<i>Blended Rationale: Governance concerns remain regarding JBS and its administration, the company's controlling shareholders and former administrators have signed plea agreements with prosecution authorities in Brazil and the in United States, admitting extensive bribery and corruption practices. In 2020, minority shareholders proposed and approved the filing of civil liabilities lawsuits against the former administrators and controlling shareholders. Among the proposed nominees, three incumbent directors are members of the controlling shareholder family who continue to serve at JBS's board and two others non-independent directors have been long-time executives of the company and its controlled entities. In light of the ongoing corruption investigations and the egregious governance practices confirmed by the controlling shareholders and former administrators, vote recommendations for the proposed unbundled board election are as follows:- A vote AGAINST is also recommended to non-independent incumbent management nominees Jeremiah Alphonsus O'Callaghan (Item 6.1) and Gilberto Meirelles Xando Baptista (Item 6.6); as well as the members of the controlling shareholder family Jose Batista Sobrinho (Item 6.2), Aguinaldo Gomez Ramos Filho (Item 6.3) and Wesley Mendonca Batista Filho (Item 6.9);- A vote FOR is recommended for independent incumbent director nominees Alba Pettengill (Item 6.4), Gelson Luiz Merisio (Item 6.5), Marcio Guedes Pereira Junior (Item 6.8), as well as new independent nominee Leila Abraham Loria (Item 6.7), given that there are no known concerns regarding the candidates, and it would be counter-productive to oppose the election of an independent directors at this time. Significant risks to shareholders stemming from severe ESG controversies have been identified at the company, which reflects a failure by the board to proficiently guard against and manage material environmental, social and governance risks.- Votes AGAINST board chair Jeremiah Alphonsus O'Callaghan are also warranted given that the chair of the board ultimately shoulders the most responsibility amongst all board members for failing to effectively supervise the management of risks to the company and its shareholders, and should therefore be held the most accountable for poor board oversight of ESG risk exposures at the firm.</i>

3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<i>Blended Rationale: A vote AGAINST the proposal is warranted. While the annual bonus is based largely on pre-set, objective metrics, and financial goals were set above the prior year's actual performance, the majority of equity granted to the CEO for the year in review was time-based. Further, although the relative TSR portion of long-term incentives is capped at target if absolute TSR is negative, the TSR goal targets merely the median and the majority of the award vests based on one-year performance periods. More concerningly, the new CEO also received a promotional grant that consisted entirely of time-vesting equity, with limited explanation from the compensation committee regarding the structure of the award. Shareholders generally prefer for one-time grants to utilize multi-year performance criteria with performance goals targeting outperformance to achieve payout. Additionally, the former CEO received a \$6 million time-based grant the day before his retirement, with limited rationale regarding the timing and magnitude of the award.</i>

5.3	Approve Retention Bonus of Executive Committee in the Amount of CHF 520,000 for Fiscal Years 2021 and 2022	For	Against
<i>Blended Rationale: A vote AGAINST this proposal is warranted because: - Executives would be able to receive a retention bonus although the company has seen significant decreases in its financial and operational performance. - While the variable compensation shall be waived for financial years 2020 and 2021 and replaced with a possible retention bonus, the company does not disclose a cap on variable compensation within its remuneration report.</i>			
5.4	Approve Fixed Remuneration of Executive Committee in the Amount of CHF 2.8 Million for Fiscal Year 2022	For	For
6	Transact Other Business (Voting)	For	Against
<i>Blended Rationale: A vote AGAINST is warranted because:- This item concerns additional instructions from the shareholder to the proxy in case new voting items or counterproposals are introduced at the meeting by shareholders or the board of directors; and- The content of these any new items or counterproposals is not known at this time. Therefore, it is in shareholders' best interest to vote against this item on a precautionary basis.</i>

4	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<i>Blended Rationale: A vote AGAINST this proposal is warranted for the unmitigated pay-for-performance misalignment. Adjustments to the annual incentives in response to the COVID-19 pandemic were reasonable and pay opportunities were lowered. However, significant concerns are raised regarding the long-term incentives as multiple adjustments were made to mid-cycle awards. As a result, PRSUs measured against FY20 performance were deemed achieved at target, which is particularly concerning as PRSUs granted in prior years were subject to one-year performance periods. Shareholders generally prefer that long-term incentives are designed to smooth performance over the long-term and should not be altered in response to negative short-term market impacts. In addition, the compensation committee granted significant off-cycle, time-vesting retention awards to NEOs, with the CEO receiving an additional time-vesting retention award in FY21.</i>

Proposal Number	Proposal Text	Mgmt Rec	Vote Instruction
3	Advisory Vote on Executive Compensation Approach	For	Against
<i>Blended Rationale: Vote AGAINST this non-binding advisory vote. The Sustainability Advisory Services quantitative screen indicated a high concern which has been maintained upon further quantitative and qualitative analysis of the company's compensation structure and practices. The CEO's 2020 total compensation increased by 34 percent as compared to 2019 due to a 60 percent increase in STI and 36 percent increase in LTI grant value (which is 50 percent performance conditioned), even as TSR stood at only 3.9 percent for 2020. Furthermore, the company significantly underperformed its own peer group in terms of TSR in both one-year and three-year timeframes, and its operational performance, as evidenced by EBITDA margin and ROE, also appears to be lagging its peers for the last two years. While, the company's realized/realizable pay appears to be aligned with the TSR performance, the increase of 34 percent in CEO compensation does not appear to be in line with the significant TSR underperformance along with the substandard operating performance in the last two years. The company has not disclosed specific targets, thresholds associated with the STI payouts and also no rationale was provided pertaining to the 36 percent increase in LTI grant value. Such disclosure improves shareholders' ability to assess the rigor by which targets are set and awards are made. In light of the above along with the problematic pay practice associated with CEO's change in control agreement, this non-binding say-on-pay proposal is at this stage not supported.</i>

4	Approve Remuneration Report	For	Against
<p><i>Blended Rationale: A vote AGAINST is warranted, because:- The company's STI disclosure is still insufficient regarding targets and the payout percentage of the maximum salary.- The company discloses that a 10 percent threshold for STI performance metrics is required to receive a STI bonus. This means that with a relatively low achievement, executives receive a bonus. Therefore, the criteria are insufficiently challenging.- The LTI pay-out is considered excessive, especially given the current pay-for-performance alignment. No maximum LTI award levels are disclosed.- There is insufficient disclosure on LTI performance criteria (stock option plan and restricted shares plan).</i></p>

<p><i>Blended Rationale: A vote AGAINST is warranted, because:- The LTI pay-out is considered excessive, especially given the current pay-for-performance alignment. No maximum LTI award levels are disclosed.- There is insufficient disclosure on LTI performance criteria (stock option plan and restricted shares plan) and RSUs and options vest prior to three years. Although we recognize there are applicable holding periods, overall the equity based remuneration is complex due to the many overlapping and running plans, without adequate caps or performance metrics giving it a high level of discretion.</i></p>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against

Blended Rationale: The annual incentive program is based on pre-set financial and operational goals, and COVID-related STI adjustments are generally reasonable. Further, performance shares are now based on multi-year performance, although shareholders would benefit from forward-looking goal disclosure. Finally, pay and performance are reasonably aligned for the year in review. However, the committee demonstrated limited responsiveness to last year's relatively low support for say-on-pay, and a vote AGAINST this proposal is warranted. The company disclosed details of its engagement efforts with shareholders, although disclosure indicates that directors did not participate in these meetings. Further, although the company discloses positive feedback from investors with which it engaged, the company does not disclose any concerns expressed by shareholders as evidenced by last year's relatively low support for say-on-pay. While the company implemented several positive changes to the program in response to shareholder feedback following the 2019 AGM, shareholders were able to assess these changes before casting votes at the 2020 AGM. Accordingly, the company has demonstrated limited responsiveness.

Blended Rationale: A vote AGAINST the remuneration report of Sébastien Bazin is warranted because:- Important modifications on the performance criteria attached to the annual bonus have been processed by the Company. The information provided does not allow to compare what the bonus amount would have been without changing these criteria;- While the new annual bonus criteria were fully achieved and have led to a payment representing 100% of the reviewed cap, the Company does not disclose their targets and details regarding their achievement level;- The targets and vesting scales of the criteria attached to the LTIP granted are not disclose, it is therefore impossible to assess their relevance;- There is a risk of compensation effect between criteria for LTIP granted during FY20, as occurs for awards that vested during FY under review; and- The levels of achievement of the performance criteria of LTIP 2018 will be calculated on a revised budget.

6	Approve Compensation of Thomas Buberl, CEO	For	Against
<i>Blended Rationale: Despite notable improvements a vote AGAINST this remuneration report is warranted because:- The justifications of the adjustments made to neutralize the impact of Covid-19 on the STI and LTI are not deemed compelling enough;- The increased number of shares granted during FY20 along with the change in the plan's grant date triggers a potential windfall effect. While the decision to change the plan's grant date was announced in 2019 before the sanitary crisis (plans were previously implemented in June), the company has not disclosed how this potential risk of windfall effect had been taken into account when shares were granted. This is all the more problematic as it is also proposed to revise performance conditions attached to this plan to take into account the impact of the sanitary crisis.- The options of the 2017 plan that should have vested this year have seem to have failed the performance criteria for the initial performance period and are being retested on upcoming exercises.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For
	<i>Blended Rationale: A vote FOR this proposal is warranted. While there are some concerns regarding the use of annual performance measurement periods under the LTI program and a common metric in STI and LTI, the annual cash incentives are based on financial goals and LTI awards are predominantly performance-based. Additionally, STI payouts for FY20 were capped at target and delivered in time-vesting equity, and a portion of base salaries was also paid in time-vested equity awards. Further, performance shares replaced a significant portion of LTI cash awards, strengthening the link between pay and shareholder returns.</i>

<i>Blended Rationale: Significant risks to shareholders stemming from severe ESG controversies have been identified at the company, which reflects a failure by the board to proficiently guard against and manage material environmental, social and governance risks.- Votes AGAINST board chair Anthony (Tony) Hayward are warranted given that the chair of the board ultimately shoulders the most responsibility amongst all board members for failing to effectively supervise the management of risks to the company and its shareholders, and should therefore be held the most accountable for poor board oversight of ESG risk exposures at the firm.</i>

	<p><i>Blended Rationale: Significant risks to shareholders stemming from severe ESG controversies have been identified at the company, which reflects a failure by the board to proficiently guard against and manage material environmental, social and governance risks. Votes AGAINST Peter (Pete) Coates are also considered warranted:- Concerns are raised in relation to the Company's safety performance over recent years. In 2020 the Company incurred eight fatalities. Further, the Company's target of zero fatalities has not been met in a single year since the Company's listing in 2011. As Chair of the Health, Safety, Environment & Communities Committee the concern around the Company's safety performance is raised under Peter Coates re-election.</i></p>

Concerns are raised regarding the overall remuneration levels at the Company.</i></p>		
14	Approve Company's Climate Action Transition Plan	For	Against
	<p><i>Blended Rationale: Votes AGAINST this proposal are warranted:- Following the expiry of its 2020 GHG intensity target, the Company has not set any further near-term emissions targets;- There are also no clear commitments around thermal coal, which is said to represent 10-15% of EBITDA in the medium-term; and- The company has not set targets approved by the Science Based Targets Initiative.</i></p>		
15	Approve Remuneration Policy	For	Against
	<p><i>Blended Rationale: A vote AGAINST this resolution is considered warranted:- The proposed pay package for the incoming CEO is high relative to peers, being driven by a competitively placed salary.- While a robust holding period is in place, the RSP permits significant time-based awards that are not subject to conventional performance conditions.</i></p>

1i	Elect Director William J. Mulrow	For	For
1j	Elect Director Steven Roth	For	Against
<i>Blended Rationale: A vote AGAINST Steven Roth is warranted for serving on more than three public boards while serving as a CEO of an outside company, and for failing to attend at least 75 percent of his total board held during the fiscal year under review without disclosing the reason for the absences. A vote FOR the remaining director nominees is warranted.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For
3	Ratify Deloitte & Touche LLP as Auditors	For	For
4	Amend Omnibus Stock Plan	For	Against

Blended Rationale: Based on evaluation of the estimated cost, plan features, and grant practices using the Equity Plan Scorecard (EPSC), a vote AGAINST this proposal is warranted due to the following key factors:- The plan cost is excessive;- The estimated duration of available and proposed shares exceeds six years;- The disclosure of change-in-control ("CIC") vesting treatment is incomplete (or is otherwise considered discretionary); and- The plan allows broad discretion to accelerate vesting.

3	Re-elect Oleg Novachuk as Director	For	For

Blended Rationale: Item 3-4, 8: Re-elect Directors A vote FOR this candidate is warranted as no significant concerns have been identified. Items 5-7 & 9-10: Re-elections of Independent Directors A vote FOR the re-election of these Directors is considered warranted, although it is not without concern for shareholders:- Concerns are raised around the governance and dynamics of the Board and specifically the Independent Committee in connection with the bid process. The Independent Committee recommended the first offer to minority shareholders by Nova at 640 pence per share. The final offer is 850 pence per share together with a special dividend of 27 cents per share in aggregate, this represents a difference in valuation of over GBP 1 billion (or an increase of approximately 36%). The main reasons for support are:- A stronger stance is not considered warranted, given that the offer price has been raised to a level that gained acceptance from more than 75% of the issued share capital after initial resistance from minority shareholders and in view of the pending delisting of the Company.

