a corporate scandal occurs.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<i>Blended Rationale: A vote AGAINST the proposal is warranted. Although the compensation committee was adequately responsive to shareholder concerns following last year's low say-on-pay vote result, pay-for-performance concerns were unmitigated for the year in review. The annual bonus was based on pre-set objective metrics, and the adjustments the company made due to the effects of the pandemic were reasonable and well-disclosed. However, the structure of the long-term program is concerning. The performance-vesting portion of the LTI program makes up approximately only one-third of the total LTI by value, resulting in an overemphasis of time-vesting awards. The proxy also does not indicate that the proportion of time-vested to performance-conditioned awards will change in FY22. There are also concerns regarding the pay levels of the Executive Chairman, which exceeded the total median CEO pay in the company's peer group, without compelling rationale.</i>			
3	Ratify PricewaterhouseCoopers LLP as Auditors	For	For
4	Report on Political Contributions Disclosure	Against	For
<i>Blended Rationale: A vote FOR this proposal is warranted, as more comprehensive information regarding Nike's political contribution spending and nonprofit organization participation would enable shareholders to have a more comprehensive understanding of the company's political activities. The company's board states that it has approved updates to its current political contributions policy to increase transparency and oversight, however, those will not take effect until January 2022.</i>			
5	Report on Human Rights Impact Assessment	Against	For
<i>Blended Rationale: A vote FOR this proposal is warranted, as additional information regarding the processes the company uses to identify and assess human rights impacts in its operations and supply chain would allow shareholders to better gauge how the company is managing human rights related risks.</i>			
6	Report on Median Gender/Racial Pay Gap	Against	For
<i>Blended Rationale: A vote FOR this proposal is warranted, as shareholders would benefit from measuring the progress of the company's existing diversity and inclusion initiatives. Additionally, adoption of this proposal should serve to further strengthen the company's existing diversity initiatives.</i>			
7	Report on Diversity and Inclusion Efforts	Against	For
<i>Blended Rationale: A vote FOR this resolution is warranted, as additional diversity-related disclosure would allow shareholders to better assess the effectiveness of the company's diversity and inclusion efforts and management of related risks.</i>

1.1	Elect Director James Murdoch	For	Against
	<p><i>Blended Rationale: Votes AGAINST directors James Murdoch and Kimbal Musk are warranted due to concerns regarding excessive compensation to named executive officers and to non-executive directors. A vote AGAINST Murdoch is further warranted, in his capacity as a member of the governance committee, given the board's insufficient responsiveness to last year's majority-supported shareholder proposal. A vote AGAINST Murdoch is further warranted, in his capacity as a member of the audit committee, given concerns about the board's risk oversight in light of the pledging of a significant amount of the company's stock by certain directors. Significant risks to shareholders stemming from severe ESG controversies have been identified at the company, which reflects a failure by the board to proficiently guard against and manage material environmental, social and governance risks. Votes AGAINST James Murdoch and Kimbal Musk are warranted for the following reasons:- Given that board chair, Robyn Denholm, who shoulders the greatest responsibility amongst the board members for failing to effectively supervise the management of risks to the company and its shareholders is not up for election at this year's annual meeting, all board members should be held accountable for poor board and management oversight of ESG risk exposures at the firm.</i></p>

3	Approve Continuance of Payment of Remuneration to Rahul Mammen Mappillai as Managing Director	For	Against
<i>Blended Rationale: A vote AGAINST these resolutions is warranted in view of the following concerns in the executive's remuneration:- There are concerns on alignment of pay with performance, since the aggregate remuneration of the directors has increased, even in the years when the company experienced a fall in its profitability.- There is lack of sufficient justification behind the timing of this proposal to exceed the regulatory thresholds for remuneration - particularly given the uncertainties on future outlook and operations.- All the executive directors belong to the promoter group and K M Mammen, a promoter director is a member of the nomination and remuneration committee. The presence of an executive member in the committee is likely to create conflicts of interest and undermine the committee's objectivity and effectiveness, particularly when dealing with executive compensation.</i>

<i>Blended Rationale: A vote AGAINST the grant of PSUs to CEO Paul Perreault is warranted. - The quantum of the award is excessive, - The seven-year performance period for the ROIC performance measures includes four prior years' performance outcomes that already known and achieved and may allow the performance targets to be achieved with lower performance over three prospective years – this structure may provide for greater certainty of vesting, with the potential of smoothing or duplicating the executive reward for performance that has already been achieved, - The maximum ROIC hurdle have been reduced from 23 percent in the FY21 LTI grant to 21.4 percent, whereas the threshold ROIC remains unchanged at 20 percent – this also represents a very narrow range of performance, - The Investment Hurdle Rate (IHR) gateway measure continues not to be disclosed, and- The Earnings Per Share growth targets have been set at an insufficiently challenging level with a threshold set at 5 percent.</i>

2d	Elect Julie Galbo as Director	For	For
3	Approve Remuneration Report	For	For
4	Approve Grant of Restricted Share Units and Performance Rights to Matt Comyn	For	Against

Blended Rationale: A vote AGAINST this resolution is warranted. While the grant of performance rights is aligned with shareholder interests of a four-year performance period with additional deferral and vesting subject to relative TSR compared to two disclosed peer groups, concerns are raised for the inconsistency of the RSUs with shareholder interests. - The quantum of the long-term award has increased substantially due to an 8.7 percent increase in the CEO's fixed remuneration which is well above general salary inflation. - The grant of RSUs is valued at \$1.75 million and subject only to ongoing service and board discretion to apply malus and clawback provisions. Without disclosure of substantive performance conditions, this component of the award essentially represents deferred fixed remuneration issued as equity. The case has not been made by the bank to support the grant of RSUs which are considered to represent a problematic pay practice in the Australian market and inconsistent with shareholder interests and expectations for long term equity grants. Concern is also raised how the board has made the case to shareholders that the APRA regulatory standard on remuneration (CPS 511) has been satisfied through the grant of RSUs given the absence of appropriate disclosure of rigorous non-financial performance measures.

