	<i>Blended Rationale: A vote FOR the proposed capital reduction and ratification of share repurchase program is warranted in the absence of concerns over the terms of transactions and because it allows the company to mitigate the dilutive effect of scrip dividends on earning per share.</i>		
13	Advisory Vote on Remuneration Report	For	For
	<i>Blended Rationale: A vote FOR this item is warranted, considering the board's responsiveness to some shareholder concerns following last year's dissent (c 24 percent of voting shares opposed the company's 2021 remuneration report), acceptable remuneration arrangements with the new CEO, and a lack of misalignment between executive pay and shareholder return. However, this is not without the following concerns: * Executive pay level remains a cause of concern: the executive chairman's 202 total remuneration of EUR 13.06 million is 5.2x times the median of a group of European companies and is therefore considered excessive. In this regard, despite the increase in share price, the board does not adjust the number of performance-based share awards, which mechanically increases LTI opportunity and has contributed to excessive pay level. * The board does not seem to have pro-rated the new CEO's 2022 salary (he started his CEO office in Oct. 25, 2022).</i>		
14	Approve Restricted Stock Plan	For	For
	<i>Blended Rationale: A vote FOR this item is warranted because the terms of the proposed equity plan are not problematic. 9	Approve Remuneration of Company's Management	For	Against

Blended Rationale: The company has provided reasonable disclosure of its remuneration practices, in accordance with the requirements of the Brazilian Securities Regulator, including the total compensation of its highest-paid executive. However, this is the second consecutive year that the company has proposed material increases to its global remuneration cap. Although the proposed increase appears to be largely based on equity compensation, and the company's performance has been sound in the most recent fiscal years, the underlying equity plan allows for discounted exercise prices, in the absence of publicly-stated performance conditions, and vesting cycle can be set at board discretion, thus raising concerns regarding the long-term alignment between the beneficiaries and shareholders. As such, an AGAINST vote recommendation is warranted for this request at this time.

<p><i>Blended Rationale: We consider a vote in favour of this resolution to be warranted. For 2023, our guideline policy now recommends a vote against the incumbent nominating committee chair or incumbent members of the nominating committee in Continental Europe if 40% or less of the board is gender diverse. We support the spirit of this policy, and continue to review board composition on a case-by-case basis. However, we also take into account the quality of the board members and the fact diversity is currently at 31%. We will seek to continue to engage through the course of the year.</i></p>

4	Do You Wish to Adopt Cumulative Voting for the Election of the Members of the Board of Directors, Under the Terms of Article 141 of the Brazilian Corporate Law?	Against	Abstain
<p><i>Blended Rationale: Under these items, the company presents shareholders with the option to request cumulative voting for the election of directors under the terms of Article 141 of the Brazilian Corporate Law, in accordance with the rules of the remote voting card issued by the Brazilian Securities Regulator (CVM), and mandatory for all publicly-traded Brazilian companies. An ABSTAIN vote recommendation is warranted for Item 4 in the absence of publicly-available information, disclosed in a timely manner, regarding a cumulative voting request presented by shareholders. In addition, as Vale is a dispersed-capital company, in the event cumulative voting is adopted, which can be requested by holders of 5 percent of the company's up to 48 hours prior to the meeting, vote recommendations are as follows: - Items 6, 7.2, 7.4, 7.6, 7.7, 7.9, 7.10, 7.11, and 7.12: FOR the equal distribution of votes in the event of a cumulative election, indicating the intention to equal distribute the votes and support the same candidates supported under the individual elections (as further discussed under Items 5.2-5.12); - Item 7.5: AGAINST the board chair during the fiscal year under review, who is also nominated as an independent incumbent candidate, due to poor board oversight of ESG risk exposures at the firm (further discussed under 5.5); - Item 7.1: Cautionary support FOR the proposed incumbent non-independent nominee, who is also nominated as the new non-independent chair of the company (replacing the previous independent chair, as further discussed under Item 8); - Items 7.3 and 7.6: AGAINST nominees Fernando Jorge Buso Gomes and Luis Henrique Cals de Beauchair Guimaraes due to governance and overboarding concerns, respectively; and - Item 7.8: AGAINST proposed independent incumbent nominee, who is also nominated as board vice-chair of the company (further discussed under Item 9) because the company is not aligned with investor expectations on Net Zero by 2050 targets and commitments (further discussed under 5.8).</i></p>