Proposal Number	Proposal Text	Mgmt Rec	Vote Instruction
2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<i>Blended Rationale: A vote AGAINST this proposal is warranted. The company's long-term share price performance no longer mitigates concerns over the sizable year-over-year increase in the value of outperformance awards. The value of the CEO's POP and PPP awards increased by 21 percent year-over-year to \$19.5 million, which is significantly larger than his annual LTI award of \$12.4 million. The structure of the annual LTI program also raises some concern, as up to half of the award may be earned based on individual performance, while the relative metric targets merely the median. In addition, the complex structure arising from multiple long-term incentive programs raises some concern, as it is particularly difficult to assess the rigor of the PPP program under which the CEO's award values have increased substantially for a number of years. These concerns are not mitigated by the modest improvements to the annual program, or the structure of the CEO's salary. The combined value of the CEO's STI award and salary are less than the increase in the value of his PPP awards alone for the year in review, and the annual program lacks complete disclosure of quantified targets.</i>

3	Approve Remuneration Report	For	Against
	<i>Blended Rationale: A vote AGAINST the 2020 remuneration report is warranted due to concerns that the company's executive remuneration is misaligned with the company's performance and shareholder outcomes, and poor governance practices include:- A high level of concern identified in quantitative pay-for-performance analysis for misalignment of executive remuneration with company performance, peers and shareholder outcomes- Payment of one-off retention bonuses to executives valued at 100 percent of fixed remuneration being misaligned with the company's performance and shareholder returns, with much of it front-ended and offered in cash, in the absence of any substantive performance conditions except ongoing service, and "offered in recognition of the fact that no other incentive (short or long term) will be awarded during, or in respect of 2020."- Payment of an additional \$300,000 to the departing CEO in respect of additional work he undertook to support the AMP Capital business.- The annual STI award has been structure to be based primarily on undisclosed strategic initiatives, denying the ability for shareholders to discern the rigor of targets and alignment with shareholder interests.- The non-disclosure of specific and quantified targets and the weightings allocated to each of the performance objectives for the STI award, which is inconsistent with disclosure practices in the market and shareholder expectations for transparency and good governance.- Non-executive director remuneration remains high, and above the median of market cap and Sustainability Advisory Services-selected industry peer groups.- Departing executives appear to have been treated as good leavers and retain most of their equity or pro-rated equity awards.- Retrospective adjustment to Transformation awards for two executives is generous. Some positive features include- restraint in fixed remuneration increases for the CEO and executives,- Chair's fee reduced in FY20 from \$850,000 to \$660,000,- improved disclosure of linkage between performance outcomes and awards,- no STI or LTI awards granted for FY20,- an increased level of deferral of STI awards from 40 to 60 percent in FY21, and-amended minimum shareholding guidelines.</i>

	<i>Blended Rationale: A vote AGAINST this proposal is warranted. Excluding the incremental value associated with equity award modifications, CEO Clark's total pay declined year-over-year. Short-term incentives are linked to financial goals and equity awards are mostly performance-based with multi-year goals. However, there are concerns regarding the significant COVID-19 related modifications to incentive awards. Although the resulting STI payouts were somewhat reasonable, the modifications to closing-cycle LTI awards increased the earnouts significantly, and the committee also adjusted the financial goals for in-progress performance shares. Such modifications to in-progress and closing-cycle equity awards are generally not viewed as an appropriate reaction to COVID-19 by investors.</i>

	<i>Blended Rationale: A vote AGAINST this proposal is warranted. Incentive programs are performance-based and there was a reduction in target pay for the new CEO in FY20. However, there are certain concerns surrounding one-time pay decisions made in FY20. Specifically, incoming NEO Kilar's base salary was set at \$2.5 million, which is above that of the current and former CEO. Also, NEO McAtee received a significant time-vesting "career retention grant", valued at \$9 million, the rationale for which is not considered compelling. Most concerning is the magnitude and structure of a sign-on equity award granted to NEO Kilar, valued at \$48 million, which also lacks performance criteria and vests solely over time.</i>

3a	Re-elect Gene Murtagh as Director	For	Abstain
<i>Blended Rationale: An ABSTAIN vote is considered appropriate on the re-election of CEO Gene Murtagh: Gene Murtagh has been with the Company since 1993, on the Board since 1999, and CEO since 2005. He is therefore ultimately accountable for the failures in risk oversight, controls, and company culture which have caused significant reputational harm to the Company in connection with the Grenfell Tower Inquiry. An abstention signals a level of concern to the Board, pending the outcome of the Grenfell Tower Inquiry when its final report is released in 2022. A vote FOR this resolution is warranted for those shareholders in markets which have a fiduciary responsibility to vote either for or against and who do not recognise abstention as a valid option.</i>

<i>Blended Rationale: A vote AGAINST this resolution is warranted:- Peter Wilson, former Managing Director of the Insulated Boards business, has been permitted to retain his outstanding LTIP awards, subject to pro-rating for time and performance, upon his resignation from the role. There appears to be a case for malus to have been applied to these awards, given the recent "unacceptable conduct and historical process shortcomings" within that business.</i>

2	Approve Remuneration Report	For	Against
<i>Blended Rationale: A vote AGAINST the remuneration report is warranted, given the following corporate governance concerns:- High level of concern identified in quantitative pay-for-performance analysis for misalignment of CEO remuneration with company performance, and shareholder outcomes.- STI bonuses were materially higher in FY20, being materially misaligned with the company's loss-making year and shareholder outcomes which saw a material decline of near 50 percent in shareholder value.- The STI has a low weighting to financial measures and non-disclosure of STI performance targets being misaligned with market practices and making it difficult to independently assess the extent to which targets are aligned with shareholder expectations and whether bonus outcomes are reasonable.- Non-executive director fees are higher than market medians and director travel allowances are excessive.- The termination arrangements for the departing CEO were excessive.Given the significant capital raising undertaken during the year, materially reduced dividends, a loss-making year and materially negative shareholder value outcomes, consideration of higher bonuses is not appropriate.For some balance, the company's executive remuneration structure is broadly in line with market to the extent that it has a mix of fixed and variable remuneration with minimum shareholding requirements to align executives and directors with shareholders to some extent.</i>

6	Approve Grant of Restricted Shares, Alignment Rights and Performance Rights to Keiran Wulff	For	Against

Blended Rationale: A vote AGAINST the grant of equity to CEO Keiran Wulff is warranted. Corporate governance concerns are observed including:- The introduction of new "Alignment Rights", which represent a reduction in "at risk" remuneration and are essentially a "deferred fixed pay increase". It may be regarded as a misnomer that such rights are aligned with shareholder interests or improved company performance, given- the higher certainty of vesting irrespective of shareholder outcomes, and- an absence of adequate performance measures which are expected in this market for vesting of long-term equity bonuses.- There is limited and inadequate disclosure of how the performance conditions that are disclosed to be in existence are to be assessed or what target measures exist. It appears that the disclosed measures are core "day job" responsibilities of a CEO which further increase the likelihood of vesting.- The new ROCE measure may be seen to have been set at an insufficiently challenging level.- The value of the proposed FY21 LTI award is not materially reduced, to account for the increased certainty of vesting for the Alignment Rights, which are analogous to common Restricted Shares Units and essentially with time-based vesting.- The combined value of Alignment Rights and Performance Rights has increased in the FY21 grant compared with FY20, which appears inconsistent with the performance and prospects of the company.- The company has represented that the proposed equity grant represents a reduction in the CEO's LTI award with an improved alignment with shareholders through the Alignment Rights. However, it was not disclosed in the first instance that the bonus opportunity was in fact increased by 50 percent (from 100% to 150% of fixed remuneration) immediately prior to the decision to introduce the Alignment Rights.

7	Approve Grant of Non-Executive Director Rights to Michael Utsler	For	For
8	Approve Capital Protection	Against	For

Blended Rationale: A vote FOR this proposal is warranted given that shareholders are likely to benefit from a regular review and additional disclosure on how the company's capital expenditure and operations are managed in a manner consistent with the climate goals of the Paris Agreement.

3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<i>Blended Rationale: A vote AGAINST this proposal is warranted. CEO total pay significantly increased year-over-year due to sizeable one-time equity awards. Concerns are also raised regarding disclosure under the FY20 STI program. Although the STI payouts were below target, the determination was largely based on qualitative objectives for which specific achievements were not disclosed. Additionally, half of the acquisition-related one-time equity awards were time-based, while the other half, although forfeited, were based on one-year goals. Further, the stock price hurdles for November PSUs are not particularly rigorous compared the pre-pandemic levels. Lastly, the relative TSR metric under the regular LTI program targets only median performance with no disclosed cap if absolute TSR is negative.</i>

<i>Blended Rationale: A vote AGAINST this item is warranted because:- Concerns are raised regarding the quantum of CEO Andy Bird's remuneration package, including the salary rate and the one-off co-investment award approved at the Company's GM in September 2020. While shareholders were provided a vote on the co-investment award, they did so with the knowledge that if the resolution were to be defeated, Bird would not agree to become CEO, leading to further instability.- Despite this, the vote faced heavy shareholder dissent, with 33% of votes cast against the proposal. The Company's response to this vote was primarily to augment the underpin conditions, which is a welcome development but nonetheless the award remains a significant deviation from good practice in the UK market.</i>

4	Do You Wish to Adopt Cumulative Voting for the Election of the Members of the Board of Directors, Under the Terms of Article 141 of the Brazilian Corporate Law?	None	Abstain
	<p><i>Blended Rationale: Under these items, the company presents shareholders with the option to request cumulative voting for the election of directors under the terms of Article 141 of the Brazilian Corporate Law, in accordance with the rules of the remote voting card issued by the Brazilian Securities Regulator (CVM), and mandatory for all publicly-traded Brazilian companies. Vale has disclosed 16 candidates disputing 12 available board seats, indicating a contested election in which management disclosed 12 board candidates and dissident shareholders appointed four board candidates under a unbundled majority election (Items 5.1-.516).By the time this analysis was finalized, there was no publicly available information regarding a cumulative voting request presented by shareholders, which can be requested by holders of 5 percent of the company's shares up to 48 hours prior to the meeting. As such, an ABSTAIN vote on Item 4 (Do You Wish to Adopt Cumulative Voting) is recommended.</i></p> <p>Shareholders Must Vote For Only 12 of the Candidates Under Items 5.1-5.16</p>

	<p><i>Blended Rationale: Vale has disclosed a contested election with 16 board nominees disputing 12 board seats. The majority election will be carried out individually, allowing shareholders to vote separately on each nominee. Management has disclosed 12 board candidates (Items 5.1-5.12), among them five new nominees, while dissident shareholders nominated four independent director candidates, including three new nominees and one incumbent independent director (Items 5.13-5.16).Vale has adopted a robust nomination process, which was well-communicated to the market, has made material changes to its administration in the last years following the Brumadinho disaster, and is proposing for the first time a majority independent board with most of the management candidates being either recently appointed to the board for the first time or new nominees. Meanwhile, dissident shareholders have failed to provide a compelling rationale and/or a strategy for additional change and the proposed election of four directors, representing one-third of the available seats.While all candidates appear to be well qualified, vote recommendations under this contested election are as follows:- Votes FOR management nominees Clinton James Dimes (Item 5.3), Eduardo de Oliveira Rodrigues Filho (Item 5.4), Elaine Dorward-King (Item 5.5), Jose Mauricio Pereira Coelho (Item 5.6), Manuel Lino Silva de Sousa Oliveira (Ollie Oliveira) (Item 5.8), Maria Fernanda dos Santos Teixeira (Item 5.9), Murilo Cesar Lemos dos Santos Passos (Item 5.10), Roger Allan Downey (Item 5.11), and Sandra Maria Guerra de Azevedo (Item 5.12) in light of the reasonable overall board independence;- A cautionary vote FOR incumbent non-independent management nominee Fernando Jorge Buso Gomes (Item 5.2), currently the longest serving Vale's director and the only director who has been on the board during both dam disasters in 2015 and 2019, due to the reasonable rationale presented by the company regarding "a balanced transition process", in the context of the chair/vice-chair positions. - A vote AGAINST new non-independent management nominee Ken Yasuhara (Item 5.7) as the director appears to lack board experience, having served only as an alternate member since 2020;- ABSTAIN votes for dissident nominees Marcelo Gasparino da Silva (Item 5.13) and Mauro Gentile Rodrigues da Cunha (Item 5.14) as dissident shareholders have failed to provide a compelling rationale and/or a strategy for additional change through the election of up to one-third of the board; and- A vote FOR dissident independent nominee Rachel de Oliveira Maia (Item 5.16) as the director candidate appears to add to the skill matrix developed by the company for its board, would likely add relevant experience to the board, and increase board independence, as well as gender and racial diversity.Significant risks to shareholders stemming from severe ESG controversies have been identified at the company, which reflects a failure by the board to proficiently guard against and manage material environmental, social and governance risks. - Votes AGAINST board chair Jose Luciano Duarte Perido are warranted given that the chair of the board ultimately shoulders the most responsibility amongst all board members for failing to effectively supervise the management of risks to the company and its shareholders, and should therefore be held the most accountable for poor board oversight of ESG risk exposures at the firm.The recommendation to vote against or abstain from supporting certain director candidates should not be interpreted as a negative assessment of the nominees' experience and qualifications.</i></p>