16	Re-elect Ken MacKenzie as Director	For	Against
	<i>Blended Rationale: Votes AGAINST incumbent Nominating Committee chair Kenneth (Ken) MacKenzie are warranted for lack of gender diversity on the board. Significant risks to shareholders stemming from severe ESG controversies have been identified at the company, which reflects a failure by the board to proficiently guard against and manage material environmental, social and governance risks. Votes AGAINST board chair Kenneth (Ken) MacKenzie are warranted given that the chair of the board ultimately shoulders the most responsibility amongst all board members for failing to effectively supervise the management of risks to the company and its shareholders, and should therefore be held the most accountable for poor board oversight of ESG risk exposures at the firm.</i>

20	Approve the Climate Transition Action Plan	For	Against
<i>Blended Rationale: A vote AGAINST this resolution is warranted given concerns with the company's scope 3 targets. The company's pursuit of its long-term goal of net zero scope 3 GHG emissions by 2050 is dependent on the divestment of its oil and gas business and the sale of its interest in Cerrejon. Further, it also relies on technology innovations relating to the main business of steelmaking which presents material risks in the long-term and of which are still ongoing. Additionally, the company's public commitments have not been approved by the Science Based Targets Initiative (SBTi).</i>

Dexus

Meeting Date: 10/19/2021 Country: Australia Meeting Type: Annual Ticker: DXS

Proposal Number	Proposal Text	Mgmt Rec	Vote Instruction
1	Approve Remuneration Report	For	Against
<i>Blended Rationale: A vote AGAINST the remuneration report is warranted. A misalignment of pay, performance and shareholder outcomes is observed and certain problematic pay practices in connection with the grant of retention rights to executives (including the CEO) are inconsistent with shareholder interests and outcomes. - STI bonuses are materially higher than in the prior year and at maximum, LTI vesting is at maximum and the board has approved a grant of retention rights compounding misalignment with shareholder interests. - The rigor of STI performance hurdles is questioned given threshold AFFO growth per security is negative 1 percent and target at 0 percent growth. - Non-financial objectives in the FY21 STI are questioned in offering bonuses for the "day job", with disclosure indicating that these have been consistently achieved since FY14. - The retention rights granted to the non-CEO executives are subject to employment and time-based vesting, with no performance conditions. - The CEO's retention rights are subject to non-financial performance measures with unclear performance hurdles, raising concerns for increased certainty of vesting and misalignment of board discretion with shareholder outcomes. - The vesting of the retention rights will commence within three years from the date of grant, which is inconsistent with the long-term focus of investors. - The board introduced a below the range threshold for AFFO growth in the FY21 LTI, where 25 percent of the AFFO component would vest if the target was not achieved, whereas previously there was no bonus</i>			
2	Approve Grant of Performance Rights to Darren Steinberg	For	Against
<i>Blended Rationale: A vote AGAINST this resolution is warranted. - Non-financial measures have been introduced to this FY22 LTI, representing 20 percent, which appears to be assessed against "day job" duties (eg development, investment and divestment, and growth in funds management); and- Concerns for the rigor of targets are noted.</i>			
3.1	Elect Warwick Negus as Director	For	For
3.2	Elect Penny Bingham-Hall as Director	For	For
3.3	Elect Tonianne Dwyer as Director	For	For
4	Approve Amendments to the Constitutions	For	Against

Blended Rationale: A vote AGAINST this resolution is warranted:- The proposed new constitution includes wording that could permit general meetings to be held by virtual-only means. - While there is recognition of the benefits of increased participation at shareholder meetings via electronic means, concerns are raised for any moves to completely eliminate any physical attendance at a meetings. Virtual-only meetings may impact on shareholder rights in holding directors publicly accountable and may hinder meaningful exchanges between directors and shareholders. - It is also recognised that there is a case for greater flexibility in meeting formats given the current global health pandemic; however, this has been addressed by the temporary relief announced by the Australian Government on 10 August 2021 which allows companies to hold virtual meetings and use electronic communications to send meeting materials and execute documents until 31 March 2022. Accordingly, there appears no benefit to shareholders from approving this provision at present. - Going forward, constitutional language reflecting a hybrid meeting format, which provides for physical attendance concurrently with the use of virtual technology to hold meetings, would not negatively impact shareholder rights (compared with a virtual-only meeting format) and would represent the preferences of shareholders.

8	Approve Grant of Restricted Share Rights and Performance Share Rights to Frank Calabria	For	Against

Blended Rationale: A vote AGAINST the grant of share rights to the CEO is warranted given concerns for misalignment of the restricted share component with market practice and shareholder interests. - Restricted share rights represent 50 percent the award and valued at \$1.1 million, - The Board has stated the restricted share rights tranche "is expected to vest unless there are material adverse deviations in the underlying health and performance of the Company" essentially representing deferred fixed remuneration, - The performance measures include a number of customer, community, planet, people and culture objectives that are best classified as 'day job' responsibilities and not worthy of being included in this long term incentive bonus, - Without substantive performance measures the grant of restricted share rights is simply deferred fixed remuneration involving a greater degree of certainty.

2c	Elect Ziggy Switkowski as Director	For	For
3	Approve Remuneration Report	For	Against
<i>Blended Rationale: A vote AGAINST the remuneration report is warranted.- Heightened concern is noted in quantified pay-for-performance analysis.- The company paid excessive termination benefits to former executives who were classified as "good leavers" when governance, compliance, and oversight failures were identified in regulatory inquiries at a time while the executives served in key leadership positions.- The new CEO received a substantial sign-on bonus with a quantum that exceeds \$5 million and conditioned only on continued employment.- The new CEO's fixed remuneration is well above the median of the ASX 51-75 and ISS-selected peers.- The chair and NED fees are materially in excess of peers.- The company does not have any shareholding guidelines, which is expected as a matter of good corporate governance in this market, especially at a time when a new board and executive leadership team appears to be offered significant and excessive remuneration.</i>			
4	Approve Grant of Sign-on Performance Rights to Steve McCann	For	Against
<i>Blended Rationale: A vote AGAINST this resolution is warranted as the company as the terms of sign-on rights are not aligned with good governance practice, the quantum is excessive and there are no performance conditions attaching.</i>

5	Approve Potential Retirement Benefits for Steve McCann	For	Against
<i>Blended Rationale: A vote AGAINST this resolution is warranted. Concerns are highlighted that the CEO is entitled to a termination benefit upon a substantial diminution of his roles, which is uncommon in the Australian market, which allows the accelerated vesting of all sign-on rights.</i>			
6	Approve the Increase in Maximum Aggregate Remuneration of Non-Executive Directors	None	Against
<i>Blended Rationale: A vote AGAINST this resolution is warranted. The increase in the director fee cap is considered excessive and inconsistent with the company's performance and governance issues. The current fee cap is sufficient to adequately remunerate directors to a level comparable or even above the median of peers of the company's market cap peer group.</i>

<i>Blended Rationale: A vote FOR the proposed Non-Executive Directors' Equity Plan is warranted. This will allow non-executive director to participate in a NED Equity Plan through a "salary sacrifice" arrangement of up to 100 percent of NED fees into rights. This would increase their alignment with shareholders, however, of more interest to directors is that this provides some tax deferral benefits. 3	Approve Remuneration Report	For	Against
	<i>Blended Rationale: A vote AGAINST this resolution is warranted on the basis that remuneration outcomes are excessive and misaligned with performance and shareholder outcomes. Quantitative pay for performance analysis indicates an elevated level of concern against peers.- The CEO's remuneration is high relative to peers and internal relativity to compared to other executives.- The CEO's STI award is considered to be excessive, and 2.3 times the FY20 bonus despite both key financial measures deteriorating compared to FY20 outcomes.- In the FY21 STI, EBITDA at target is lower than the two previous years and Proportional Costs at target are higher than in the two previous years, suggesting weaker targeted results for higher bonuses, which shareholders may consider as misaligned with their interests and expectations.- An excessive proportion of the STI award (50 percent) is assessed on individual objectives that appear "day job" responsibilities.- Use of a discounted face value for the LTI grant is inconsistent with good governance practice and results in a higher number of LTI securities.</i>