5	Approve the Increase in Maximum Aggregate Remuneration of Non-Executive Directors	None	For
<p><i>Blended Rationale: A vote FOR this resolution is warranted because there is enough head room under the current cap to accommodate only one additional board member (based on FY22 director fees). Concerns are raised for the following: - Chair and director fees in FY22 are already high relative to market cap and index peers, - Board and committee fees have increased effective 1 January 2023.</i></p>

<i>Blended Rationale: WITHHOLD votes are warranted for Sharen Turney and Julius Caesar (J.C.) Watts, Jr. due to poor responsiveness following multiple years of failed say-on-pay vote results. 3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<i>Blended Rationale: A vote AGAINST this proposal is warranted. Although pay and performance are reasonably aligned for the year under review, the compensation committee has not demonstrated sufficient responsiveness to last year's failed say-on-pay vote. After three consecutive failed say-on-pay votes, the compensation committee does not appear to have taken meaningful action to address shareholders' concerns.</i>

3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
	<p><i>Blended Rationale: The increase in CEO pay is primarily driven by a one-time equity award valued by the company at \$15 million. On the positive side, the award requires significant TSR appreciation to vest. However, the sustainment requirement period is relatively short and may reward short-term spikes in share price without long-term sustained share price appreciation. Additionally, although annual LTI awards are predominantly based on rigorous, clearly disclosed goals, there are significant concerns regarding STI program structure and disclosure. The majority of the corporate component is based on goals for which quantified targets are not disclosed. The proxy also does not disclose threshold or maximum goals for any metrics, individual metric weightings, nor sufficient details around the CEO's individual performance component (which was achieved at maximum). In light of the concerns noted above, the quantitative pay-for-performance misalignment is not mitigated and a vote AGAINST this proposal is warranted.</i></p>		
4	Advisory Vote on Say on Pay Frequency	One Year	One Year
5	Submit Severance Agreement (Change-in-Control) to Shareholder Vote	Against	For
	<p><i>Blended Rationale: A vote FOR this proposal is warranted. The board's severance plan document establishes a reasonable limit on cash severance. However, the proxy does not disclose a policy or requirement that payments in excess of amounts provided under the plan are subject to shareholder approval. Without such a requirement, shareholders do not have adequate assurances that the company's current practice safeguards against excessive severance payments.</i></p>		
6	Report on Risks Related to Fulfilling Information Requests for Enforcing Laws Criminalizing Abortion Access	Against	For
	<p><i>Blended Rationale: A vote FOR this proposal is warranted, as additional disclosure on the potential risks and costs associated with the fulfilment of information requests for the enforcement of state laws related to reproductive rights would allow shareholders to assess how the company is managing such risks.</i></p>

<p><i>Blended Rationale: We consider a vote in favour at this company in this case is warranted. However, we also take into account the recent performance of the company which has delivered top quartile shareholder value, the quality of the management team, and the sector in which the company operates, to provide additional context to our considerations. In relation to quantum, we consider the benchmarks for Argenx are US biopharma companies rather than a broad base of European stocks, we also believe that in this case the retention of management is critical and setting performance conditions other than a share price related metric at this point in the companies cycle may be counter-productive in terms of alignment. While we would welcome additional disclosure relating to elements of the structure, in particular around the STIP pay-out amounts and the weights and performance targets, we do also note some improvement in disclosure year on year.</i></p>

1.11	Elect Director Loreto Silva	For	For
1.12	Elect Director John L. Thornton	For	Withhold

Blended Rationale: Significant risks to shareholders stemming from severe ESG controversies have been identified at the company, which reflects a failure by the board to proficiently guard against and manage material environmental, social and governance risks. Vote WITHHOLD for board chair John Thornton given that the chair of the board ultimately shoulders the most responsibility amongst all board members for failing to effectively supervise the management of risks to the company and its shareholders, and should therefore be held the most accountable for poor board oversight of ESG risk exposures at the firm.