The majority election will be carried out individually, allowing shareholders to vote separately on each nominee. Management has disclosed 12 board candidates (Items 5.1-5.12), among them five new nominees, while dissident shareholders nominated four independent director candidates, including three new nominees and one incumbent independent director (Items 5.13-5.16). Vale has adopted a robust nomination process, which was well-communicated to the market, has made material changes to its administration in the last years following the Brumadinho disaster, and is proposing for the first time a majority independent board with most of the management candidates being either recently appointed to the board for the first time or new nominees. Meanwhile, dissident shareholders have failed to provide a compelling rationale and/or a strategy for additional change and the proposed election of four directors, representing one-third of the available seats. While all candidates appear to be well qualified, vote recommendations under this contested election are as follows:- Votes FOR management nominees Clinton James Dimes (Item 5.3), Eduardo de Oliveira Rodrigues Filho (Item 5.4), Elaine Dorward-King (Item 5.5), Jose Mauricio Pereira Coelho (Item 5.6), Manuel Lino Silva de Sousa Oliveira (Ollie Oliveira) (Item 5.8), Maria Fernanda dos Santos Teixeira (Item 5.9), Murilo Cesar Lemos dos Santos Passos (Item 5.10), Roger Allan Downey (Item 5.11), and Sandra Maria Guerra de Azevedo (Item 5.12) in light of the reasonable overall board independence;- A cautionary vote FOR incumbent non-independent management nominee Fernando Jorge Buso Gomes (Item 5.2), currently the longest serving Vale's director and the only director who has been on the board during both dam disasters in 2015 and 2019, due to the reasonable rationale presented by the company regarding "a balanced transition process", in the context of the chair/vice-chair positions.- A vote AGAINST new non-independent management nominee Ken Yasuhara (Item 5.7) as the director appears to lack board experience, having served only as an alternate member since 2020;- ABSTAIN votes for dissident nominees Marcelo Gasparino da Silva (Item 5.13) and Mauro Gentile Rodrigues da Cunha (Item 5.14) as dissident shareholders have failed to provide a compelling rationale and/or a strategy for additional change through the election of up to one-third of the board; and- A vote FOR dissident independent nominee Rachel de Oliveira Maia (Item 5.16) as the director candidate appears to add to the skill matrix developed by the company for its board, would likely add relevant experience to the board, and increase board independence, as well as gender and racial diversity. Significant risks to shareholders stemming from severe ESG controversies have been identified at the company, which reflects a failure by the board to proficiently guard against and manage material environmental, social and governance risks.- Votes AGAINST board chair Jose Luciano Duarte Penido are warranted given that the chair of the board ultimately shoulders the most responsibility amongst all board members for failing to effectively supervise the management of risks to the company and its shareholders, and should therefore be held the most accountable for poor board oversight of ESG risk exposures at the firm. The recommendation to vote against or abstain from supporting certain director candidates should not be interpreted as a negative assessment of the nominees' experience and qualifications.

<p><i>Blended Rationale: Under these items, the company presents shareholders with the option to request cumulative voting for the election of directors under the terms of Article 141 of the Brazilian Corporate Law, in accordance with the rules of the remote voting card issued by the Brazilian Securities Regulator (CVM), and mandatory for all publicly-traded Brazilian companies. Vale has disclosed 16 candidates disputing 12 available board seats, indicating a contested election in which management disclosed 12 board candidates and dissident shareholders appointed four board candidates under a unbundled majority election (Items 5.1-.516). By the time this analysis was finalized, there was no publicly available information regarding a cumulative voting request presented by shareholders, which can be requested by holders of 5 percent of the company's shares up to 48 hours prior to the meeting. As such, an ABSTAIN vote on Item 4 (Do You Wish to Adopt Cumulative Voting) is recommended. Nonetheless, as a dispersed capital company, in the event a cumulative voting request is presented up to 48 hours prior to the meeting, and Vale's board election is carried out under such election format, vote recommendations are being provided for these agenda items, as follows:- Item 6 (In Case Cumulative Voting is Adopted, Do You Whish to Equally Distribute Your Votes Amongst the Nominees?): FOR to allow the automatic distribution of votes solely among the candidates being supported by shareholders under cumulative voting;- Items 7.3-7.6, 7.8-7.12, and 7.15 (management nominees Clinton James Dines, Eduardo de Oliveira Rodrigues, Elaine Dorward-King, Jose Mauricio Pereira Coelho, Manuel Lino Silva de Sousa, Maria Fernanda dos Santos Teixeira, Murilo Cesar Lemos dos Santos Passos, Roger Allan Downey, Sandra Maria Guerra de Azevedo and shareholder nominee Rachel de Oliveria Maia): FOR, consistent with the vote recommendations presented under the majority election, as further discussed under Items 5.1-5.16;- Item 7.2 (management incumbent nominee Fernando Jorge Buso Gomes): cautionary FOR, as further discussed under the majority election (Items 5.1-5.16):- Items 7.1, 7.7, 7.13, 7.14 and 7.16 (management nominees Jose Luciano Duarte Penido; new non-independent management nominee Ken Yasuhara and independent shareholders nominees Marcelo Gasparino da Silva, Mauro Gentile Rodrigues da Cunha and Roberto da Cunha Castello Branco): ABSTAIN, as further discussed under the majority election (Items 5.1-5.16).</i></p>

5.6	Elect Jose Mauricio Pereira Coelho as Director	For	Against
<p><i>Blended Rationale: Vale has disclosed a contested election with 16 board nominees disputing 12 board seats. The majority election will be carried out individually, allowing shareholders to vote separately on each nominee. Management has disclosed 12 board candidates (Items 5.1-5.12), among them five new nominees, while dissident shareholders nominated four independent director candidates, including three new nominees and one incumbent independent director (Items 5.13-5.16). Vale has adopted a robust nomination process, which was well-communicated to the market, has made material changes to its administration in the last years following the Brumadinho disaster, and is proposing for the first time a majority independent board with most of the management candidates being either recently appointed to the board for the first time or new nominees. Meanwhile, dissident shareholders have failed to provide a compelling rationale and/or a strategy for additional change and the proposed election of four directors, representing one-third of the available seats. While all candidates appear to be well qualified, vote recommendations under this contested election are as follows: Votes FOR management nominees Jose Luciano Duarte Penido (Item 5.1), Clinton James Dimes (Item 5.3), Eduardo de Oliveira Rodrigues Filho (Item 5.4), Elaine Dorward-King (Item 5.5), Manuel Lino Silva de Sousa Oliveira (Ollie Oliveira) (Item 5.8), Maria Fernanda dos Santos Teixeira (Item 5.9), Murilo Cesar Lemos dos Santos Passos (Item 5.10), Roger Allan Downey (Item 5.11), and Sandra Maria Guerra de Azevedo (Item 5.12) due to the reasonable overall board independence; A cautionary vote FOR incumbent non-independent management nominee Fernando Jorge Buso Gomes (Item 5.2), currently the longest serving Vale's director and the only director who has been on the board during both dam disasters in 2015 and 2019, due to the reasonable rationale presented by the company regarding "a balanced transition process"; A vote AGAINST new non-independent management nominee Ken Yasuhara (Item 5.7) as the director appears to lack board experience, having served only as an alternate member since 2020; ABSTAIN votes for dissident nominees Marcelo Gasparino da Silva (Item 5.13), Mauro Gentile Rodrigues da Cunha (Item 5.14), and Roberto da Cunha Castello Branco (Item 5.16) as dissident shareholders have failed to provide a compelling rationale and/or a strategy for additional change through the election of up to one-third of the board; and A vote FOR dissident independent new nominee Rachel de Oliveira Maia (Item 5.15) as the director candidate appears to add to the skill matrix developed by the company for its board, would likely add relevant experience to the board, and increase overall board independence, as well as gender and racial diversity. Significant risks to shareholders stemming from severe ESG controversies have been identified at the company, which reflects a failure by the board to proficiently guard against and manage material environmental, social and governance risks. - Votes AGAINST currently serving board chair Jose Mauricio Pereira Coelho are warranted given that the chair of the board ultimately shoulders the most responsibility amongst all board members for failing to effectively supervise the management of risks to the company and its shareholders, and should therefore be held the most accountable for poor board oversight of ESG risk exposures at the firm. The recommendation to vote against or abstain from supporting certain director candidates should not be interpreted as a negative assessment of the nominees' experience and qualifications.</i></p>

7.16	Percentage of Votes to Be Assigned - Elect Roberto da Cunha Castello Branco as Independent Director Appointed by Shareholders	None	Abstain
<p><i>Blended Rationale: Under these items, the company presents shareholders with the option to request cumulative voting for the election of directors under the terms of Article 141 of the Brazilian Corporate Law, in accordance with the rules of the remote voting card issued by the Brazilian Securities Regulator (CVM), and mandatory for all publicly-traded Brazilian companies. Vale has disclosed 16 candidates disputing 12 available board seats, indicating a contested election in which management disclosed 12 board candidates and dissident shareholders appointed four board candidates under a unbundled majority election (Items 5.1-.516).By the time this analysis was finalized, there was no publicly available information regarding a cumulative voting request presented by shareholders, which can be requested by holders of 5 percent of the company's shares up to 48 hours prior to the meeting. As such, an ABSTAIN vote on Item 4 (Do You Wish to Adopt Cumulative Voting) is recommended.Nonetheless, as a dispersed capital company, in the event a cumulative voting request is presented up to 48 hours prior to the meeting, and Vale's board election is carried out under such election format, vote recommendations are being provided for these agenda items, as follows:- Item 6 (In Case Cumulative Voting is Adopted, Do You Wish to Equally Distribute Your Votes Amongst the Nominees?): FOR to allow the automatic distribution of votes solely among the candidates being supported by shareholders under cumulative voting;- Items 7.3-7.6, 7.8-7.12, and 7.15 (management nominees Clinton James Dines, Eduardo de Oliveira Rodrigues, Elaine Dorward-King, Jose Mauricio Pereira Coelho, Manuel Lino Silva de Sousa, Maria Fernanda dos Santos Teixeira, Murilo Cesar Lemos dos Santos Passos, Roger Allan Downey, Sandra Maria Guerra de Azevedo and shareholder nominee Rachel de Oliveria Maia): FOR, consistent with the vote recommendations presented under the majority election, as further discussed under Items 5.1-5.16;- Item 7.2 (management incumbent nominee Fernando Jorge Buso Gomes): cautionary FOR, as further discussed under the majority election (Items 5.1-5.16);- Items 7.1, 7.7, 7.13, 7.14 and 7.16 (management nominees Jose Luciano Duarte Penido; new non-independent management nominee Ken Yasuhara and independent shareholders nominees Marcelo Gasparino da Silva, Mauro Gentile Rodrigues da Cunha and Roberto da Cunha Castello Branco): ABSTAIN, as further discussed under the majority election (Items 5.1-5.16).</i></p> <p>Shareholders Who Vote In Favor of Item 8 Must Disregard Item 9. If Shareholder Votes In Favor on Items 8 and 9, His Vote Will Be Counted as an Abstention</p>

<p>Shareholders Who Vote In Favor of Item 9 Must Disregard Item 8. If Shareholder Votes In Favor on Items 8 and 9, His Vote Will Be Counted as an Abstention</p>			
9	Elect Roberto da Cunha Castello Branco as Board Chairman Appointed by Shareholders	None	Abstain
<p><i>Blended Rationale: Competing nominees have been presented for the individual chair and vice-chair elections. Management appointed independent incumbent nominee Jose Luciano Duarte Penido as chair (Item 8) and non-independent incumbent nominee Fernando Jorge Buso Gomes as vice-chair (Item 10).Dissident shareholders appointed independent new nominee Roberto da Cunha Castello Branco as chair (Item 9) and independent new nominee Mauro Gentile Rodrigues da Cunha as vice-chair (Item 11).Shareholders can only vote on one of the competing candidates for chair and vice-chair. As such, consistent with the vote recommendations presented under the majority election (Items 5.1-5.16), a vote AGAINST independent chair Jose Luciano Duarte Penido (Item 8) is recommended, while a cautionary FOR is recommended for non-independent management vice-chair nominee Fernando Jorge Buso Gomes (Item 10).As such, ABSTAIN votes are recommended for dissident chair and vice-chair nominees presented under Items 9 and 11. These recommendations, however, should not be interpreted as a negative assessment of the nominees' experience and qualifications.</i></p> <p>Shareholders Who Vote In Favor of Item 10 Must Disregard Item 11. 1.1	Elect Director Warren E. Buffett	For	Withhold
	<i>Blended Rationale: WITHHOLD votes for compensation committee members Susan (Sue) Decker, David Gottesman, Walter Scott Jr., and Meryl Witmer are warranted in the absence of a management say-on-pay proposal. CEO Buffett's compensation continues to be minimal, but two NEOs each continue to receive base salaries of \$16.0 million, which are some of the largest base salaries paid to any executive at a U.S. public company, and overall executive pay lacks a measurable link to company performance. Pay disclosure continues to be minimal, leaving shareholders with little information to assess decisions regarding, or committee oversight of, compensation determinations for executives. WITHHOLD votes for the company's CEO and board chair Warren Buffett are warranted as a signal to the board that stronger independent oversight and board management of climate risks at the company are necessary. The company's BHE subsidiary is a laggard in its industry as it does not set near-term and long-term GHG emissions targets, commit to being net-zero by 2050, or report its climate-related risks and opportunities along TCFD guidelines. 7	Require Independent Board Chair	Against	For
<i>Blended Rationale: A vote FOR this proposal is warranted given the importance of having an independent chairman of the board. In addition, the proponent raises a compelling argument that Eli Lilly would be best served by adopting an independent chair policy in light of potentially material legal and reputational risks facing the company, particularly around drug pricing, further suggesting that shareholders would benefit from the most robust form of independent oversight, in the form of an independent chair.</i>			
8	Adopt Policy on Bonus Banking	Against	For
<i>Blended Rationale: A vote FOR this proposal is warranted, as the proposal's request is not fully addressed by mechanisms in place and the proposal does not appear to be overly prescriptive. Although pay and performance were aligned for the year in review and the company maintains stock ownership guidelines, holding requirements and a clawback policy, the current ownership guidelines and holding requirements are not considered to be robust. The proposal's banking feature may provide additional safeguards for investors and is not overly prescriptive, giving the board sufficient flexibility in implementation.</i>			
9	Clawback Disclosure of Recoupment Activity from Senior Officers	Against	For
<i>Blended Rationale: A vote FOR this proposal is warranted as further disclosure regarding the circumstances of recoupment for senior executives below the NEO level would benefit shareholders.</i>