1	Approve Remuneration Report	For	Against

Blended Rationale: A vote AGAINST the remuneration report is warranted. An elevated level of concern is identified for misalignment of pay, performance and shareholder outcomes in quantitative pay-for-performance analysis. Bonus outcomes appear excessive and have been significantly increased from the prior year, being inconsistent with the reported loss and fixed financial performance and underperforming shareholder returns. Supporting reasons for this recommendation include:- A higher weighting to non-financial measures for the STI which are difficult to justify as a being worthy of a bonus given that the nature of these measures appear to be part of executives' day job duties,- Non-disclosure of financial targets in the STI does not allow shareholders to independently assess the rigor of STI targets and justify bonuses, being inconsistent with good governance and shareholder expectations for transparency presented by other large Australian companies,- Concerns have been previously raised regarding the rigor of the Absolute ROE performance measure in the LTI which is assessed against a multiple of WACC – this measure has consistently provided for vesting, even over recent years where the company has underperformed GICS and index peers,- Awarding of additional fees to directors who chair the boards of wholly owned subsidiary companies represents concerning governance practice and creates the potential for conflict of interests, and- The fixed remuneration increase of 12.5 percent for the CEO in FY22 is well above general salary inflation and will lead to a significant uplift in variable award opportunity in the STI and LTI, being inconsistent with the company performance and shareholder outcomes.

1	Approve Remuneration Report	For	For
<i>Blended Rationale: Rationale: A vote FOR this resolution is warranted but not without concerns. In contrast to ISS we consider the quantum of the compensation to be acceptable in this case, when compared to US peers, given the company's operational base there and because over 60% of revenues come from the US. However, we would prefer to see a higher compounding hurdle in order to allow vesting of the LTI award, and the usage of other metrics tied to mid-term financial performance. We have engaged with the company on this basis and will continue to monitor and review</i>

3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against

Blended Rationale: A vote AGAINST the proposal is warranted. The CEO's base salary and target bonus opportunity are both somewhat high relative to peers. The CEO's target annual equity grant was also excessive, valued higher than the median total pay for the company's peer group CEOs. Furthermore, the LTI program utilizes the same performance metrics as the annual bonus, measured over a one-year period. Finally, the company granted a supplemental equity award to executives in light of pandemic-related factors. This comes only one year after the company adjusted the annual bonus to provide for above-target payouts when the FY20 annual bonus would otherwise be unearned. The consecutive years of compensation committee intervention in the regular pay program are concerning.

4	Approve Grant of Performance Rights to Heath Sharp	For	For
<i>Blended Rationale: Rationale: A vote FOR this resolution is warranted but not without concerns. While the quantum is probably high vs. other Australian small to mid-cap peers it is arguably not excessive vs. US peers and the achievement of the maximum (15% EPS growth and >80th percentile in TSR) would align the CEO's objective with ours. In addition, we believe that the way the CEO has navigated the recent environment (C-19/supply-chain constraints), as well as grown the company over the past 5-6 years speaks to his capability as CEO – we would like him to be incentivised to continue to produce outperformance vs. peers. However our concerns relate to: 1) a preference for TSR to be set against peers from Reliance's end market (plumbing fixtures and supplies) rather than the ASX200 (ex-mining and energy), 2) a preference for a higher threshold for vesting – 4% doesn't seem challenging enough in light of the likelihood of M&A and 3) we agree with ISS that the high end of the fair value for the LTI (A\$3.98) seems like an unnecessarily high discount to the current share price. We are prepared to be supportive at this time, but intend to continue to engage with the company to highlight our concerns and continue to seek improvement in subsequent years.</i>

Proposal Number	Proposal Text	Mgmt Rec	Vote Instruction
4.1	Approve Remuneration Policy	For	Against
<i>Blended Rationale: A vote AGAINST this resolution is warranted:- BEE Transaction Incentive Plan rewards senior executives for delivering the share price growth, a measure considered to have a number of drawbacks; and- There are generous vesting and payout provisions for Executive Directors upon a change of control and termination of good leavers.</i>			
4.2	Approve Remuneration Implementation Report	For	Against
<i>Blended Rationale: A vote AGAINST this item is warranted:- The performance targets under the SIP are not considered sufficiently challenging, and the vesting scale is generous, allowing for threshold vesting at 100% of the original award at below-target outcomes.</i>

1	Amend Articles and Consolidate Bylaws	For	Against
<i>Blended Rationale: A vote AGAINST this request is warranted because:- The company has bundled unrelated bylaw amendments under a single agenda item, preventing shareholders from voting on each proposed change individually;- The company seeks shareholder approval to include a statutory provision granting board authority to sign indemnity contracts with the company's administrators and employees in the absence of detailed information, thus preventing shareholders to fully assess the impact of such proposal;- Some of the proposed amendments, namely the increase in board term, the mandate for slate board elections, the change in board chair and vice-chair elections, and the exclusion of the requirement that certain related-party transactions be approved by the shareholder meeting, would decrease shareholder rights in the absence of a compelling rationale; and- The potential transference of the responsibility to chair shareholder meetings away from the board raises governance concerns.</i>

5	Approve Grant of Long Term Incentive Options to Don Meij	For	For
6	Approve the Increase in Maximum Aggregate Remuneration of Non-Executive Directors	None	For

Blended Rationale: A qualified vote FOR the proposed increase in the maximum aggregate amount of directors' fees is warranted on the basis that- Chairman and NED fees are not excessive compared to the median of peers, and- Recent announcements by the company suggest that significant growth is planning and there may be a need to increase the number of directors. However, concerns are that a compelling case has not been well presented to shareholders in support of the increase, given there appears to be sufficient headroom (currently approximately \$320,000) to appoint two additional directors where current NED fees appear to be \$140,000 per annum.