3	SP 1: Adopt an Absolute Greenhouse Gas Reduction Target	Against	For
	<i>Blended Rationale: A vote FOR this proposal is warranted, as the adoption of an absolute GHG reduction target would better inform shareholders to the specific policies, practices, or systems the company may implement to manage its GHG emissions. Creating an absolute target would also allow shareholders to better evaluate the company's related emissions performance and the effectiveness of any mitigation measures the company may implement to manage these activities.</i>		
4	SP 2: Report on the Impact of the Energy Transition on Asset Retirement Obligations	Against	For
	<i>Blended Rationale: A vote FOR this proposal is warranted because shareholders would benefit from an audited report on the impact of the IEA's Net Zero Emissions by 2050 scenario as it would give the shareholders a clear insight regarding the company's strategy to reach its net zero commitment, particularly as it related to its decarbonization strategy and capital allocation alignment.</i>

3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<i>Blended Rationale: A vote AGAINST this proposal is warranted. The former CEO and now current executive chairman received a significant front-loaded option grant intended to cover four years of equity awards. The magnitude of the executive chair grant is of particular concern as it alone is more than double total pay of the new CEO, who also received a front-loaded option grant, and when annualized is greater than total CEO pay at similar peer companies, which can be costly to shareholders in terms of overall compensation expense. Further, shareholders generally expect that a large grant such as this be primarily based on performance criteria.</i>

Proposal Number	Proposal Text	Mgmt Rec	Vote Instruction
1	Accept Financial Statements and Statutory Reports	For	For
2	Approve Remuneration Report	For	Against
<p><i>Blended Rationale: A vote AGAINST this item is warranted because: - A new Tranche of awards was granted under the Company's Value Creation Plan (VCP) with reduced performance targets than existing tranches. The awards are of particular note, as they took place following the Company's June 2022 capital raise. - The Executive Directors received bonuses of between c. 54-58% for FY2022, despite there being questions surrounding the financial nature of some of the Company's bonus metrics. This suggests that the non-financial metrics may not be congruent with financial performance. In addition, the payouts, which were close to maximum for some metrics, do not seem to acknowledge the Company's financial position. The Company recorded a GBP 500m pre-tax loss for the year under review, the share price has fallen c.81% since 2021 and was one of the most shorted stocks on the FTSE All-Share Index at the time of writing.</i></p>

9	Re-elect Jorn Rausing as Director	For	For
10	Re-elect Andrew Harrison as Director	For	Against
<p><i>Blended Rationale: A vote AGAINST the re-election of Andrew Harrison is considered warranted because: - Concerns have been identified in respect of the remuneration arrangements for the year under review. These issues follow past concerns with the Company's remuneration practices, which has led to remuneration-related resolutions attracting significant levels of dissent in recent AGMs. Acknowledging these concerns, and Andrew Harrison's role as Chair of the Remuneration Committee in recent years, support for his re-election is not considered warranted at this time. - The nominee is the incumbent nomination committee chair and there is a lack of diversity on the board.</i></p>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against

Blended Rationale: A vote AGAINST this proposal is warranted due to an unmitigated pay-for-performance misalignment. Notwithstanding a decrease in performance year pay and an LTI program under which half of awards are based on clearly disclosed multi-year goals, there are significant concerns surrounding the incentive determination process. The company's framework for determining total incentive pay (including STI awards) incorporates a significant degree of committee discretion and lacks key disclosures, such as category or individual metric weightings, quantified, pre-set goals, and target and maximum STI opportunities. This structure and the lack of key disclosures preclude an assessment of the merit and boundaries of total pay.