2	Ratify Grant Thornton LLP as Auditors	For	For
3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
	<i>Blended Rationale: A vote AGAINST this proposal is warranted. Significant concerns are identified regarding pay decisions made in FY20. Specifically, the company granted CEO Richison a mega equity award. While the award requires substantial stock price outperformance and the proxy states that the CEO is not eligible for other equity grants for five years, the magnitude of the award is excessive. Awards intended to cover such long periods of time prevent the committee from adjusting pay levels to reflect changes in individual or company performance. Further, while the STI pays out entirely based on rigorous financial targets, the structure may be problematic in future years, as slight outperformance can result in an escalated payout. The annual equity grant also continues to increase in grant value, with both the CEO and two NEOs each receiving a grant that is valued above that of the total median CEO pay of the company's peers. Also troubling is the board's lack of responsiveness to failed say-on-pay support last year. While the company reached out to shareholders to discuss executive compensation, the feedback from investors that was disclosed in the proxy statement was vague, making it impossible for investors to assess the company's pay program changes to ensure responsiveness.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against

Blended Rationale: A vote AGAINST this proposal is warranted. The compensation committee replaced the CEO's 2018 new hire award with a \$57 million grant which requires a lower stock price goal than the original award. Mid-cycle adjustments to performance equity grants are generally considered to be problematic, particularly when the changes both increase the value of the award and decrease the performance level needed to earn it. In addition, although none of the corporate financial thresholds in the annual incentive program were met, the committee used its discretion to fund the bonus pool at 80 percent of target. Lastly, the company provided the new head of the aviation business with an unusual \$2.5 million one-time housing allowance, in connection with his other relocation benefits.

Blended Rationale: A vote FOR is recommended for the proposal. Although Imperial Oil's climate risk strategy mirrors that of its US parent, it is a major player in Canada. Based on the public disclosures, it is comparatively lagging behind its domestic peers in climate change disclosures, the recognition of the vital role it has in addressing climate risk and the federal government's net zero pledge. This may affect its position in the ongoing energy transition taking place in Canada.

<i>Blended Rationale: A vote AGAINST is warranted because:- It is proposed to change the LTIP and move from full performance based to partially time-based only (35 percent);- Although the maximum opportunity is reduced (from 2.0x to 1.65x at-target) this only applies for at-max performance, and means the pay package is for at-target substantially guaranteed. This change does not mitigate the increased certainty-of-value concern;- The time based vesting part is valued at approximately EUR 2 million without being subject to performance.</i>

Proposal Number	Proposal Text	Mgmt Rec	Vote Instruction
1f	Elect Director Phebe N. Novakovic	For	Against
<i>Blended Rationale: Cautionary FOR votes are warranted for members of the compensation committee, which appears to be responsible for risks associated with share usage by directors and executives. The value of shares pledged by entities affiliated with lead director James Crown is high and has increased year-over-year; however, the pledged position is not excessive as a percentage of shares outstanding or in terms of the number of days it would take the market to absorb a sale of the pledged shares. Significant risks to shareholders stemming from severe ESG controversies have been identified at the company, which reflects a failure by the board to proficiently guard against and manage material environmental, social and governance risks. Votes AGAINST CEO/Chair Phebe Novakovic are warranted given that the CEO and chair of the board ultimately shoulders the most responsibility amongst all board members for failing to effectively supervise the management of risks to the company and its shareholders, and should therefore be held the most accountable for poor board oversight of ESG risk exposures at the firm.</i>

<i>Blended Rationale: A vote AGAINST this resolution is warranted because of the following reasons:- The Audit and Remuneration Committees lack independent representation.- The annual report does not provide a detailed breakdown of the Directors' individual emoluments paid during the year under review.- The terms of the notional options granted to the CEO during the year were not publicly disclosed.- An Executive Director is not employed under a formal service contract.</i>

<i>Blended Rationale: Items 3 - 6Despite potential concerns due to their non-independence, a vote FOR the re-election of Lord Charles Powell, Prijono Sugiarto, James Watkins, and Percy Weatherall are warranted as they are not members of the Audit and Remuneration Committees.Item 7An ABSTENTION on the re-election of John Wittis warranted because:- He is an Executive Director and is currently a member of the Audit and Remuneration Committees, which is not in line with UK best practice recommendations.A vote FOR this resolution is warranted for those shareholders in markets who have a fiduciary responsibility to vote either in favour or against and who do not recognise an abstention as a valid option.</i>

<i>Blended Rationale: A vote FOR this proposal is warranted. Following low vote support for the 2020 say-on-pay proposal, the company engaged with shareholders, disclosed their feedback in the proxy statement, and made meaningful changes to its compensation practices and disclosure. In response to investor concerns regarding the former CEO's transition agreement, the company provided an explanation regarding the board's decisions and stated that the board does not intend to enter into similar agreements in the future. In addition, while concerns are noted regarding certain aspects of the company's incentive programs, CEO pay and company performance are reasonably aligned for the year in review and no problematic practices are identified.</i>

5	Provide Right to Call A Special Meeting	Against	For
<i>Blended Rationale: A vote FOR this proposal is warranted. The proposed 15 percent threshold would represent an enhancement in the shareholders' special meeting right, which the board put in place after this proposal was submitted. Additionally, the 15 percent threshold appears reasonable given the company's current ownership structure.</i>

3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against

Blended Rationale: A vote AGAINST this proposal is warranted. CEO total pay increased significantly year-over-year, and a pay-for-performance misalignment is underscored by concerns regarding the incentive programs. Although FY20 STI opportunities were reduced, as the payouts utilized second fiscal half performance, the CEO's contractual base salary and target bonus opportunity remain relatively high. Moreover, pandemic-related equity awards lack performance criteria and have a relatively short vesting period, diminishing their retentive value. Additionally, the CEO's one-time performance equity, although a large portion was canceled, was in addition to his regular equity awards and lacks a compelling rationale. Further, forward-looking goals for the performance equity awards are not clearly disclosed.

5	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against

Blended Rationale: Although NEOs' base salaries and pay opportunities were increased in FY20, the CEO's total compensation remained well below peers. In addition, annual incentives were primarily determined by pre-set objective metrics, and though results were adjusted in response to the impacts of COVID-19, rationale is clearly disclosed, and payouts were capped below target. Moreover, while FY20 long-term incentives are entirely time-vesting, award values are relatively small and the majority of the CEO's FY21 long-term incentives will be performance-conditioned and measured over a multi-year period. While sufficient mitigating factors have been identified for the pay-for-performance misalignment, a problematic severance payment was awarded to former NEO Heim in connection with her resignation. Without greater transparency regarding the nature of her termination and the severance payments specifically, as well as the treatment of her outstanding equity awards, shareholders' ability to reasonably assess such benefits is inhibited. In light of this concern, a vote AGAINST this proposal is warranted.

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For
	<i>Blended Rationale: A vote FOR this proposal is warranted. Some concern is raised regarding the EPS adjustment for the 2017 cybersecurity incident related costs, as it increased the STI payouts significantly. Investors expect clear disclosure of the company's rationale, particularly when similar adjustments have been made in the past and when the impact of such adjustments are large. However, there will be no such adjustment beginning in 2021. Although additional concerns are raised regarding the goal rigor of the relative TSR metric and the premium-priced options, the STI program is largely linked to objective measures and equity awards are mostly performance-conditioned and utilize multi-year goals. Performance shares also incorporate a cap if TSR is negative and FY21 option grants to the CEO will return to a three-year cliff-vesting period. Nevertheless, close shareholder monitoring is warranted regarding the goal setting process for EPS and the CEO's anticipated increase in incentive pay for FY21.</i>

7	Approve Remuneration Policy	For	Against
<i>Blended Rationale: A vote AGAINST this item is warranted because:- The LTIP performance period has been extended (retesting) and there is no disclosure on performance targets; and- The former CEO's new executive contract includes a guaranteed payment of EUR 600,000 if no 2019-2022 LTI awards vest due to poor performance. Nonetheless, the company now caps all exit payments 2x total compensation, including the non-competition clause compensation, for new joiners.</i>			
8	Advisory Vote on Remuneration Report	For	Against
<i>Blended Rationale: A vote AGAINST this item is warranted because:- In view of Covid-19 effects, the board extended the 2019-2021 LTIP's performance period until yearend 2022, which is akin to resting; and- The board seems to have adjusted 2020 bonus targets according to guidance revised in July 2020 but information on 2020 performance outcome proves insufficient; and- No information has been provided on the 2016-2020 LTIP.</i>

2	Advisory Vote on Executive Compensation Approach	For	Against

Blended Rationale: A vote AGAINST this non-binding advisory vote is warranted due to continuing pay-for-performance misalignment. The quantitative pay-for-performance screen has identified a high concern, driven by all three screens of the model. This concern level has been retained after further quantitative and qualitative analysis. While the company's business and operation were negatively impacted by the COVID-19 pandemic and the company made certain adjustments to its incentive programs along with other compensation practices, several of the company's pay practices are considered problematic, along with an apparent misalignment between company performance and CEO pay, especially when considering the following factors:- The CEO's total compensation increased by approximately 132 percent over the last fiscal year, driven by a 410 percent increase in annual bonus, which represented a discretionary bonus payout at target and a US\$7.8 million one-time performance-based award;- Based on the company's self-selected peers, the CEO's 2020 compensation is significantly above the peer median, while the company has underperformed its peers in terms of certain operating metrics and TSR;- While the company's realized/realizable pay showed pay-for-performance alignment for past completed performance periods, in 2020, the company granted time-based awards to two NEOs and a performance-based special award to the CEO. Shareholders can question the appropriateness of the company's decision to grant these one-time awards specifically as the company stated that the retention awards were granted considering the recent business challenges and their impact on the company's LTIP. These awards may offset the effect of lower realized pay in the last two performance cycles. Notwithstanding the performance conditions affixed to the one-time award of the CEO, 50 percent of the US\$7.8 million award will vest when the company's share price is US\$35 (for 30 consecutive days). The closing price on April 15, 2021 was US\$32.93.

13	Approve Rule 9 Waiver Resolution in Respect of Share Acquisitions by Directors	None	For

Blended Rationale: A vote FOR this resolution is warranted, although it is not without concern to shareholders:- Shareholdings of the Society and its concert parties will potentially increase from 32.17% to 32.27% in the event that this resolution is approved. The main reason for support is:- The percentage increase of the shareholdings of the Society and its concert parties solely from this authority is relatively minimal.

Blended Rationale: A vote AGAINST this item is considered warranted. The Company has allowed the former CEO to retain a significant proportion of his outstanding LTIP awards, subject to pro-rating for time and performance. The failures in risk oversight and governance at the Juukan site clearly constitute a "catastrophic environment event" which has "had a material effect on the reputation" of Rio Tinto, as defined in the malus and clawback provisions of the 2018 remuneration policy. In this light, it is unclear why these provisions have not been more comprehensively applied. BACKGROUND INFORMATION Policies: Compensation

5	Elect Megan Clark as Director	For	Against
	<p><i>Blended Rationale: Item 5A vote AGAINST the re-election of Megan Clark is warranted. As Chair of the Sustainability Committee, she is accountable for the failures in governance and risk management that contributed to the Juukan Gorge incident, including the lack of effective controls to properly manage the social and environmental risks and the relationships with indigenous communities. Items 6-7, 9-11, 13A vote FOR these candidates is warranted as no significant concerns have been identified. Item 8A vote FOR the re-election of Sam Laidlaw, Chair of the Remuneration Committee, is warranted, although it is not without concern for shareholders. Significant concerns around remuneration governance in connection with the treatment of the outstanding LTIP awards belonging to the former CEO and other senior executives, given their roles in, and accountability for, the Juukan Gorge incident. The main reason for support is, as Senior Independent Director, Laidlaw is leading the succession process for Simon Thompson as Board Chair. As such, a voting sanction is not considered to be in the best interests of the Company and its shareholders at this time. Item 12A vote FOR the re-election of Simon Thompson is considered warranted, although it is not without concern for shareholders. As Board Chair, he is ultimately accountable for the Juukan Gorge incident, which represents a significant and irreparable failure in risk oversight and governance. The main reason for support is, he intends to step down at the 2022 AGM. The extension of his tenure until the next AGM will provide stability and continuity during a period of transition for the Company. BACKGROUND INFORMATION Policies: Board</i></p>

4	Adopt 2021 Staff Share Option Scheme	For	Against
<i>Blended Rationale: A vote AGAINST this resolution is warranted because:- The company could be considered a mature company, and the maximum dilution level under the proposed 2021 Scheme, when aggregated with the outstanding options granted under the previous staff share option schemes including the Staff Share Option Scheme 2016 which expired on April 18, 2021, would exceed 5 percent of the company's issued share capital.- Performance conditions and meaningful vesting periods have not been disclosed.- The directors eligible to receive options under the scheme are involved in the administration of the scheme.</i>			
5	Approve Issuance of Equity or Equity-Linked Securities without Preemptive Rights	For	Against
<i>Blended Rationale: A vote AGAINST Item 5 is warranted given the company has not specified the discount limit.</i>

<i>Blended Rationale: A vote AGAINST Item 7 is warranted for the following:- The share reissuance request would result to the aggregate share issuance limit exceeding 10 percent.- The company has not specified the discount limit.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against

Blended Rationale: A vote AGAINST this proposal is warranted. Although CEO pay normalized in FY20 following the prior year's large, front-loaded equity awards, concerns are noted particularly regarding the compensation of other top-level executives. NEOs' annual-cycle equity awards were entirely time based in FY20, and while PSUs are being introduced to the FY21 LTI program, the annual-cycle awards will remain primarily time based. Especially at large-cap companies, investors increasingly expect the majority of NEO equity awards to require achievement of rigorous performance goals. Further, the targets for special sign-on and merit/retention PSU awards are undisclosed, making it difficult for investors to assess the goal rigor, and the performance period is rather short, although earned units vest over multiple years. Lastly, the annual incentive program allows for individual assessments to make a significant impact on payouts; this concern is magnified given the NEOs' relatively high STI target opportunities.