4	Approve Remuneration Report	For	Against
<i>Blended Rationale: A vote AGAINST the remuneration report is warranted.- High remuneration awards such as the significant increase in FY21 LTI have contributed to the identification of a high concern for misalignment in quantitative pay-for-performance analysis.- LTI vesting in the last two years is materially misaligned with the affairs of the company, employees and shareholders.- The LTI structure does not have a positive TSR gateway which in the absence of exercise of downward board discretion, as seen with the FY18 and FY19 LTI grants, can lead to vesting of awards against the narrow airline peer group based on relative performance despite underlying weak and/or negative shareholder.- The company reduced STI opportunity for the CEO from a maximum in FY20 of 200 percent of fixed remuneration to 90 percent in FY21 and accompanied by a significant increase in the FY21 LTI opportunity to 235 percent of fixed remuneration from 185 percent in FY20. This may be considered by shareholders as an inappropriate discretionary shift towards a greater potential remuneration benefit at a future date compared to the current period. It is noted that the FY22 LTI grant has been reduced, whereas any changes to the FY22 STI have not been disclosed in the remuneration report.- NEDs receive post-employment benefits, which have been eliminated by ASX300 companies in recognition of poor corporate governance.</i>

6	Approve Issuance of Performance Rights to Elizabeth Gaines	For	Against
<i>Blended Rationale: A vote AGAINST this resolution is warranted because of concerns for problematic pay practices including:- Insufficient disclosure of performance targets and weightings for the STI award,- Duplication of performance metrics in both the STI and LTI,- Granting STI rights to the CEO at the beginning of the FY22 performance period provides an opportunity for additional benefit to be gained from share price appreciation prior to the Award being earned and above the disclosed STI value that shareholders are being asked to approve,- Excessive weighting to strategic measures in the LTI award is not in line with market, and- The Average Return on Equity metric appears to be insufficiently challenging.</i>			
7	Approve the Amendments to the Company's Constitution	Against	Against
8	Approve Support for Improvement to Western Australian Cultural Heritage Protection Law	Against	For
<i>Blended Rationale: On balance, shareholder support FOR this resolution is warranted because:- The Interim Report and the Final report of the Senate Standing Committee on Northern Australia has recommended review and amendment of the Aboriginal Cultural Heritage Bill 2020 (WA) to address various concerns.- The company states it is committed to the protection of Aboriginal heritage and the modernisation of Western Australia's Aboriginal Heritage protection legislation and an increase voice for aboriginal people, which appears to align with the recommendations in the Standing Committee's Final Report.- The Standing Committee believes that in regard to the ACH Bill, the WA Government should investigate Commonwealth and State government approaches to Aboriginal heritage protection including proposed Commonwealth minimum standards.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
	<p><i>Blended Rationale: A vote AGAINST this proposal is warranted. The compensation committee demonstrated poor responsiveness to last year's low say-on-pay vote, which has received low support for several years. While the company has provided disclosure surrounding shareholders' concerns and the board's contemplation of such concerns, the company extended the performance period of large outstanding front-loaded awards. This is especially concerning as the board previously made a commitment to maintain the existing terms of the outstanding awards, as disclosed in the prior year's proxy. In addition to contradicting a prior commitment, the act of modifying previously granted awards is generally considered problematic by many investors, and such concerns are exacerbated given the magnitude of these front-loaded awards. Further, there are ongoing concerns with the use of a discretionary bonus structure for one NEO and entirely time-vesting equity awards for certain NEOs.</i></p>		
3	Amend Omnibus Stock Plan	For	Against
	<p><i>Blended Rationale: Based on evaluation of the estimated cost, plan features, and grant practices using the Equity Plan Scorecard (EPSC), a vote AGAINST this proposal is warranted due to the following key factors:* The equity program is estimated to be excessively dilutive (overriding factor)* The plan cost is excessive* The three-year average burn rate is excessive* The plan allows broad discretion to accelerate vesting</i></p>

Further, there are ongoing concerns with the use of a discretionary bonus structure for one NEO and entirely time-vesting equity awards for certain NEOs.</i>			
3	Amend Omnibus Stock Plan	For	Against
<i>Blended Rationale: Based on evaluation of the estimated cost, plan features, and grant practices using the Equity Plan Scorecard (EPSC), a vote AGAINST this proposal is warranted due to the following key factors:- The equity program is estimated to be excessively dilutive (overriding factor)- The plan cost is excessive- The three-year average burn rate is excessive- The plan allows broad discretion to accelerate vesting</i>

5	Report on Racial Equity Audit	Against	For
<i>Blended Rationale: A vote FOR this resolution is warranted, as an independent racial audit would help shareholders better assess how Oracle is managing and overseeing risks related to the use of its facial recognition technology, particularly given growing privacy, civil rights and racial bias concerns associated with the use of the technology.</i>			
6	Require Independent Board Chair	Against	For
<i>Blended Rationale: A vote FOR this proposal is warranted given the importance of having an independent board chair. Further, there are ongoing concerns regarding the company's compensation practices, the significant pledging by the company's chair, and the non-robust lead director role.</i>

<p><i>Blended Rationale: A vote AGAINST this remuneration policy is warranted because:- The company proposes to increase the base salary by 14 percent until the remaining of the executive's mandate. Such increase would lead to an increase of the bonus and LTI opportunities and of the maximum potential payout. - The level of the supplementary pension scheme would increase by 100%. But the company does not provide any compelling rationale to support this increase.- As past years, the bonus structure would allow compensation between financial and non-financial criteria at maximum level.- Under the amended LTI structure, the criteria related to the profit from recurring operations and relative TSR would remain considered not stringent enough while they weigh 80% of the payout.- The company does not specify a cap or circumstances for exceptional payments.</i></p>

He is classified as a non-independent director on a board that is not majority independent (only 50 percent independent). 	<i>Blended Rationale: A vote AGAINST this resolution is warranted.- The proposed new constitution includes wording that explicitly states that the company may conduct meetings by using virtual-only means.- While there is recognition of the benefits of increased participation at shareholder meetings via electronic means, concerns are raised for any moves to completely eliminate any physical attendance at a meetings, and the wording proposed in the amendments explicitly allow for this. Virtual-only meetings may impact on shareholder rights in holding directors publicly accountable and may hinder meaningful exchanges between directors and shareholders.- It is also recognised that there is a case for greater flexibility in meeting formats given the current global health pandemic. However, this has been addressed by the temporary relief announced by the Australian Government on 10 August 2021 which allows companies to hold virtual meetings and use electronic communications to send meeting materials and execute documents until 31 March 2022. Accordingly, there appears no benefit to shareholders in approving this provision at present.- Going forward, constitutional language reflecting a hybrid meeting format, which provides for physical attendance concurrently with the use of virtual technology to hold meetings, would not negatively impact shareholder rights (compared with a virtual-only meeting format) and would represent the preferences of shareholders.</i>