<p><i>Blended Rationale: We consider a vote in favour of these resolutions to be warranted. For 2023, our guideline policy now recommends a vote against the incumbent nominating committee chair or incumbent members of the nominating committee in Continental Europe if 40% or less of the board is gender diverse. We support the spirit of this policy, and continue to review board composition on a case-by-case basis. In the case of Investis, we appreciate that the company has finally introduced a female candidate for the board after addressing the concern of lack of diversity in several meetings with the management. This increases the diversity on board from 0% to 20%, which we see as a great step in the right direction and therefore we vote FOR the reelection of Thomas Vettiger and continue engaging on this topic in the future.</i></p>

1	Open Meeting		
2	Receive Report of Management Board (Non-Voting)		
3	Approve Remuneration Report	For	Against
	<i>Blended Rationale: A vote AGAINST is warranted because of particular concern regarding the extraordinary share award. The company awarded an extraordinary share award and is not subject to pre-determined performance conditions. Although we recognize that the AGM in 2022 approve the discretionary share grant, we continue to raise concern with this practice and also note that approximately 55 percent of the free float vote against (assuming the Sawiris family' voted all shares held and in favor of the proposal). Moreover, some level of concern is raised with the CEO receiving additional base pay from a role as CEO of company subsidiary (Fertiglobe), albeit separately listed. However, this is not without noting improvements on the level of disclosure in the remuneration report on the performance assessment and outcomes under both the LTI and STI.</i>		
4	Adopt Financial Statements and Statutory Reports	For	For
5	Approve Remuneration Policy for Executive Board	For	Against
	<i>Blended Rationale: A vote AGAINST is warranted because - Reduced transparency on the performance metrics and their relative weighting of specific KPIs under the STI; - Significant increases in the overall pay package (for CEO at-target +33%) without a compelling and supporting justification for the increases, while the pay package is already considered to be substantially above Sustainability Advisory Services selected peers; and - Although the company covers it has engaged with shareholders, absence of clear and compelling responsiveness to last year's rejection of the proposed remuneration policy.</i>

It is worth noting that SKAN recently entered the public markets (IPO in October 2021) and before that was held in private markets, where the awareness of diversity on board level is less eminent. We believe it is necessary to provide the needed time to find suitable female candidates who bring value to the company, and have addressed this issue with the Chair. As such, performance achievements underlying the requested amount are unclear. - Although variable awards are subject to a maximum cap, the specific level is not clearly disclosed. - Because the company has not provided shareholders with a non-binding resolution on the remuneration report, this is the most appropriate item for expressing a view on the company's variable remuneration practices.</i>

5.2.1	Reelect Thibault de Tersant as Director and Board Chair	For	For
	<p><i>Blended Rationale: We consider a vote in favour is warranted. Temenos has introduced imperative changes on the board and management level which we believe are crucial to unleash attractive future strategic options, such as a successful turnaround or a takeover. After 24 years with Temenos, Andreas Andreades has decided not to stand for re-election as Executive Chairman and Thibault de Tersant is introduced for election as a board chair. According to the independent third-party proxy advisor, Thibault de Tersant is perceived to be overboarded since he serves as an executive at the software corporation Dassault Systemes in addition to his proposed election as non-executive chair of Temenos. We believe Thibault de Tersant is the best person to drive the turnaround of Temenos as a chairman, he brings more than 30 years of experience in the software industry and through his other mandate has an extensive network. In addition, as part of his re-election to chairman of the board of Temenos he has also announced that he is moving his executive position at Dassault to part-time in order to free up more time from that role having found a successor. As such, we are supportive of his election as board chair and his re-election as director.</i></p>		
5.2.2	Reelect Ian Cookson as Director	For	For
	<p><i>Blended Rationale: We consider a vote in favour of this resolution to be warranted. For 2023, our guideline policy now recommends a vote against the incumbent nominating committee chair or incumbent members of the nominating committee in Continental Europe if 40% or less of the board is gender diverse. We support the spirit of this policy, and continue to review board composition on a case-by-case basis. In this case, the diversity level on board currently stands at 38% and therefore we do not share the concerns of the proxy advisor at this time. We want to highlight that the company has increased the diversity on board level year by year consistently and therefore we vote FOR.</i></p>

2	Amend Omnibus Stock Plan	For	For
3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For

Blended Rationale: A vote FOR the proposal is warranted, with caution. While pay and performance are reasonably aligned for the year in review, certain structural concerns in the pay program are noted, including the degree of discretion under the STI program and the significant upside potential on the CEO's triennial equity award. However, the FY22 grant target value is reasonable, forward-looking performance equity grant targets are clearly disclosed, and from this detailed disclosure it appears that each target requires significant outperformance in order to be achieved. There is a similar case in the annual bonus program, as performance targets were set above the prior year's actual performance, requiring year-over-year growth to achieve target payout. Though pay and performance were reasonably aligned, continued monitoring of these structural issues is warranted.