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For
	<i>Blended Rationale: A vote FOR this proposal is warranted, with caution. Concerns are raised regarding the use of annual performance measurement periods in the LTI program, the use of EPS metric for both STI and LTI programs, and the relative TSR metric targeting median performance with no vesting cap if TSR is negative. Nevertheless, annual incentives are granted as PSUs that require additional time vesting when earned, the CEO's target equity mix is at least half performance-based, the annual PSU goals are set at the beginning of the three-year performance period and are clearly disclosed, and the closing-cycle PSUs vested below target. 2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For
	<i>Blended Rationale: A vote FOR this proposal is warranted, with caution. While several concerns remain from last year, the company has taken steps to improve programs. First, the compensation committee introduced quantitative financial targets into the annual incentive program and will include thresholds and maximums in FY21. Further, the committee plans to increase the proportion of annual incentives based on pre-set, objective criteria next year as well. Lastly, while equity awards were majority time-based to most NEOs, including two who received sizable retention awards, FY21 equity grants will include performance equity for all NEOs and use a multi-year performance period for the majority of the grants. Nevertheless, given that the proxy does not disclose what portion of equity awards will be performance-based nor the three-year metrics, continued close monitoring is warranted.</i>

3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For
	<i>Blended Rationale: A vote FOR this proposal is warranted as pay and performance are reasonably aligned for the year in review. The targeted long-term incentives are half-comprised of performance awards measured over a multi-year time period.</i>

It is unclear whether the request for the board to consider and to disclose how it considered the pay grades and/or salary ranges of all classifications of company employees when setting target amounts for CEO compensation would produce meaningful information on compensation policies and practices beyond what the company already discloses in its proxy. Also, there are no significant concerns identified with respect to the company's executive pay disclosure or pay targeting process.</i>

14	Approve Compensation of Bertrand Dumazy, Chairman and CEO	For	Against
	<i>Blended Rationale: A vote AGAINST this remuneration report is warranted because:- The board decided to adjust the bonus performance criteria and targets. As such, the bonus' performance criteria are assessed under the revised objectives announced in July 2020 and taking into account the impact of the Covid-19 foreseen at that time. The payout against those revised objectives reached above target achievement and does not seem consistent with the company's performance as the effects of the Covid-19 crisis on the bonus payout are not fully reflected.- The company decides not to disclose the set targets for financial and operational quantifiable criteria for confidentiality reasons. This does not permit to assess the stringency of the performance conditions.- The TSR-related criterion under the LTIP still allows vesting below median, at the 5th sextile and provides 50% of payout for reaching this underperformance.</i>

One-off discretionary awards are generally viewed negatively;- The basis the board uses to deviate from the policy raises concerns as the company has not demonstrated that the pay package without this additional award is unacceptable or unfair, or how this award is in the long-term sustainable interest of the company and to assure its viability as per legal requirements;- The LTIP disclosure is lagging as the company does not disclose achievement and payout of the latest performance cycle (2018-2020) which is in deviation of market practice.</i></p>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<i>Blended Rationale: A vote AGAINST this proposal is warranted. FY20 marks the first year in which a quantitative pay-for-performance misalignment has been identified at the company. Despite a year-over-year decline in the CEO's performance year pay, significant pay program concerns are identified. In particular, the targets under the STI program were set below the prior year's results for a second consecutive year and the payouts were above-target in the last three years when stock price performance was mixed. Moreover, performance-based equity awards' backward-looking goals are the same as the STI goals, which are measured on an annual basis and not particularly rigorous (given the same goal setting concerns as noted under the STI program), and equity awards are entirely time-vested after the grant.</i>

Therefore, it is in shareholders' best interest to vote against this item on a precautionary basis.

Retirement benefits are not performance-based in nature and increases in such benefits are rare and viewed as problematic by many investors.

3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against

Blended Rationale: A vote AGAINST this proposal is warranted. Incentive programs are primarily based on objective performance measures, and the company is implementing its previously announced LTI program, which utilizes a multi-year performance period, in response to shareholder feedback. However, minimal disclosure of LTI targets impedes an informed assessment of the new program. In addition, the committee made pandemic-related modifications to equity awards that were granted under the legacy LTI program, which was originally based on performance over three annual periods. While investors have expressed a degree of flexibility regarding adjustments to FY20 annual incentives in light of the pandemic, changes to closing-cycle and in-progress long-term incentive awards are generally not viewed as appropriate reactions to COVID-related market disruption.

Blended Rationale: Based on evaluation of the estimated cost, plan features, and grant practices using the Equity Plan Scorecard (EPSC), a vote AGAINST this proposal is warranted due to the following key factor(s):- The equity program is estimated to be excessively dilutive (overriding factor);- The plan cost is excessive;- The three-year average burn rate is excessive; and- The plan allows broad discretion to accelerate vesting.

3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<i>Blended Rationale: A vote AGAINST this proposal is warranted. While the compensation committee made some shareholder-requested changes to the pay program following engagement, the committee again did not address a stated investor preference for regularity and predictability in award-granting practices. In addition, the committee's commitment to not grant additional long-term awards was not particularly firm, raising concerns considering the recent history of sizable grants, the structure of FY20 awards, and the potential adjustments to the award due to the expected spin-off. Further, mitigating factors for the pay-for-performance misalignment have not been identified for the year in review. NEOs were awarded significant bonuses following lowered guidance in the third quarter. While certain COVID-related adjustments to incentive targets may be understandable, NEO award opportunities were not adjusted downward with the lowered goals and the committee did not provide sufficient rationale explaining how payouts were determined. Further concerns are noted regarding the long-term cash awards, as the awards were intended to cover multiple compensation periods; however, the performance and vesting periods are relatively short. Moreover, the magnitude of the CEO's total cash award is greater than five times the median total pay for CEO's in the Sustainability Advisory Services- and company-selected peer group, which is particularly concerning given that the award follows consecutive years of sizable stock grants. In light of these concerns, support for this proposal is not warranted.</i>			
4	Report on Lobbying Payments and Policy	Against	For
<i>Blended Rationale: A vote FOR this proposal is warranted, as additional disclosure of the company's direct and indirect lobbying-related expenditures would help shareholders better assess the risks and benefits associated with the company's participation in the public policy process.</i>			
5	Require Independent Board Chair	Against	For
<i>Blended Rationale: A vote FOR this proposal is warranted given the importance of having an independent board chair.</i>			
6	Limit Accelerated Vesting of Equity Awards Upon a Change in Control	Against	For
<i>Blended Rationale: A vote FOR this proposal is warranted, as a policy requiring pro-rata vesting upon a change in control would further align the interests of executives with shareholders.</i>

3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For
	<i>Blended Rationale: Though pay is reasonably aligned with performance at this time, a cautionary vote FOR this proposal is warranted. Concerns are raised regarding the committee's discretionary adjustments under both the annual and long-term incentive programs. However, in each case, the discretionary adjustments resulted in below target payouts. Going forward, it is expected that payouts return to being subject to pre-set, objective measures, rather than relying heavily on committee discretion.</i>

7.a	Reelect Aengus Kelly as Executive Director	For	For
7.b	Reelect Paul Dacier as Non-Executive Director	For	Against
<i>Blended Rationale: A vote AGAINST the reelection of remuneration committee chairman Paul Dacier is warranted because:- The company has failed to demonstrate good stewardship by failing to submit the remuneration to a shareholder vote. Despite not being formally required due to the company cross market status, both in US and the Netherlands companies are required to offer shareholders a say-on-pay;- As part of the reappointment of the CEO shareholders also approve of equity-based grants partially related to the GECAS transaction. This practice (of bundling proposals that could have presented separately without it necessarily being legally required to do so) is skewing away decision-making powers from shareholders by leaving them with an all-or-nothing choice;- The proposed transaction based equity package to the CEO is excessive; and- The design of the equity package is in deviation of good market practice where one-third is not subject performance (merely subject to the closing of the transaction) and represents a value of USD 57 million at current share price.(We note that the proposed transaction under Item 6 is not conditional upon approval of Item 7b).</i>

9	Approve Increase of Ordinary Shares in the Company's Capital Available for Issuance under the Company's Equity Incentive Plan	For	Against
<p><i>Blended Rationale: A vote AGAINST is warranted because:- The increase in pool size of the 2014 equity incentive plan is not concrete on vesting periods, or applicability of specific performance criteria (provides a list 26 potential metrics plus discretion to determine and use other metrics);- It appears that out of the increased pool size, the company will award the CEO the equity awards in connection with the GECAS transaction, which are considered discretionary and excessive;</i></p>

Blended Rationale: A vote FOR this proposal is warranted as lowering the ownership threshold for shareholders to call a special meeting from 25 percent to 10 percent would enhance shareholders' rights. Additionally, there is no shareholder that could act unilaterally at this time to call a special meeting at the proposed threshold.

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<i>Blended Rationale: A vote AGAINST this proposal is warranted. Annual incentives were primarily determined by objective metrics tied to clinical trials and development programs. In addition, while equity awards were entirely time-vesting, a majority were delivered in stock options, which are considered more strongly performance based for clinical-stage pharmaceutical companies. However, while sufficient mitigating factors were identified for the pay-for-performance misalignment, there are significant concerns regarding problematic severance payments and accelerated equity vesting awarded to NEOs Donadio and Chen upon what appear to be voluntary resignations. Shareholders generally view such payments upon a voluntary termination as a poor practice, as severance is intended to protect against involuntary job loss.</i>

3	Ratify Ernst & Young LLP as Auditors	For	For
4	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
	<i>Blended Rationale: A vote AGAINST the proposal is warranted. Although the annual bonus payout was primarily based on pre-set objective metrics in FY20, goal-setting concerns are raised. Several of the metrics used to determine annual incentives were set below actual performance in the prior year, without a reduction in the target opportunity. Further, the program allows for a relatively large potential adjustment to payouts for individual performance which, although it did not adjust the CEO's payout for the year in review, impacted payouts to other NEOs. In the long-term program, though half of the program is based on performance criteria which utilize multi-year performance periods, relative metrics historically target merely the median while the absolute metric does not disclose its forward-looking goal. The closing cycle award was earned above target, against merely median goals, and after the company made a sizable adjustment to the most recent year's ROCE performance, with limited explanation.</i>		
5	Adopt GHG Emissions Reduction Targets	Against	For
	<i>Blended Rationale: A vote FOR this proposal is warranted, as additional information on the company's GHG emissions reduction efforts would allow investors to better understand how the company is managing its transition to a low carbon economy and climate change related risks.</i>		
6	Report on Climate Lobbying	Against	For
	<i>Blended Rationale: A recommendation FOR this proposal is warranted. The company and its shareholders are likely to benefit from a review of how the company's and its trade associations' lobbying positions align with Paris Agreement, especially in light of the increasing risks to the company related to climate change.</i>

2	Ratify KPMG LLP as Auditor	For	For
	<i>Blended Rationale: A vote FOR this proposal to ratify the auditor is warranted.</i>		
3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
	<i>Blended Rationale: A vote AGAINST this proposal is warranted. There are significant concerns with respect to the equity compensation program. Specifically, a large portion of LTI awards may be earned based on annual performance, which undermines the long-term nature of such awards. Also, the one long-term metric utilized by performance shares may be earned at target for TSR at only the median of the comparator group, which is not viewed as a particularly rigorous goal, and the proxy does not disclose a vesting cap for instances of negative absolute TSR. In addition, the company lowered the threshold for TSR performance for the current awards from the 40th to the 25th percentile, with limited rationale. The company also provided a large (\$5 million) retention award to the CEO and other NEOs received significant one-time awards that are not performance based.</i>		
4	Amend Omnibus Stock Plan	For	For
	<i>Blended Rationale: Based on the Equity Plan Scorecard evaluation (EPSC), a vote FOR this proposal is warranted.</i>		
5	Adopt Simple Majority Vote	None	For
	<i>Blended Rationale: A vote FOR this proposal is warranted given that eliminating the supermajority vote requirements in the company's existing governing documents would enhance shareholder rights.</i>

	Meeting for GDR Holders		
1	Open Meeting

3.A	Approve Remuneration Report	For	Against
	<i>Blended Rationale: A vote AGAINST is warranted because:- The board used discretionary powers to upward adjust the STI by 20 percent without a compelling rationale;- The board decided to award an additional RUB 30 million (USD 394,000) award under the LTI also without a compelling rationale;- The remuneration for the supervisory board chairman is excessive compared to market standards.</i>