3	Approve Remuneration Report	For	Against
<p><i>Blended Rationale: A vote AGAINST this resolution is warranted. Quantitative analysis indicates a medium level of concern of misalignment of pay, performance and shareholder outcomes. Whilst financial performance and investor returns have been good, the CEO's total remuneration is well above the median of market cap and industry peers. The remuneration framework continues to be well structured, with CEO fixed remuneration being in line with market peers, while bonuses are also consistent with targets and results, however, somewhat outsized. The primary reason for this recommendation is the proposal to offer the CEO a near \$16 million retention grant as proposed in Item 6 of the agenda. This is in addition to the STI and LTI opportunities which are disclosed to be increasing in FY22 and the maximum STI and LTI vesting outcomes in FY21. While the board proposes certain performance measures (include TSR CAGR in the range of 12-15 percent) in the retention grant, these are not considered to involve sufficient rigor especially noting the disclosure as part of the FY19 LTI vesting outcomes that TSR over the performance period was 36.8 percent per annum. Concerns in the FY21 remuneration report are also noted in regard to the following:- The CEO's STI bonus and LTI grant which are well above the median of market cap and industry peers. In FY22, the CEO's target STI opportunity will also increase from 100 percent to 150 percent of fixed remuneration and the target LTI opportunity will increase from 150 percent to 200 percent of fixed remuneration, representing a material increase in the CEO's total remuneration opportunity moving further above many market cap and industry peers.- There is a continued absence of appropriate transparency of specific and quantified STI targets which represents inferior disclosure compared with the better practices amongst market cap and industry peers;- The allocation of LTI awards is based on fair value which is inconsistent with good governance expectations and practices of the vast majority of market cap and industry peers. The fair value methodology is an accounting requirement however is broadly discredited for the purposes of determining LTI grants given this results in obfuscating excessive remuneration;- The TSR comparator group in the LTI is overly narrow; and- The relative TSR hurdle lacks a positive TSR gateway to ensure vesting of bonuses for positive investor returns.</i></p>			
4	Approve Issuance of Service Rights to David Harrison	For	For
5	Approve Issuance of Performance Rights to David Harrison	For	For
6	Approve Issuance of ROP Performance Rights to David Harrison	For	Against
<p><i>Blended Rationale: A vote AGAINST the issuance of ROP performance rights to the CEO is warranted. This represents a grant of approximately \$16 million at the prevailing share price which is materially in excess of accepted standards in this market. It is noted that the CEO's existing STIs and LTIs have vested at maximum levels in FY21 and disclosure indicates that STI and LTI opportunities will be increased from FY22. Quantitative pay for performance analysis indicates a medium level of concern for misalignment of remuneration, and this grant exacerbates concerns. Additional concerns are noted that:- The ROP appears to be intended as a one-off retention mechanism, however, this is in addition to annual STI and LTI opportunities, and the quantum is grossly in excess of what shareholders in this market typically accept as reasonable.- The TSR growth in the range of 12 percent to 15 percent per annum is not considered to represent sufficient outperformance to warrant a \$16 million bonus at prevailing face value, having regard for the fact that three-year OEPS disclosed in the vesting of the FY19 LTI was 22.5 percent and TSR growth over that period was 36.8 percent.- Disclosure indicates that the calculation of performance against the performance conditions and the vesting outcomes will be determined by the Board in its absolute discretion which raises material concern for an excessive and misaligned remuneration opportunity and the nature and extent of board discretion.</i></p>			
7	Approve the Increase in Maximum Aggregate Remuneration of Non-Executive Directors	None	For
<p><i>Blended Rationale: A vote FOR the increase in the maximum aggregate NED remuneration cap is warranted. It is disclosed that the proposed increase is sought to allow for the appointment of additional directors as part of board refreshment and to pass an increase in individual NED fees, noting that NED fees are not presently excessive or problematic.</i></p>

4a	Approve Issuance of 2,660 Additional Performance Rights to Owen Wilson under the 2023 REA Group Long-Term Incentive Plan	For	Against
<i>Blended Rationale: Item 4aA vote AGAINST the grant of additional performance rights under the LTI Plan 2023 is warranted. Concerns are noted for the following:- The discretionary nature of the additional grant;- Performance period for performance rights is less than three years, which is inconsistent with market cap and industry peers, where companies of this size are increasingly moving to performance periods of 4 years or more; and- The vesting provisions provide for excessive vesting at various levels of performance which is also inconsistent with market cap and industry peers. Item 4bA vote AGAINST the grant of performance rights to the CEO under LTI Plan 2024 is warranted. There is a three year performance period which is at the minimum accepted in this market (although larger companies have periods of 4 years of more) and revenue, EPS and relative TSR performance measures are consistent with market. However, there is- Excessive vesting, where for example 200 percent vests at the 75th percentile of relative TSR, compared with market expectations of 100 percent; similarly, with the EPS and revenue performance measures where 200 percent vests at the maximum and 60 percent vests at the threshold which is inconsistent with better practice where 50 percent or less vests at threshold.- As per prior years practice, the specific and quantified targets for the EPS and revenue growth metrics are undisclosed due to the company's assertions of commercial sensitivity, making it impossible for shareholders to evaluate the rigor of targets.</i>

2	Ratify PricewaterhouseCoopers LLP as Auditors	For	For
3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against

Blended Rationale: A vote AGAINST this proposal is warranted, driven by concerns surrounding the CEO's large supplemental equity awards. Although the awards carry performance conditions and an extended vesting period, their magnitude is outsized, and the special PSUs are earned based on a non-rigorous goal of positive cumulative operating income. Further, while annual incentives are based on objective metrics, minimum payouts are guaranteed for FY21 and FY22, a concern that is compounded by the CEO's high STI opportunity.

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For
<i>Blended Rationale: A vote FOR the proposal is warranted, with caution. Some concerns are raised regarding goal rigor and incomplete goal disclosure in the LTI. In addition, certain NEOs received retention awards that lacked performance vesting criteria. However, short-and long-term incentive programs are primarily performance based. The annual incentive award is based primarily on pre-set objective metrics and the majority of the annual-cycle long-term incentive awarded is composed of performance shares with multi-year goals. In addition, reported CEO pay declined significantly in FY21, following large sign-on awards in FY20, and long-term incentives were earned below target in alignment with financial performance. Nevertheless, shareholders are advised to continue to closely monitor pay program decisions and disclosure going forward.</i>

<i>Blended Rationale: A vote AGAINST the equity right award is recommended. The structure of this grant is the same as prior years and inconsistent with accepted market practice with the following shareholder concerns:- There are no performance hurdles, and realization of the benefit is subject to ongoing employment only,- There is no link and insufficient transparency between executive reward and performance and alignment with shareholder interests, and- Awarding a short-term incentive without performance conditions, which are the norm in the Australian market, is essentially additional deferred fixed remuneration with exposure to shorter term share price fluctuation.</i>