	<i>Blended Rationale: A vote AGAINST this proposal is warranted. Following a failed say-on-pay vote last year, the compensation committee demonstrated only a limited degree of responsiveness to shareholder concerns. In addition, an unmitigated pay-for-performance misalignment persisted in FY22. The CEO's total pay remained elevated largely due to a significant base salary increase, which is significantly higher than the median salary of peer CEOs. This base salary had the effect of also increasing his annual and long-term incentives that are targeted to a percentage of base salary. Further, although annual and long-term incentives are significantly performance-based, concern remains that the relative TSR metric under the long-term incentive program targets merely median performance and the proxy does not disclose a vesting cap if absolute TSR is negative.</i>

Blended Rationale: We consider a vote in favour is warranted. Our guideline policy for 2023 advises voting against the incumbent chair of the committee responsible for climate risk oversight in the event that the company is a significant emitter (as defined by Climate Action 100+) and its decarbonisation disclosure and targets do not fulfil minimum expectations. In the case of Duke Energy, the guideline policy notes that the company has only partially disclosed a net zero by 2050 target and / or has only partially set medium term targets aligned with a Net Zero by 2050 pathway. It therefore concludes that these targets are only "partially disclosed" due to the interim Scope 2 & 3 emissions reduction target being set at 2035 rather than 2030. In October 2022, Duke Energy accelerated its emissions reduction targets. The company expects to reduce Scope 1 emissions by 50% by 2030 and by 80% by 2050 and to reduce Scope 2 & 3 emissions by 50% by 2035 – all off a 2005 baseline. More than 95% of the company's emissions are now covered by these interim decarbonisation targets including downstream Scope 3 emissions in their gas operations. Therefore we wish to deviate from this recommendation and support the election of the incumbent chair to ensure continuity of the company's progress towards net zero.

<i>Blended Rationale: A vote AGAINST this proposal is warranted. Despite not receiving an annual incentive payout, a pay-for-performance misalignment was identified, largely because of an increase in the CEO's equity award value. Equity grants remained majority time-based, per valuation, and the CEO received a larger grant, both as a dollar value and as a number of shares/options, than in the prior year. Lastly, the committee made a sizable, time-based stock grant to another NEO for the second consecutive year.</i>

<p><i>Blended Rationale: A vote AGAINST this proposal is warranted. The committee granted a \$25 million retention award to the CEO during the year in review, resulting in his reported pay more than doubling over the prior year. While the majority of the grant is performance-based, concerns are raised regarding goal rigor. The relative TSR performance metric overlaps the annual LTI program, and many investors may not view the median TSR target to be particularly rigorous, especially for a special award. Further, \$5 million of the retention award has no forward-looking performance criteria.</i></p>

Blended Rationale: Votes AGAINST incumbent nominees David Hsu, Adam Keswick and Anthony Nightingale are warranted for lack of diversity on the board. A vote AGAINST the re-election of David Hsu and Anthony Nightingale is also warranted because: - Potential independence issues have been identified and due to the absence of an established Remuneration Committee, they are considered to participate in the discussions of the Board as it fulfils the function of such committee; and - In the case of Anthony Nightingale, he also currently sits on the Audit Committees, and the composition of this Committee does not adhere to best practice recommendations for a company of this size.

1	Approve Financial Statements, Statutory Reports, and Allocation of Income	For	For
2.1	Approve Remuneration Policy	For	Against
	<i>Blended Rationale: This item warrants a vote AGAINST because: - The CEO/GM remuneration package continues to appear rather generous. - Termination payments may exceed 24 months of pay and the company includes the LTI component in the calculation for severance payment. - Under the company's long-term incentive plan, the targets related to Operating Cash Flow (weighting 50 percent of the assignable awards) are undisclosed and the objectives associated to the Relative TSR (weighting 50 percent of the assignable awards) do not seem particularly challenging. - The board maintains excessively broad derogation powers.</i>		
2.2	Approve Second Section of the Remuneration Report	For	Against

1.1	Elect Director Arthur T. Sands	For	For

1.3	Elect Director Paul M. Silva	For	Withhold

Blended Rationale: WITHHOLD votes are warranted for incumbent nominating committee member Paul Silva for lack of diversity on the board. WITHHOLD votes are further warranted for governance committee member Paul Silva for failure to remove, or subject to a sunset requirement, the supermajority vote requirement to enact certain changes to the governing documents and the classified board, each of which adversely impacts shareholder rights.