6	Amend Remuneration Policy for Management Board	For	Against
	<i>Blended Rationale: A vote AGAINST is warranted. Although we recognize the board proposed an LTIP scheme without raising concerns and is partially measuring ESG with concretely disclosed targets, we continue to raise concern regarding the elements that also raised concern last year:- The board maintains the discretion to adjust the STI outcomes, whereas we have questioned the used of this discretion where the company is not providing adequate explanations;- The legacy agreements with the CEO remain in place and are part of the policy ensuring a guaranteed total pay package of USD 4 million, de facto guaranteeing variable remuneration, which is considered to add risk to pay for failure.</i>

Proposal Number	Proposal Text	Mgmt Rec	Vote Instruction
1.2	Elect Director Timothy I. Maudlin	For	Withhold
<i>Blended Rationale: WITHHOLD votes are warranted for incumbent director nominees Timothy Maudlin and Eileen Schloss given the board's failure to remove, or subject to a sunset requirement, the supermajority vote requirement to enact certain changes to the governing documents and the classified board, each of which adversely impacts shareholder rights; and given the lengthy sunset period for the dual-class capital structure.</i>			
1.3	Elect Director Eileen M. Schloss	For	Withhold

2	Ratify Deloitte & Touche LLP as Auditors	For	For
3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<i>Blended Rationale: A vote AGAINST this proposal is warranted. The incoming CEO received a sizable grant of time-based stock options, valued by the company at \$19.7 million. While annual incentives are based on an objective measure and were capped at target for 2020, the performance metric changed in November. Annual equity grants lack performance-vesting conditions. In addition, two executives received special retention awards that are similarly subject to time-based vesting only.</i>

Blended Rationale: Following low support for this proposal last year, the committee demonstrated adequate responsiveness by disclosing shareholder engagement and feedback as well as certain improvements to the pay program. These included improved disclosure around operational goals as well as a redesigned STI program for FY21. While in FY20 there continued to be goal rigor concerns surrounding STI goals, it appears that this will be addressed by the redesigned STI program for FY21. Nevertheless, there is ongoing concern around the CEO's relatively high target and maximum payout opportunities under the bonus program. In addition, half of the CEO's annual PSU awards continue to target merely median performance, with no disclosed vesting cap for negative TSR. There are additional concerns regarding the pay magnitude and structure of compensation arrangements approved for Patrick Gelsinger, who was appointed CEO in 2021. It is estimated that his equity awards will be valued at approximately \$110 million. While \$50 million of Gelsinger's equity awards are to cover forfeited pay from his previous employer, and a portion of the grants are performance-conditioned, there is no indication that these awards are intended to cover multiple years of future equity grants, despite a very large award value. Further, the design of certain awards may reward for temporary peaks in share price performance. In light of these concerns, a vote AGAINST this proposal is warranted.

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For
<i>Blended Rationale: A vote AGAINST this proposal is warranted. While the company demonstrated adequate responsiveness to last year's low support for say-on-pay, new and continuing pay-for-performance concerns have been identified for the year in review. Notwithstanding some positive disclosure improvements, and an increase in performance share weighting, key disclosure remains incomplete and there are still concerns raised regarding the impact of committee discretion in ultimately determining incentive payouts. New disclosure of quantified category scores under the performance scorecard provides some additional insight into performance results; however, disclosure remains lacking in key aspects. Specifically, the proxy does not disclose target goals, per-metric weightings, nor achieved results alongside each metric, which inhibits investors' ability to assess the linkage between pay and performance. In addition, the committee provided the former CFO with a full incentive for 2020, even though he transitioned to an advisory role in August, and accelerated vesting of equity awards in connection with his subsequent retirement.</i>

3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<i>Blended Rationale: A vote AGAINST this proposal is warranted. The committee demonstrated insufficient responsiveness to investors' concerns following a low say-on-pay vote result. Meanwhile, certain NEOs received outsized base salaries in FY20, and while Goldstein's salary recently decreased, all NEOs' FY21 salaries remain sizable. Although annual incentives were unearned in FY20, it is concerning that the committee did not lower payout opportunities when the target was again set below prior-year performance. The company continues to provide excessive perquisites, and recent employment agreements provide for tax gross-ups on certain NEOs' perquisites.</i>

3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against

Blended Rationale: A vote AGAINST this proposal is warranted. Following last year's low say-on-pay vote, the compensation committee engaged with shareholders but did not provide their specific feedback nor make changes to the compensation program to address shareholder concerns following the vote. While the proxy pointed to program changes made prior to the 2020 annual meeting, no additional changes were disclosed following the most recent low vote result. Accordingly, the committee has not sufficiently disclosed nor addressed investor concerns that led a portion of shareholders to vote against the most recent proposal.

<i>Blended Rationale: Votes AGAINST incumbent Nominating Committee members Andrew Harrison, Emma Lloyd, John Martin, Joern Rausing and Julie Southern are warranted for lack of gender diversity on the board. Concerns are raised with respect to the re-appointment of Joern Rausing because:- He is not considered independent due to his extended tenure and significant shareholding, and the overall level of independent representation on the Board is below the level recommended by the UK Code of Corporate Governance.- However, the overall composition of the Board does not raise significant concerns, consisting of a significant number of independent NEDs and led by a new Board Chair who was independent upon appointment and the composition of key subcommittees is considered to be in line with the recommendations of the UK Code.</i>

<i>Blended Rationale: Votes AGAINST incumbent Nominating Committee members Andrew Harrison, Emma Lloyd, John Martin, Joern Rausing and Julie Southern are warranted for lack of gender diversity on the board. A vote AGAINST Andrew Harrison is further warranted:- He is the Chair of the Remuneration Committee, and there are ongoing concerns around the Company's approach to remuneration and lack of responsiveness to significant dissenting shareholder votes.</i>

6	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
	<i>Blended Rationale: A vote AGAINST this proposal is warranted. Significant concerns are raised regarding the CEO's mega stock award. While the award is entirely performance-based and a portion of the realized value will be shared with relatively lower-paid employees, there is no sustainment period for the stock price goals and the goals are not commensurately rigorous given the long performance measurement period and award size. Moreover, the award is subject to single-trigger vesting in the event of a change-in-control, and the CEO is eligible to receive cash dividends on the unvested portion of the award. Also, the award magnitude is excessive, even when annualized on a 10-year basis vesting period and using the company's valuation. In addition, although guided by performance assessments, the annual bonuses are ultimately discretionary, and FY20 payouts were relatively large. Further, other NEOs' FY20 long-term equity awards are entirely time-vested and large in magnitude. Lastly, the proxy does not clearly disclose whether NEOs, including the CEO, will receive additional equity awards during the vesting period of their FY20 equity awards.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against

Blended Rationale: A vote AGAINST this proposal is warranted. The above-target STI payouts were based on rigorous financial goals and aligned with strong TSR performance. Additionally, although only a quarter of the FY20 annual-cycle equity awards were performance-based, the FY21 equity awards are expected to be half performance-based. However, NEOs' large one-time equity awards intended to cover a multi-year period raise significant concern. Although more than half of the awards are performance-based with multi-year rigorous goals, the proxy does not clearly define the length of the "multi-year" period, and such large awards can limit the committee's ability to adjust pay based on performance. Further concerns are also raised regarding the one-year performance measurement period in FY20 LTI awards and relatively high CEO base salary.

3	Ratify Ernst & Young LLP as Auditors	For	For
4	Reduce Ownership Threshold for Shareholders to Call Special Meeting	Against	For

Blended Rationale: A vote FOR this proposal is warranted as lowering the ownership threshold for shareholders to call a special meeting from 25 percent to 10 percent would enhance shareholders' rights.

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<i>Blended Rationale: A vote AGAINST this proposal is warranted. Some concern was raised regarding the CEO's somewhat high base salary and annual bonus target, and the use of common goals for the PSUs awarded for different performance years. However, the annual bonus program is primarily based on clearly disclosed clinical goals, and half of the equity awards are delivered in PSUs that vest upon objective achievements. Close shareholder monitoring is warranted with respect to pay setting decisions. Although a quantitative pay-for-performance misalignment was sufficiently mitigated for the year in review, concerns remain surrounding the separation payments and vesting continuation of equity awards for former President Greene in connection with his voluntary resignation. Many investors generally view severance-like payments for voluntary resignations as problematic.</i>

	<i>Blended Rationale: A vote AGAINST this proposal is warranted. Pandemic-related alterations to the annual incentive plan and particularly the FY18-20 long-term incentive awards raise significant concerns. Discretionary modifications to exclude results in certain months from performance calculations increased payouts for both incentive programs to above target; closing-cycle PSUs already would have vested above target without the modification. While the committee granted the incremental equity value in time-based RSUs and implemented a cap at 275 percent of target for the PSUs (which results in a marginally lower incremental value than the \$23 million reported for the CEO), no reduction was made to target STI or LTI payout opportunities in light of the exclusion of certain months from the performance periods. Sustainability Advisory Services considers the modification of previously granted long-term incentives to be counter to a pay-for-performance philosophy.</i>

1	Elect Yves Gerster as Chairman of Meeting	For	For
2.1	Accept Financial Statements and Statutory Reports	For	For
2.2	Approve Remuneration Report (Non-Binding)	For	Against
<i>Blended Rationale: A vote AGAINST the remuneration report is warranted because:- Dufry AG has granted special bonuses that can be considered excessive in light of the company's performance during the period under review. Moreover, these awards do not seem to be based on any performance conditions.- The company changed performance criteria for the STI and replaced financial indicators with the turnover rate and a minimum guaranteed amount of sales. Despite the extraordinary circumstances during FY 2020, to some shareholders this might not be sufficiently challenging.</i>

4	Approve Remuneration Policy	For	Against
	<i>Blended Rationale: A vote AGAINST is warranted, because:- The company does not provide caps and award levels regarding the variable remuneration of the executives, which is not in line with best market practices; and- The policy explicitly allows for one-off extraordinary awards without providing a further framework or cap.</i>		
5	Approve Remuneration Report	For	Against
	<i>Blended Rationale: A vote AGAINST is warranted, based on:- The overall level of disclosure is considered insufficient and below market practice; and- The company failed to provide insight into the performance metrics targets, and award levels of the short-term and long-term incentive plans. Moreover, although the levels of achievement have been disclosed regarding the STI award plan, no further explanation on how they were assessed was provided, making it hard to assess pay for performance. - The company failed to disclose the CEO pay ratio whereas this is a legal requirement in Belgium.</i>

	<i>Blended Rationale: While PPL has taken positive steps to address climate change, such as making a commitment to reduce emissions by 80 percent by 2050 and investing in new technologies to enhance emissions reduction, the company could take additional steps that would be constructive to address climate change. Although the company discusses intention to retire its coal power plants, the company has not disclosed a targeted timeline for this transition. Furthermore, the lack of net-zero 2050 targets signifies a lack of effective oversight and management of climate-related risks. As such, support for board chair Craig Rogerson is not warranted.</i>

Proposal Number	Proposal Text	Mgmt Rec	Vote Instruction
2	Amend Omnibus Stock Plan	For	For
3	Ratify PricewaterhouseCoopers LLP as Auditor	For	For
4	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against

Blended Rationale: A vote AGAINST this proposal is warranted. Incentive programs are primarily based on objective performance measures and a majority of the regular annual equity grant is performance-based. However, significant concern is raised regarding the modification of CEO Doherty's closing cycle performance shares. In light of disruption to the company by the global pandemic, and to encourage his retention, half of the performance shares were converted to time-based shares while the performance period for the remaining shares was extended into 2022. Prior to the modification, the performance shares were tracking to be unearned. Mid-cycle adjustments to performance equity grants are generally considered by many investors to be problematic, particularly when the shares would have otherwise been forfeited.

3	Amend Bylaws to Add Federal Forum Selection Provision	For	For
	<i>Blended Rationale: A vote FOR this proposal is warranted, as requiring federal securities litigation to be brought in federal court has the potential to reduce the company's litigation costs without unduly burdening would-be plaintiffs. Additionally, the company has disclosed that recent stockholder derivative actions in several states have caused substantial costs and distractions, which gives merit to the idea that the company and its shareholders could benefit from the Delaware Court of Chancery being designated as the exclusive forum for state corporate law matters.</i>		
4	Amend Qualified Employee Stock Purchase Plan	For	For
	<i>Blended Rationale: A vote FOR this proposal is warranted given that:* The purchase price is reasonable;* The shares reserved is relatively conservative; and* The offering period is within the limits prescribed by Section 423 of the Internal Revenue Code.</i>		
5	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For
	<i>Blended Rationale: A vote FOR this proposal is warranted as CEO pay and company performance are reasonably aligned at this time. While the compensation committee made COVID related mid-year adjustments to the annual incentive, resulting in above target payouts when no payouts would have otherwise been earned, the proxy adequately discloses the rationale for this adjustment, and payout opportunities were reduced by 50 percent. Additionally, the majority of equity awards are conditioned on multi-year stock price performance.</i>

9	Authorize Share Repurchase Program and Reissuance or Cancellation of Repurchased Shares	For	For
10	Approve Remuneration Policy	For	Against
<i>Blended Rationale: A vote AGAINST this resolution is warranted because- Total annual remuneration is capped at EUR 15 million which can be considered excessive for a company of CompuGroup Medical SE & Co. KGaA's size.- No cap has been provided for the LTI which is a breach of market best practice as it gives the supervisory board a high degree of discretion, blurring the lines between pay and performance.- The policy does not implement any malus or clawback provisions for the LTI and thus deviates from market best practice.</i>

	<i>Blended Rationale: A vote FOR the proposal is warranted, as pay and performance appear to be reasonably aligned at this time. The company was adequately responsive to shareholders after a failed say-on-pay vote result in 2020. The annual bonus was based entirely on pre-set financial metrics, and no bonus paid out when goals were unmet. A majority of the LTI grant was made in performance-conditioned equity, and the company will implement a multi-year performance period beginning in 2021, in response to shareholder feedback.</i>

2	Ratify KPMG LLP as Auditor	For	For
3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against

Blended Rationale: A vote AGAINST this proposal is warranted. While the sizable year-over-year increase in CEO pay can be partially explained by a maximum-level long-term cash payout from 2018, the company also increased the target opportunity of the CEO's long-term incentives when introducing performance equity. When increasing the proportion of performance-based pay, investors generally prefer for additional performance-based components to be incorporated into the existing program, not to be additive in value. Further, performance-based long-term incentives have been earned at maximum in each of the last four cycles and above target in nine out of the last ten cycles. The most recent award for FY18-20 was earned at maximum despite negative performance over the period. Notwithstanding this regular outperformance, the company has not adjusted targets and the FY20 award continues to target merely median-level performance.