4	Elect Sergiy Kostynsky as Director	For	Against
<i>Blended Rationale: A vote AGAINST the re-election of Sergiy Kostynsky (Item 4) is warranted at this time to highlight corporate governance concerns for a lack of independence of the board. He serves as a non-independent executive director on a non-majority independent board. The board has two executive directors, including the Managing Director and CEO Aram Mirkazemi, and Kostynsky. Australian corporate governance standards and good market practice do not support multiple executive directors serving on a non-majority independent board.</i>			
5	Approve Renewal of Proportional Takeover Provision	For	For
6	Approve Increase in Non-Executive Directors' Fee Pool	For	Against
<i>Blended Rationale: A vote AGAINST this resolution is warranted.- The case has not been made in support of the significant quantum of the proposed increase being an additional 50 percent of the current fee cap.- There is sufficient headroom in the current fee cap given there are currently three NEDs, including the chairman, and total NED fees paid in FY21 amounted to \$635,000. This leaves sufficient headroom to pay an additional \$865,000 in fees, which would allow the company to take on up to four new NEDs.- Given that NED fees currently exceed the median of market cap (ASX 101-125) and selected industry peers, it would not appear that an increase in the fee cap could reasonably be required for a substantial increase in NED fees.</i>			
7	Approve the Amendments to the Company's Constitution	For	Against
<i>Blended Rationale: A vote AGAINST this resolution is warranted.- The proposed new constitution includes wording that could permit general meetings to be held by virtual-only means.- While there is recognition of the benefits of increased participation at shareholder meetings via electronic means, concerns are raised for any moves to completely eliminate any physical attendance at a meeting. Virtual-only meetings may impact on shareholder rights in holding directors publicly accountable and may hinder meaningful exchanges between directors and shareholders.- It is also recognised that there is a case for greater flexibility in meeting formats given the current global health pandemic; however, this has been addressed by the temporary relief announced by the Australian Government on 10 August 2021 which allows companies to hold virtual meetings and use electronic communications to send meeting materials and executive documents until 31 March 2022. Accordingly, there appears no benefit to shareholders from approving this provision at present.- Going forward, constitutional language reflecting a hybrid meeting format, which provides for physical attendance concurrently with the use of virtual technology to hold meetings, would not negatively impact shareholder rights (compared with a virtual-only meeting format) and would represent the preferences of shareholders.</i>

Blended Rationale: A vote AGAINST the re-election of Rebecca McGrath and Danny Peeters is warranted on the basis of the following concerns:- Rebecca McGrath is a member of the Remuneration Committee and problematic pay practices and elevated votes against remuneration resolutions continue to be observed, and shareholder concerns appear to persist.- Danny Peeters one of three non-independent executive directors, which is inconsistent with good governance for multiple executive directors on a board, which has the impact of reducing the overall level of Board independence to 67 percent and contributes to gender diversity falling short of the guidelines of the ASX Corporate Governance Council Principles and Recommendations for larger companies in the ASX300 index to have at least 30 percent of each gender represented on the board.Shareholder support FOR the election of David Collins is warranted although there are independence concerns given his former role as a partner at KPMG, Hong Kong, which have been the company's long standing audit firm since 1993.

4	Elect David Collins as Director of Goodman Logistics (HK) Ltd	For	For
5	Approve Remuneration Report	For	Against
<i>Blended Rationale: A vote AGAINST the remuneration report is warranted. There are numerous inconsistencies regarding the remuneration practices which represent concerns for good corporate governance. Of note, a persisting high level of concern is identified in the quantitative Pay for Performance analysis pointing to the excessive nature of executive remuneration paid to the CEO and KMP executives.- The annual LTI grants are materially in excess of Australian market standards and the market cap peer group,- The realised value of the FY19 LTI was \$33.9 million for the CEO in relation to the initial grant of 1,600,000 performance rights with face value of about \$15.4 million. This was identified as excessive at the time and resulting a "strike" of 48 percent against the 2018 remuneration report. LTI grants as this company continue to increase and the basis of calculation of the number of performance rights and disclosure is problematic,- The quantum of the FY22 LTI grant is disclosed by the company to be based on an "economic value" of the company's securities, which the company states is \$6.10. This is compared to the company's traded security price on 29 October 2021, which was \$21.90. Such excessive discounting is materially inconsistent with the practices of ASX-listed entities and results in an excessive LTI grant. The methodology adopted by the company has resulted in a FY22 LTI grant to the CEO of near \$35 million based on the prevailing traded price of the company's securities, and correspondingly excessive LTI grants to other executive directors.For completeness, it is noted that a "fair value" or "economic value" in valuing LTI grants is an accounting requirement for the company's financial statements but discredited as a matter of poor corporate governance for granting LTI performance rights.</i>

6	Approve Issuance of Performance Rights to Greg Goodman	For	Against
<i>Blended Rationale: A vote AGAINST the resolutions to grant FY22 LTI performance rights to the CEO and other executive directors is warranted. The quantum is grossly excessive and well above the market for such grants among larger ASX-listed entities, despite marginally higher stretch targets, the rigor of which remains questionable and spread over a longer vesting period. Securityholder concerns include:- The CEO's grant is disclosed to be valued at \$9.5 million (based on a highly discounted fair value of the company's security price) compared with the value of the securities at the prevailing security price being \$35.0 million (face value). The value of this award is excessive by market standards.- The absolute EPS vesting range set at 6 to 10 percent annual growth is inadequate based on EPS growth in the past three years materially exceeding the maximum 10 percent target. This may be considered by shareholder to ensure partial and potentially full vesting of a grant with an excessive quantum.- The use of a heavily discounted fair value of the company's security price at \$6.10 to determine a greater number of rights to be granted is not in line with widely accepted market practice. Face value is the typical methodology used in this market for zero exercise price performance rights which would require the use of the prevailing security price nearer to \$21.90 as seen on 29 October 2021.</i>

4	Approve Issuance of 247,332 LTI-2 Performance Rights to Stuart Tonkin	For	Against

Blended Rationale: A qualified vote FOR the annual LTI grant (Item 3) is warranted.- The quantum of the award has been reduced to 200 percent of fixed remuneration (from 300 percent to the former Executive Chairman) to better aligned with market- The performance period has now been extended to a four-year performance period.- The performance measures have also been modified to include a higher weighting to relative TSR with a positive gateway to require a positive return to shareholders for 50 percent of this component, and operational targets duplicated in the STI have been removed.A vote AGAINST the one-off grant of LTI performance rights (Item 4) is warranted. This grant represents an excessive additional LTI grant and does not align with better market practices of splitting an LTI grant into two tranches when a performance period is extended – in this case, from a three-year performance period to four years.Concerns identified in Item 3 and Item 4 include the new ESG measures, the cliff vesting associated with these measures, and provision of a dividend equalization payment. Of greater concerns is the excessive allocation of 30 percent of each LTI grant to the ESG measures. Whilst this is a positive move, many ASX-listed entities are already progressing on such initiatives as part of the required "day job" duties and significant bonuses are not offered. Concerns are exacerbated, given that the STI bonus also appears to include certain ESG measures for 30 percent of that bonus opportunity. In this case, the 30 percent FY22 LTI grant opportunity to the CEO equates to a potential bonus of \$1,020,000, plus an additional \$765,000 for the one-off LTI grant, both of which are excessive and inconsistent with market and shareholder interests.A qualified vote FOR the STI grant of performance rights (Item 5) is warranted. The quantum of the award and the revised performance measures are aligned with market and shareholder expectations.Concerns are noted that this is an 'in-advance' grant of the maximum STI rights which would be granted upon determination of the FY22 STI bonus. This practice is inconsistent with market.