3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against

In addition, there is limited disclosure with respect to the corporate goals utilized in determining the annual incentive payout.

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<p><i>Blended Rationale: A vote AGAINST this proposal is warranted. Although annual and long-term incentives are substantially performance-based, significant concerns remain with the overall complexity of the long-term incentive programs, the skyrocketing value of outperformance awards for the CEO and other NEOs, and the rigor of LTI and POP goals. In addition to resulting in a large jump in total performance year pay in FY22, the multiple long-term incentive vehicles and issues surrounding grant timing make it difficult for investors to determine and accurately compare pay year-over-year. Further, investors may not consider relative LTI and POP goals set at one percentage point above the index to be particularly rigorous. Given these concerns, the quantitative pay-for-performance misalignment for the year under review is not mitigated.</i></p>

6	Approve Compensation of Jean-Pascal Tricoire, Chairman and CEO	For	For

Blended Rationale: We consider a vote in favour of this item is warranted. We agree with the ISS position that post mandate vesting is not an example of best practice, and also have concerns that the Chairman in his new role both retains an executive level remuneration structure and also receives the awards vesting in full including the 2022 LTIP and have engaged on these points. We do however accept that while we would prefer that post mandate vesting had not been implemented, its potential was clearly set out in previous remuneration policies that had also been voted on by shareholders. We welcome the commitment by the Board to change the policy from 2024 by implementing a prorata temporis rule. In addition, we have some sympathy for the argument that the Chairman role, as we understand it following engagement, will require a reasonable time commitment from Mr Tricoire – in particular as it relates to his ongoing role in the core Asian markets where he is expected to remain highly active on behalf of the company, which we see as a positive for the company.

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<p><i>Blended Rationale: A vote AGAINST this proposal is warranted. A pay-for-performance misalignment exists for the year under review and mitigating factors could not be identified. The sharp increase in CEO pay was driven by a sizable, off-cycle discretionary cash bonus that lacks any performance- or time-vesting criteria. The structure of this sizable cash award is contrary to a pay-for-performance philosophy and the proxy lacks clear disclosure of the committee's rationale for the structure and magnitude of the award. Additionally, although the STI pool funding is tied to pre-set targets and a majority of LTIs are tied to performance goals, the proxy lacks disclosure of how performance translates into bonus pool funding levels, actual STI payouts are ultimately discretionary, and the proxy does not disclose forward-looking LTI goals.</i></p>

<p><i>Blended Rationale: We consider a vote in favour is warranted. Our guideline policy for 2023 advises voting against the incumbent chair of the committee responsible for climate risk oversight in the event that the company is a significant emitter (as defined by Climate Action 100+) and its decarbonisation disclosure and targets do not fulfil minimum expectations. In the case of WEC Energy, the guideline policy notes that the company has only partially disclosed a net zero by 2050 target and has only partially set medium term targets aligned with a Net Zero by 2050 pathway. It therefore concludes that these targets are only "partially disclosed" due to the lack of Category 11 Scope 3 emission inclusion. While the company has a net carbon neutral target by 2050 and interim decarbonisation targets for 2025 and 2030 on net emissions vs a 2005 baseline for its generation business, and a net zero methane target by 2030 on their gas distribution business, we believe that the company is not in a position to commit to a full net zero target on all its activities as of now. However, we will seek more transparency on existing targets to ensure that the company is doing all they can to align with a 1.5 degree pathway. Therefore we wish to deviate from this recommendation and support the election of the incumbent chair to ensure continuity of the dialogue with the company.</i></p>