3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<i>Blended Rationale: A vote AGAINST this proposal is warranted. COVID-related modifications of previously granted long-term performance equity raise significant concerns. The majority of the 2019 and 2020 PSU metrics are now based on a single year's performance, and one-third of the 2019 award was already deemed earned based on 2019 results. Further, PSUs granted in 2018 were unearned based on actual performance; however, the committee modified these grants to be earned above target. The modification of previously granted long-term incentive awards (particularly those granted before 2020) is not considered to be an appropriate reaction to challenges posed by the pandemic. In addition, the company provided separation benefits to an executive whose departure is not clearly disclosed as an involuntary termination without cause or voluntary resignation for good reason that would entitle the executive to severance payments under an existing agreement. The payment of severance to an executive who did not undergo a qualifying termination is a problematic pay practice.</i>

Some shareholder concern is warranted given the change in both the annual and long-term incentive plans from the use of the company's usual objective financial metric to a more subjective assessment of the achievement of key business priorities. The concern is partly mitigated by the sufficient disclosure regarding the rationale for this change. Additionally, although pay and performance are reasonably aligned at this time, the company continues to use the same one-year metric under both annual and long-term incentive plans, essentially awarding executives twice for the same performance.</i>

7	Approve Remuneration Policy	For	Against
<i>Blended Rationale: A vote AGAINST the proposed remuneration policy is warranted because:- The introduction of the additional 'variable incentive plan' ZOP is a guaranteed quarterly grant in either phantom stock or stock appreciation rights, without performance criteria attached.- The ZOP is subject to a vesting period below three years and not subject to any performance criteria.- The LTIP is subject to an ESG modifier, without clear and concrete disclosure how this modifier is measured and what concrete KPIs are assessed.- The overall design of the policy is significantly steered towards share price performance to achieve value, which some shareholders might consider as too aggressive.- The board on various levels has discretion or possibility to derogate from the policy which is considered to be beyond the scope of the SRD II provision for derogation whereas the policy does not sufficiently guarantee that discretionary remuneration is avoided.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For
<i>Blended Rationale: Following relatively low say-on-pay support last year, the company disclosed shareholder engagement details and feedback, enhanced disclosure of incentive metrics, and noted that the CEO's 2021 equity award magnitude is significantly lower than in 2019. It also applied performance conditions on a portion of NEOs' 2021 LTI awards, although these awards remain primarily stock-option based. Given the breadth of outreach, disclosure of feedback, and positive changes, the committee has demonstrated adequate responsiveness. Pay-for-performance concerns are also sufficiently mitigated, based on the significant decline in CEO pay for 2020, the improvements in disclosure, and the inclusion of PSUs in the 2021 LTI program. That said, investors may expect the proportion of performance-vesting equity to continue to increase. However, the company paid severance to an NEO after he resigned to pursue another opportunity. The payment of severance to an executive who did not clearly undergo a qualifying termination is a problematic pay practice. Therefore, a vote AGAINST this proposal is warranted.</i>

	<i>Blended Rationale: A vote FOR this proposal is warranted. Following a failed say-on-pay vote result at last year's annual meeting, the company disclosed engagement efforts with investors, disclosed specific feedback, and made pay program changes to address their concerns. In addition, pay and performance are reasonably aligned at this time.</i>

	<i>Blended Rationale: A vote AGAINST this proposal is warranted. The committee demonstrated only limited responsiveness to last year's failed say-on-pay proposal. The company reached out to the majority of its shareholder base and materially improved disclosure of incentive programs, including providing annual incentive target goals and achievements, the threshold goal for PSU vesting, and additional information regarding the CEO's 2019 sign-on awards. While these disclosure improvements are meaningful, the company did not disclose any specific concerns that led investors to oppose last year's say-on-pay proposal, making it impossible to assess whether the company's pay program changes were sufficiently responsive to shareholders' expressed concerns.</i>

<i>Blended Rationale: A vote AGAINST this proposal is warranted. For the second consecutive year, an NEO received sizable severance without clear indication that the termination was involuntary and qualified under the severance program. Many investors view the payment of severance upon a voluntary termination to be problematic. Further, while other NEOs receive mostly performance-based equity, the new CEO's 2020 awards were entirely time-based, including the grant made when he was named interim CEO and the grant awarded after he was appointed to the position permanently. Both grants also vest after just one year.</i>

Blended Rationale: A vote AGAINST this proposal is warranted given that the company recently entered into new letter agreements with NEOs, which provide for excise tax gross-ups. Such provisions may lead to substantial increases in potential termination payments and are generally disfavored by investors. Accordingly, gross-ups are not the market norm and are considered to be a problematic pay practice.

<i>Blended Rationale: Following a failed 2020 say-on-pay vote, the company disclosed the details of its outreach and engagement efforts with shareholders, as well as specific feedback received. The company implemented positive changes to the pay program that address some of shareholders' feedback. However, a key issue surrounding outsized severance entitlements was not fully addressed. Specifically, the company paid outsized severance to the former COO upon his termination without cause, and the company maintains an agreement with CEO Kilroy that provides for an outsized severance entitlement. The concerns surrounding that legacy problematic feature are heightened in consideration of shareholders' recent feedback. Further, the board's statement that they "do not plan" to incorporate outsized severance entitlements into agreements going forward is not considered a firm commitment. Given these unaddressed issues, the company's responsiveness is considered to fall short of a robust response that is expected following a failed say-on-pay vote. Accordingly, a vote AGAINST this proposal is warranted.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For
<i>Blended Rationale: A vote FOR this proposal is warranted as pay and performance are reasonably aligned for the year in review. The company did not modify the performance metrics or goals for either the short- or long-term incentive programs, nor was discretion used to alter payouts due to the COVID-19 pandemic. Approximately half of equity award were performance-based, and the short-term cash incentive was based on pre-set financial goals.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For
	<i>Blended Rationale: A vote FOR this proposal is warranted as pay and performance are reasonably aligned for the year in review, and no problematic pay practices have been identified. Total pay increased during CEO Kempczinski's first full fiscal year in the position, following his promotion in November 2019, and the compensation program is sufficiently performance-conditioned. Annual incentives for 2020, and long-term incentives for the 2018-2020 performance period, were forfeited due to below-threshold performance; the company did not make COVID-related adjustments to those incentive programs.</i>

	<i>Blended Rationale: A vote FOR this proposal to ratify the auditor is warranted.</i>		
4	Report on Sugar and Public Health	Against	For
	<i>Blended Rationale: A vote FOR this proposal is warranted for the following reasons: * Additional disclosure would benefit shareholders by increasing transparency regarding the company's efforts to address the risks related the use of sugar; * Disclosure of the requested information would serve to provide greater assurance to shareholders that the firm's initiatives and practices sufficiently guard against potential financial, litigation and operational risks to the firm; and * Implementing the proposal should not be an unduly burdensome endeavor for the company to undertake.</i>		
5	Report on Antibiotics and Public Health Costs	Against	For
	<i>Blended Rationale: A vote FOR this proposal is warranted for the following reasons: * Disclosure of the requested information would enable shareholders to better assess the company's management of operational and reputational risks related to the use of antibiotics in its supply chain; and * Given McDonald's existing disclosure, it should not be unduly burdensome for the company to include the environmental and public health costs in its antibiotic use policies and disclosures.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<i>Blended Rationale: A vote AGAINST the proposal is warranted. Amid poor company performance due to the global pandemic, the company made multiple pay decisions in FY20 which increased the compensation for the CEO. First, the annual bonus program was replaced mid-year with a more pertinent performance metric. While the change itself was reasonable, payout was at the original target. The company also gave the CEO a discretionary cash bonus which, in combination with the annual bonus payout, resulted overall in a cash bonus for the year that would have exceeded his maximum bonus payout under the annual bonus program. Similar actions occurred in the LTI grant. Though the majority of the LTI grant is in performance-conditioned equity based on multi-year performance periods, the company made amendments to two closing-cycle grants, one of which (in February 2020) resulted in performance equity vesting at maximum, while the other shortened the performance period and resulted in equity vesting at 90 percent of target. Additionally, the CEO received an additional time-vesting RSU grant valued at \$6 million. The combination of each of the compensation committee's mid-year decisions insulated the CEO from poor company performance while shareholders lost considerable value and is not conducive to a pay-for-performance philosophy.</i>

<i>Blended Rationale: A vote AGAINST this proposal is warranted. While the right to act by written consent is a useful tool for shareholders and is generally considered good governance, the restrictions placed on this ability by the company under this proposal are too great for it to be considered a positive practice. Approval of this proposal could actually be detrimental to shareholder rights, if the board were to use the proposed written consent provisions as a weapon against future attempts to provide shareholders with a more meaningful way of taking action between shareholder meetings.</i>

<i>Blended Rationale: A vote AGAINST this resolution is warranted because concerns are raised with a number of policy elements- The restricted share plan allows for discretionary payments. Although the policy describes this is restricted to attracting and retaining individuals, this can be interpreted very widely without the policy being restrictive in use and an award cap is not clearly disclosed.- The policy provides a catalogue of performance metrics that apply to all variable components, but concrete KPIs and weightings for individual components are not specified; rather, this is at the discretion of the board.- The two long-term incentive plans have a three-year vesting period, which is less than the four years recommended by the German Corporate Governance Code. Blended Rationale: Following last year's failed say-on-pay vote, the company disclosed details of its engagement efforts and feedback received. The committee made positive changes that appear to address concerns, thereby demonstrating adequate responsiveness. However, disclosure around shareholder feedback was either vague or not clearly related to investor concerns, and this issue warrants continued monitoring. There are new and continuing pay-for-performance concerns. The annual program continues to incorporate a significant degree of discretion without disclosure of performance targets, target payout opportunities, or per-metric weightings. The absence of these key disclosures makes it difficult for investors to assess the linkage between pay and performance. In addition, the committee discretionarily increased a severance payment to one executive beyond the amount to which he was contractually entitled without any clear rationale disclosed in the proxy. In light of these concerns, a vote AGAINST this proposal is warranted.

<p><i>Blended Rationale: A vote FOR the remuneration policy applicable to corporate officers from Jan. 2021 until the 2021 GM (Item 8) is warranted but is not without concerns as the CEO and Vice-CEO employment contracts have not been canceled under this period while they have been appointed CEO and Vice-CEO since Dec. 17, 2020. A vote AGAINST the remuneration policy applicable to corporate officers after 2021 GM (Item 9) is warranted as:- The CEO base salary increases without compelling rationale;- Severance agreement for the CEO and Vice-CEO raise several concerns;- The Vice-CEO employment contract has not been canceled (only suspended);- The CEO non-compete agreement is guaranteed;- The post mandate LTIP treatment is not in line with market practices; and- The stringency of a criterion of the LTIP 2021 is not deemed sufficient;</i></p>

2	Ratify Ernst & Young LLP as Auditors	For	For
3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<i>Blended Rationale: A vote AGAINST this proposal is warranted. The compensation committee continues to utilize a significant amount of discretion in determining payouts under the annual incentives, and disclosures regarding achievements are somewhat lacking. In addition, long-term incentives were delivered entirely in time-vesting RSUs. Shareholders would benefit from improved disclosures around annual incentives and the introduction of performance-based equity in future awards.</i>

2	Ratify KPMG LLP as Auditors	For	For
3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For
<i>Blended Rationale: A vote AGAINST this proposal is warranted, in light of insufficient disclosure provided regarding separation arrangements made for former NEO Spiegelman. Pay-for-performance concerns are mitigated, although some concern is raised regarding the use of discretion in STI payouts, the financial portion of the payouts were based on pre-set goals, and the payouts were aligned with improved earnings. However, while the committee improved the vesting design of the performance shares year-over-year, non-GAAP income under the LTI program is measured annually and overlaps with the STI program, relative TSR targets merely median performance, and certain forward-looking goals were undisclosed. Nevertheless, equity awards are at least half performance-based with largely multi-year goals, and the CEO's equity awards are expected to decline in FY21. Close shareholder monitoring is warranted with respect to incentive pay outcomes.</i>

3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<i>Blended Rationale: A vote AGAINST this proposal is warranted. After a second consecutive low say-on-pay vote result, the company engaged with shareholders only regarding the amendments to the CEO's agreement, vaguely disclosed the feedback received, and only limited changes to the pay program appear to have been made in response to shareholder feedback. Additionally, the company continued to make sizable grants to co-CEO Plant. Although the COVID-related adjustments to the annual incentive program appear relatively reasonable, the company once again provided a special grant to Plant only one year after providing him with large equity and cash awards. Features of the grant are concerning, including a large portion of the award in time-vested equity and performance metrics that do not require sustained long-term outperformance. Furthermore, the company made an amendment to the award only two months after grant, providing additional shares and lowering the performance hurdles. Finally, the value of the award is large, even when annualized, with the company estimating his annualized pay to be at the 90th percent of the peer group. Finally, in addition to the equity grants, Plant's amended letter agreement provides for excessive severance upon a termination in connection with a change-in-control. Excessive severance provisions are a problematic pay practice.</i>

3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against

Blended Rationale: A vote AGAINST this proposal is warranted. Ongoing concerns remain regarding CEO Maffei's pay levels, which include sizable annual equity awards that are guaranteed through 2024 per his 2019 employment agreement. In addition to these ongoing concerns, Maffei's 2020 annual cash incentive opportunity allocable to the company exceeded the median total compensation of Sustainability Advisory Services-selected peer CEOs, and the majority of the award depended on individual performance. In addition, the CEO ultimately received an above-target STI payout following COVID-related revisions to the corporate goals. Meanwhile, three other NEOs were granted PSUs that were deemed at 100 percent of target based on individual performance against the annual STI goals and the CEO's subjective observation of their performance.