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<i>Blended Rationale: A vote AGAINST the proposal is warranted. The CEO received additional PSUs in 2021 with a two-year performance period, in place of his cancelled 2020 PSUs, underscoring a misalignment between CEO pay and company performance. In addition, performance periods were shortened for both the annual and long-term incentive awards, and annual incentive awards were earned above-target based largely on achievements for the subjective strategic bonus objectives component. Disclosure of actual performance results for this component of the incentive program and of forward-looking PSU goals is poor.</i>			
3	Ratify Ernst & Young LLP as Auditors	For	For
4	Report on GHG Emissions Reduction Targets	None	For
<i>Blended Rationale: A vote FOR this proposal is warranted because the requested report and targets will allow investors to better assess how the company is managing climate-related risks. A qualified vote FOR the re-election of Charles Gibbon (Item 5) is warranted. 7	Approve the Amendments to the Company's Constitution	For	Against

Blended Rationale: A vote AGAINST this resolution is warranted because:- The proposed amended constitution includes wording that explicitly states that the company may conduct meetings by using virtual-only means;- While there is recognition of the benefits of increased participation at shareholder meetings via electronic means, concerns are raised for any moves to completely eliminate any physical attendance at a meetings, and the wording proposed in the amendments explicitly allow for this. Virtual-only meetings may impact on shareholder rights in holding directors publicly accountable and may hinder meaningful exchanges between directors and shareholders;- It is also recognised that there is a case for greater flexibility in meeting formats given the current global health pandemic. However, this has been addressed by the temporary relief announced by the Australian Government on 10 August 2021 which allows companies to hold virtual meetings and use electronic communications to send meeting materials and execute documents until 31 March 2022. Accordingly, there appears no benefit to shareholders in approving this provision at present; and- Going forward, constitutional language reflecting a hybrid meeting format, which provides for physical attendance concurrently with the use of virtual technology to hold meetings, would not negatively impact shareholder rights (compared with a virtual-only meeting format) and would represent the preferences of shareholders.

2	Amend Articles to Add Provisions on Corporate Philosophy - Amend Business Lines - Allow Virtual Only Shareholder Meetings - Disclose Shareholder Meeting Materials on Internet - Reduce Directors' Term - Amend Provisions on Director Titles	For	Against
<i>Blended Rationale: A vote AGAINST this proposal is warranted because:- Japanese companies are currently allowed to hold virtual only meetings using temporary regulatory relief (without amending articles) for two years, but the passage of this proposal will authorize the company to hold virtual only meetings permanently, without further need to consult shareholders, even after the current health crisis is resolved.- The proposed language fails to specify situations under which virtual meetings will be held, raising concerns that meaningful exchange between the company and shareholders could be hindered, especially in controversial situations such as when shareholder proposals are submitted, a proxy fight is waged, or a corporate scandal occurs.</i>

<i>Blended Rationale: A vote AGAINST this resolution is warranted because:- The annual report has not been made available at the time of this report.</i>			
2	Re-elect Brett Miller as Director	For	Against
<i>Blended Rationale: Votes AGAINST incumbent nominee Brett Miller are warranted for lack of gender diversity on the board. Concerns are further raised with respect to the election of Brett Miller because:- Potential independence issues have been identified and he is considered to participate in the meetings held by the Board in fulfilling its duties as management engagement committee, which is not in line with recommended best practice.- However, the Company is in a managed wind down. Taking this factor into account, a degree of flexibility regarding this issue is considered appropriate. Votes FOR the remaining nominees are warranted at this time.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For
	<i>Blended Rationale: A vote FOR this proposal is warranted, with caution. In FY21, CEO Nadella's base salary remained well above the median reported base salary for the Sustainability Advisory Services-selected peer group, as well as for the company's peer group. Further, concerns are raised surrounding the magnitude and design of a new hire grant, which was not performance conditioned. While there are some concerns regarding the company's one-time move to semi-annual performance goals in the FY21 incentive program, LTI changes are reasonable and do not appear to have drastically altered payouts for the most recently completed performance cycle. The company did make several improvements to the pay program in FY21. Performance equity now constitutes 70 percent of the CEO's LTI pay mix, and his STI is predominantly based on pre-set financial metrics. Further, the company's financial performance has been very strong, and the quantitative incentive goals appear rigorous. Nevertheless, shareholders are advised to continue to closely monitor pay program decisions going forward.</i>		
3	Approve Qualified Employee Stock Purchase Plan	For	For
	<i>Blended Rationale: A vote FOR this proposal is warranted given that the purchase price is reasonable, the number of shares reserved is relatively conservative; and the offering period is within the prescribed limits.</i>		
4	Ratify Deloitte & Touche LLP as Auditors	For	For
	<i>Blended Rationale: A vote FOR this proposal to ratify the auditor is warranted.</i>		
5	Report on Gender/Racial Pay Gap	Against	For
	<i>Blended Rationale: A vote FOR this proposal is warranted, as shareholders could benefit from the median pay gap statistics that would allow them to compare and measure the progress of the company's diversity and inclusion initiatives.</i>		
6	Report on Effectiveness of Workplace Sexual Harassment Policies	Against	For
	<i>Blended Rationale: A vote FOR this proposal is warranted as the company faces potential controversies related to workplace sexual harassment and gender discrimination. Additional information on the company's sexual harassment policies and the implementation of these policies would help shareholders better assess how the company is addressing such risks.</i>		
7	Prohibit Sales of Facial Recognition Technology to All Government Entities	Against	Against
	<i>Blended Rationale: A vote AGAINST this proposal is warranted, as there does not appear to be strong evidence to suggest that management and the board are neglecting a material risk, and the proposal's request is overly prescriptive.</i>

In particular, in a supplemental filing, the company discloses that it recently amended the CEO's June 2020 grant to include a requirement that his unvested options may not be exercised unless a stock price hurdle is achieved and sustained for at least 20 consecutive days prior to exercise. The company also recently amended other NEOs' grants to include a 20 consecutive trading day requirement, in addition to the stock price hurdle.</i>

2	Ratify Ernst & Young LLP as Auditors	For	For
3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against

Blended Rationale: A vote AGAINST the proposal is warranted. Although TSR performance was strong, CEO pay increased substantially and there are concerns regarding the structure of equity incentives. Equity grants to executives are made entirely in stock options or RSUs, based on executive selection. This structure lacks strong performance conditions, and the proxy did not indicate that the company expects to incorporate performance-conditioned equity in the near future. While stock options only deliver value if the stock price increases, shareholder generally prefer for at least a portion of executive equity awards to require the achievement of pre-set performance goals in order to vest.