3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For
<p><i>Blended Rationale: A vote FOR the proposal is warranted. In response to last year's low say-on-pay vote, the committee engaged with shareholders and disclosed the feedback received. In response, the company made positive changes to the FY23 pay program by increasing the proportion of FY23 PSUs in the LTI to 55 percent and providing additional disclosures in both the STI and LTI. In addition, the committee made certain assurances in a supplemental filing surrounding one-time awards and the structure of its incentive programs going forward. Accordingly, the compensation committee has demonstrated adequate responsiveness to last year's low say-on-pay vote result. While the committee did elect to reduce the proportion of annual equity awards that were performance-conditioned in FY22, the company provides a clear rationale for removing certain performance metrics, and as mentioned above, FY23 grants will be majority performance conditioned. In addition, while some concerns are raised surrounding forward-looking goals not being disclosed, the company improved its disclosure by providing closing cycle goals and actual performance, which is considered an improvement in the company's disclosure. Finally, the company provides additional details surrounding strategic goals in the annual incentive, and the majority of the program is based on clearly disclosed objective measures.</i></p>

1	Accept Financial Statements and Statutory Reports	For	For
2	Approve Remuneration Policy	For	For
<p><i>Blended Rationale: We consider a vote in favour of this item is warranted. We fully recognise the concern about the increase to quantum available under the new arrangements, particularly when compared to other UK listed peers. However, after extensive discussion with Board members we have some sympathy for the aims of the original consultation which was to better reflect in the remuneration structure the fact that the US market represents over 55% of IHG's system size. There is therefore a business imperative to be able to access the US talent pool in a way that may not be true for UK listed hotel peers and some of the UK peers included in the proxy research benchmarking exercise, which supports some of the company rationale for comparing potential reward outcomes to the US hotel peer group. We are therefore supportive of the intent behind the changes.</i></p>			
3	Approve Remuneration Report	For	For
<p><i>Blended Rationale: We consider a vote in favour of this item is warranted in this case. We share the concerns relating to the use of upward discretion in determining reward outcomes. Our view is that the existence and nature of the shadow cash flow target was sufficiently disclosed in advance including in the 2021 Remuneration report where it was noted that it was intended to be a highly relevant reference point when assessing the performance of the 2020/22 LTIP. In addition, the committee notes that performance in cash flow and liquidity management had also been scrutinised, and the LTIP payout was capped at 205% of base salary for all Executive Directors due to concerns about windfall gains. Final mitigation is the relatively small increase delivered by the adjustment, and the relative performance of the business during the year. Overall therefore we are supportive in this case at this time, but would seek to see no additional one-off adjustments in future. During our consultation we also raised concerns about the nature of certain of the FY2023 LTIP performance ESG metrics and their robustness and will continue to keep them under review.</i></p>

	<i>Blended Rationale: A vote AGAINST this resolution is warranted because: - Discretionary adjustments were made to the STI in the year under review. If these adjustments had not been made, 50 percent of the STI would not have paid out and the company has not provided adequate disclosure on the justification for the adjustments, the actual adjustments made, and how these were considered to affect performance. 	Annual Meeting Agenda		
1	Receive Directors' Reports (Non-Voting)		
2	Receive Auditors' Reports (Non-Voting)		
3	Receive Consolidated Financial Statements and Statutory Reports (Non-Voting)		
4	Approve Financial Statements and Allocation of Income	For	For
5	Approve Discharge of Directors	For	For
6	Approve Discharge of Auditors	For	For
7	Approve Co-optation of HVV GmbH, Permanently Represented by Jesper Hojer, as Director	For	Against

Blended Rationale: A vote AGAINST incumbent nominating committee member Jesper Hojer is warranted for lack of diversity on the board.

8	Approve Auditors' Remuneration	For	For
9	Ratify PwC as Auditors and Approve Auditors' Remuneration	For	For
10	Approve Remuneration Report	For	Against

Blended Rationale: A vote AGAINST is warranted because: - The company has not provided any background on how shareholder feedback has been taken into consideration, as we note there was substantial dissent recorded (approximately 30 percent). - The company did not provide disclosure regarding targets, actual performance, and payout regarding the non-financial metric under STI plan, which represents 25 percent of the plan. - The additional STI bonus payout granted to former CEO is pro-rated under at-target conditions whereas targets do not appear achieved. Should be noted however that this is a contractual execution per existing remuneration policy.