	<i>Blended Rationale: Significant risks to shareholders stemming from severe ESG controversies have been identified at the company, which reflects a failure by the board to proficiently guard against and manage material environmental, social and governance risks. Votes AGAINST CEO/Chair Jeffrey Bezos are warranted given that the CEO and chair of the board ultimately shoulders the most responsibility amongst all board members for failing to effectively supervise the management of risks to the company and its shareholders, and should therefore be held the most accountable for poor board oversight of ESG risk exposures at the firm. 3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
	<i>Blended Rationale: A vote AGAINST this proposal is warranted. While CEO pay is not excessive, compensation for other NEOs includes large grants of time-vesting restricted shares, and incentive programs lack objective performance metrics and quantified goals. Although magnitude concerns are mitigated to a certain degree by the company's strong performance, the subjective nature of the incentive program is nonetheless problematic.</i>

4	Approve Auditors' Special Report on Related-Party Transactions Mentioning the Absence of New Transactions	For	For
5	Approve Remuneration Policy of Corporate Officers	For	Against
<i>Blended Rationale: A vote AGAINST this remuneration policy is warranted as:- The uncommon process of company's capital association for the CEO leads to such pay magnitude that it triggers a general concern on pay quantum with respect to the peer group median. In this context the proposed base salary increase, though considered reasonable, can be questioned; and- Performance period for half of the award is not considered long-term oriented.</i>			
6	Approve Compensation of Charles Edelstenne, Chairman of the Board	For	For
7	Approve Compensation of Bernard Charles, Vice Chairman of the Board and CEO	For	Against
<i>Blended Rationale: A vote AGAINST this remuneration report is warranted as the following concerns are raised:- The level of disclosure on bonus remains low;- The alignment between performance and bonus outcome in connection with some quantitative criteria is unclear; and- Information on the performance achieved for LTIPs vested is low which is all the more problematic as the quantum is significant.</i>

3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For
	<i>Blended Rationale: A vote FOR the proposal is warranted. The compensation committee made reasonable amendments to annual bonuses, which remained based on pre-set objective metrics, and lowered payout opportunities. Further, the committee used discretion to decrease bonus payouts. In addition, although a concern is noted regarding target setting, the LTI program is half based on performance-conditioned equity, which utilizes a multi-year performance period.</i>

Blended Rationale: A vote FOR this proposal is warranted. This shareholder proposal includes a 10 percent ownership threshold which shareholders may view as a more reasonable threshold than the 25 percent threshold proposed by management. This proposal would also represent an enhancement to shareholder rights, as shareholders do not currently have the right to call special meetings.

3	Advisory Vote to Ratify Named Executive Officers' Compensation	Against	For

Blended Rationale: A vote FOR this proposal is warranted, with caution. While CEO Woods' pay significantly declined in FY20, disclosure and structural concerns regarding the incentive programs remain. Although the company describes performance accomplishments for FY20 and for the prior 10-year period, bonuses and equity awards remain heavily influenced by compensation committee discretion. While FY20 bonuses were forfeited after the company reported negative earnings for the year, the plan design potentially allows for sizable bonuses next year, if earnings growth begins to rebound. Further, though grants were smaller for FY20, equity awards do not carry performance vesting criteria. Nevertheless, for the year in review, the structural concerns were mitigated by the significant decline in CEO pay, including the forfeited bonuses and smaller awards, and the alignment between pay and performance for the year in review. However, noted concerns around discretion, disclosure, and program structure warrant continued close monitoring, particularly should pay and performance not remain closely aligned going forward.

Blended Rationale: A vote AGAINST this proposal is warranted as the company has justified its investments into operational efficiency and new technologies and the view that money spent on mitigating climate change is simply greenwashing is contrary to the views of a majority of institutional investors.

3	Amend Non-Employee Director Compensation Policy	For	Against
	<p><i>Blended Rationale: Support for this proposal is not warranted. The proposed update to the director pay program would provide personal security services to the non-employee directors ("NEDs") and related tax gross-ups from time to time, without impacting established NED compensation limits. While the company provides a rationale for providing this perquisite to board members, some investors may view the rationale to be overly broad and insufficiently linked to Facebook's directors in particular so as to warrant a benefit that is not in line with market practice. Further, the company does not provide sufficient details on the potential scope of the associated costs; there is no disclosure of an annual limit or even an estimation on the potential costs of the personal security fees and related tax gross-ups. The proxy does not define "personal security services" and so the extent of such services remains unclear. The proxy also does not disclose whether an independent party assessed the potential costs and the risk factors that may necessitate the unusual director benefit. In addition, Sustainability Advisory Services notes that the company has historically provided sizable security related perquisites to the CEO and NEO Sandberg, at a magnitude which is considered extraordinary, including for the year in review. While the security concerns of the NEDs as presented in the proxy are acknowledged, given the proposal's limited disclosure, a lack of shareholder friendly guardrails such as caps, reasonable estimations, or third-party assessments, support for this proposal is not warranted.</i></p>		
4	Approve Recapitalization Plan for all Stock to Have One-vote per Share	Against	For
	<p><i>Blended Rationale: A vote FOR this proposal is warranted as it would convey to the board nonaffiliated shareholders' preference for a capital structure in which the levels of economic ownership and voting power are aligned.</i></p>		
5	Require Independent Board Chair	Against	For
	<p><i>Blended Rationale: A vote FOR this proposal is warranted given concerns with the board's governance and the appointment of a non-independent director (per Sustainability Advisory Services classifications) to serve as lead director. Furthermore, the FTC entered into a settlement agreement with Facebook whereby the company has agreed to pay a \$5 billion penalty and to significantly enhance its practices and processes for privacy compliance and oversight. The recent data privacy incidents and subsequent controversies have tarnished Facebook's reputation and put shareholder value at risk. These considerations suggest that shareholders would benefit from the most robust form of independent board oversight, in the form of an independent board chair.</i></p>		
6	Report on Online Child Sexual Exploitation	Against	For
	<p><i>Blended Rationale: A vote FOR this proposal is warranted, as additional information on risks related to potential sexual exploitation of children through the company's platforms would give shareholders more information on how well the company is managing related risks.</i></p>		
7	Require Independent Director Nominee with Human and/or Civil Rights Experience	Against	Against
	<p><i>Blended Rationale: A vote AGAINST this resolution is warranted as the company has recently undergone an independent human rights audit and is acting on the recommendations, including appointing human rights experts to leadership positions.</i></p>		
8	Report on Platform Misuse	Against	For
	<p><i>Blended Rationale: A vote FOR this proposal is warranted, because an assessment from the board of how to reduce the platform's amplification of false and divisive information could help provide shareholders with valuable information on how well the company is assessing and mitigating content-related controversies.</i></p>		
9	Amend Certificate of Incorporation to Become a Public Benefit Corporation	Against	Against
	<p><i>Blended Rationale: A vote AGAINST this proposal is warranted, as the company's shortcomings in acting in the broader interests of its stakeholders is more likely a result of its dual-capital structure, which leaves the management team unaccountable to shareholders, rather than its structure as a conventional corporation. Furthermore, there are many unknowns associated with the PBC structure. The request for the board to amend the company's Certificate of Incorporation to become a Public Benefit Corporation does not appear to be necessary.</i></p>

Proposal Number	Proposal Text	Mgmt Rec	Vote Instruction
1.1	Elect Director Peggy Alford	For	For
1.2	Elect Director Marc L. Andreessen	For	Withhold
<p><i>Blended Rationale: WITHHOLD votes are warranted for incumbent compensation committee members Andrew Houston, Marc Andreessen, and Peter Thiel, in the absence of a say-on-pay proposal on the ballot, due to unmitigated concerns with respect to executive pay.</i></p>			
1.3	Elect Director Andrew W. Houston	For	Withhold
<p><i>Blended Rationale: WITHHOLD votes are warranted for incumbent compensation committee members Andrew Houston, Marc Andreessen, and Peter Thiel, in the absence of a say-on-pay proposal on the ballot, due to unmitigated concerns with respect to executive pay.</i></p>

1.8	Elect Director Tracey T. Travis	For	For
1.9	Elect Director Mark Zuckerberg	For	Withhold
<p><i>Blended Rationale: Significant risks to shareholders stemming from severe ESG controversies have been identified at the company, which reflects a failure by the board to proficiently guard against and manage material environmental, social and governance risks. WITHHOLD votes for CEO/Chair Mark Zuckerberg are warranted given that the CEO and chair of the board ultimately shoulders the most responsibility amongst all board members for failing to effectively supervise the management of risks to the company and its shareholders, and should therefore be held the most accountable for poor board oversight of ESG risk exposures at the firm.</i></p>			
2	Ratify Ernst & Young LLP as Auditors	For	For
3	Amend Non-Employee Director Compensation Policy	For	Against
<p><i>Blended Rationale: A vote AGAINST this proposal is warranted. The company's rationale falls short of the level of specificity necessary for shareholders to assess the reasonableness of the amendment. Further, the company does not provide sufficient details on the potential scope of the associated costs; there is no disclosure of an annual limit or even an estimation on the potential costs of the personal security fees and related tax gross-ups. Further, the proxy does not disclose whether an independent party assessed the need for the unusual director benefit.</i></p>			
4	Approve Recapitalization Plan for all Stock to Have One-vote per Share	Against	For
<p><i>Blended Rationale: A vote FOR this proposal is warranted as it would convey to the board nonaffiliated shareholders' preference for a capital structure in which the levels of economic ownership and voting power are aligned.</i></p>

5	Require Independent Board Chair	Against	For
<i>Blended Rationale: A vote FOR this proposal is warranted given concerns with the board's governance and the appointment of a non-independent director (per Sustainability Advisory Services classifications) to serve as lead director. Furthermore, the FTC entered into a settlement agreement with Facebook whereby the company has agreed to pay a \$5 billion penalty and to significantly enhance its practices and processes for privacy compliance and oversight. The recent data privacy incidents and subsequent controversies have tarnished Facebook's reputation and put shareholder value at risk. These considerations suggest that shareholders would benefit from the most robust form of independent board oversight, in the form of an independent board chair.</i>			
6	Report on Online Child Sexual Exploitation	Against	For
<i>Blended Rationale: A vote FOR this proposal is warranted, as additional information on risks related to potential sexual exploitation of children through the company's platforms would give shareholders more information on how well the company is managing related risks.</i>			
7	Require Independent Director Nominee with Human and/or Civil Rights Experience	Against	Against
8	Report on Platform Misuse	Against	For
<i>Blended Rationale: A vote FOR this proposal is warranted, because an assessment from the board of how to reduce the platform's amplification of false and divisive information could help provide shareholders with valuable information on how well the company is assessing and mitigating content-related controversies.</i>

6.5	Reelect Stefan Smalla to the Supervisory Board	For	For
7	Amend Corporate Purpose	For	For
8	Approve Remuneration Policy	For	Against

Blended Rationale: A vote AGAINST this resolution is warranted because:- The proposed remuneration policy contains scope for discretionary adjustments, including adjustments to make targets less stringent under the LTI.- The STI and LTI payouts are not subject to explicit caps.- There are no specific performance criteria applicable to the short-term incentive.- The caps on total remuneration are excessive by market standards considering the company's size.- The proposed remuneration policy contains significant scope for discretionary payments via special bonuses. Such payments represent a serious breach of good remuneration practices and falls short of market best practice standards.

3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For
<i>Blended Rationale: A vote FOR this proposal is warranted as CEO pay and company performance are reasonably aligned at this time. While some shareholder concern may be warranted regarding the adjustments made to the annual and long-term incentive performance targets, annual incentives were earned below target and maximum payouts for the PSU grants were reduced. Additionally, the company provides an adequate level of disclosure regarding its rationale for these adjustments and the majority of pay remains conditioned on objective financial performance.</i>

3	Amend Omnibus Stock Plan	For	For
<i>Blended Rationale: Based on evaluation of the estimated cost, plan features, and grant practices using the Equity Plan Scorecard (EPSC), a vote AGAINST this proposal is warranted due to the following key factors:- The three-year average burn rate is excessive;- The disclosure of change-in-control ("CIC") vesting treatment is incomplete (or is otherwise considered discretionary); and- The plan allows broad discretion to accelerate vesting.</i>