<i>Blended Rationale: A vote AGAINST this item is considered warranted because:- The Remuneration Committee has exercised discretion to override the anticipated formulaic outcomes of performance targets applicable to in-flight awards made under the 2018 LTIP, which were not scheduled to vest given the impact of COVID-19 on the Company's financials. Rather than utilise the original EPS performance targets, awards have been informed by a highly subjective performance framework, with the final vesting level of awards determined by the ultimate discretion of the Remuneration Committee. This has resulted in 40% of the shares originally awarded vesting, valued at GBP 752,000 for the CEO and GBP 495,000 for the CFO.</i>

1	Approve Allocation of Income, with a Final Dividend of JPY 11	For	For
2	Amend Articles to Amend Business Lines - Allow Virtual Only Shareholder Meetings	For	Against
<i>Blended Rationale: A vote AGAINST this proposal is warranted because:- Japanese companies are currently allowed to hold virtual only meetings using temporary regulatory relief (without amending articles) for two years, but the passage of this proposal will authorize the company to hold virtual only meetings permanently, without further need to consult shareholders, even after the current health crisis is resolved. - The proposed language fails to specify situations under which virtual meetings will be held, raising concerns that meaningful exchange between the company and shareholders could be hindered, especially in controversial situations such as when shareholder proposals are submitted, a proxy fight is waged, or a corporate scandal occurs.</i>

<i>Blended Rationale: A vote AGAINST this proposal is warranted. While cash severance is double trigger and reasonably based, NEOs are entitled to receive problematic excise tax gross-ups pursuant to new 2021 agreements. Additionally, a majority of time-based equity awards will fully vest in connection with the merger, and performance shares will be converted into cash-based awards at their maximum performance level, without a compelling rationale. Lastly, retention bonuses are sizeable.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
	<i>Blended Rationale: A vote AGAINST this proposal is warranted. The compensation committee has demonstrated only a limited degree of responsiveness to last year's low say-on-pay vote result. Given the lack of disclosed shareholder feedback leading to the low vote result, it is not clear whether recent pay program changes adequately address shareholder concerns. In addition, the Executive Chairman received an excessive cash bonus of \$10 million in connection with the transaction, and other executives are entitled to relatively large cash retention awards which lack performance conditions. Close monitoring is warranted regarding the potential for problematic severance payments under the company's employment agreement with the Executive Chairman, as it is unclear whether the agreement entitles Coury to severance payments if he declines to extend the agreement and resigns at the end of the employment term.</i>		
3	Advisory Vote on Say on Pay Frequency	One Year	One Year
	<i>Blended Rationale: A vote for the adoption of an ANNUAL say-on-pay frequency is warranted. Annual say-on-pay votes are considered a best practice as they give shareholders a regular opportunity to opine on executive pay.</i>

6	Approve the Amendments to the Company's Constitution	For	Against

Blended Rationale: A vote AGAINST this resolution is warranted.- The proposed amendments to the constitution include wording that explicitly state that the company may conduct meetings by using virtual-only means.- While there is recognition of the benefits of increased participation at shareholder meetings via electronic means, concerns are raised for any moves to completely eliminate any physical attendance at a meeting. Virtual-only meetings may impact on shareholder rights in holding directors publicly accountable and may hinder meaningful exchanges between directors and shareholders.- It is also recognised that there is a case for greater flexibility in meeting formats given the current global health pandemic. However, this has been addressed by the temporary relief announced by the Australian Government on 10 August 2021 which allows companies to hold virtual meetings and use electronic communications to send meeting materials and execute documents until 31 March 2022. Accordingly, there appears no benefit to shareholders in approving this provision at present.- Going forward, constitutional language providing for a hybrid meeting format, which includes physical attendance concurrently with the use of virtual technology to hold meetings, would not negatively impact shareholder rights (compared with a virtual-only meeting format) and would reasonably reflect the preferences of shareholders.

2	Ratify KPMG LLP as Auditors	For	For
<i>Blended Rationale: A vote FOR this proposal to ratify the auditor is warranted.</i>			
3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For
<i>Blended Rationale: A vote FOR this proposal is warranted. Following the low say-on-pay vote result, the company reached out to its largest shareholders, disclosed investors' feedback, and made changes to the pay program in response to shareholders' concerns. Given the disclosure of outreach and feedback along with positive changes, the committee has demonstrated sufficient responsiveness. Moreover, pay is reasonably aligned with performance for the year under review.</i>			
4	Eliminate Supermajority Vote Requirements	For	For
<i>Blended Rationale: A vote FOR this proposal is warranted given that the reduction in the supermajority vote requirement would enhance shareholder rights, and given that the board has been fully responsive to the shareholder proposal which received majority support at last year's annual meeting.</i>

2	Ratify Ernst & Young LLP as Auditors <i>Blended Rationale: A vote FOR this proposal to ratify the auditor is warranted.</i>	For	For
3	Advisory Vote to Ratify Named Executive Officers' Compensation <i>Blended Rationale: Following last year's failed say-on-pay vote result, the compensation committee increased its engagement efforts with shareholders and made several improvements in response to shareholders' concerns. Notably, FY21 and FY22 equity awards are 100 percent performance based, while the company improved disclosure of its target STI goals. In addition, for FY22, the company eliminated duplicate performance metrics in the STI and LTI programs, adopted a multi-year LTI performance period, and decreased each NEO's equity award values for FY21 and more so for FY22, in light of investor feedback in recent years. Based on the enhanced degree of shareholder outreach, disclosure of feedback, and responsive actions, the compensation committee has demonstrated adequate responsiveness. Some concerns are raised regarding duplicate metrics in the STI and LTI program, in addition to the magnitude of the CEO's equity awards, although these concerns are being addressed by the board in compensation design and size going forward. There is also concern raised by the relatively high security costs, which significantly exceeds the security costs of most CEOs in the Russell 3000 Index. On balance, cautionary support for the say on pay proposal is warranted, given significant improvements to the pay program in FY22. Close continued monitoring of pay program changes and CEO pay levels is warranted.</i>	For	For

Continued monitoring is warranted, particularly should pay and performance not remain aligned going forward.</i>

The company conditioned certain positive changes to the 2019 incentive plan on shareholder approval of this proposal; nevertheless, those changes do not mitigate concerns regarding the grant magnitude of director awards previously made. Further, investors should have the opportunity to vote on the positive changes to the equity plan without tying those amendments to ratification of previously awarded outsized equity grants.</i>