11	Approve Remuneration Policy	For	Against
----	-----------------------------	-----	---------

Blended Rationale: A vote AGAINST is warranted because the proposed remuneration policy is below par in relation to market standards, particularly with regard to - Discretionary power granted to the board under the derogation policy, without further providing restrictions of the use of this potential derogation; - The proposed fees to the supervisory board is above what is generally observed at Belgian companies of Ontex' size and questions arise over the necessity for an additional transformation fee of EUR 50,000 for a non-executive chairman that does not have executive duties. - The LTI payout opportunity increased significantly, which leads to a potential pay package that is considered excessive. - A concern is raised on the stringency of the LTI plan being focused only on the share price of the company, that is subject to financial markets and not only on the financial and non-financial company performance on the long term, and whereas the threshold hurdle has already been reached at the time of writing the report.

Proposal Number	Proposal Text	Mgmt Rec	Vote Instruction
1.1	Elect Director Warren E. Buffett	For	Withhold
	<p><i>Blended Rationale: WITHHOLD votes are warranted for all nominees given the concerns raised regarding the company's management and oversight of climate-related risks. Furthermore, the company is not aligned with investor expectations on Net Zero by 2050 targets and commitments. Significant risks to shareholders stemming from moderate to severe ESG controversies have been identified at the company, which reflects a failure by the board to proficiently guard against, manage and mitigate material environmental, social and governance risks. In addition, the company does not have any public reports or information on its website about its sustainability strategy or communications regarding its environmental and social performance. WITHHOLD votes for CEO/Chair Warren Buffett are warranted given that the CEO and chair of the board ultimately shoulders the most responsibility amongst all board members for failing to effectively supervise the management of risks to the company and its shareholders, and should therefore be held the most accountable for poor board oversight of ESG risk exposures at the firm.</i></p>		
1.2	Elect Director Charles T. Munger	For	Withhold

1.6	Elect Director Stephen B. Burke	For	Withhold
	<i>Blended Rationale: WITHHOLD votes are warranted for all nominees given the concerns raised regarding the company's management and oversight of climate-related risks. Furthermore, the company is not aligned with investor expectations on Net Zero by 2050 targets and commitments. WITHHOLD votes are warranted for governance committee members, which includes Stephen (Steve) Burke, Kenneth (Ken) Chenault, and Charlotte Guyman, due to the company maintaining a multi-class share structure with disparate voting rights, which is not subject to reasonable time-based sunset. WITHHOLD votes are further warranted for compensation committee members Stephen (Steve) Burke, Kenneth (Ken) Chenault, and Charlotte Guyman, due to persistent concerns regarding executive pay practices and disclosures.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
	<i>Blended Rationale: A vote AGAINST this proposal is warranted. Two NEOs continue to receive large base salaries of \$16.0 million each and overall pay is not clearly linked to company performance. Pay disclosure is minimal, leaving shareholders with little information to assess decisions regarding, or committee oversight of, compensation determinations for executives.</i>		
3	Advisory Vote on Say on Pay Frequency	Three Years	One Year
	<i>Blended Rationale: A vote for the adoption of an ANNUAL say-on-pay frequency is warranted. Annual say-on-pay votes are considered a best practice as they give shareholders a regular opportunity to opine on executive pay.</i>		
4	Report on Physical and Transitional Climate-Related Risks and Opportunities	Against	For
	<i>Blended Rationale: A vote FOR the proposal is warranted as shareholders would benefit from corporate-level disclosure on the climate risks the company judges as material and plans to mitigate those risks</i>		
5	Report on Audit Committee's Oversight on Climate Risks and Disclosures	Against	For
	<i>Blended Rationale: A vote FOR this proposal is warranted at this time because the enhanced disclosure would allow shareholders to assess the board's governance and risk oversight mechanisms in place to protect the company from potentially adverse regulatory requirements and market changes related to the energy transition.</i>		
6	Report If and How Company Will Measure, Disclose and Reduce GHG Emissions	Against	For
	<i>Blended Rationale: A vote FOR this proposal is warranted at this time because the requested report would allow shareholders to evaluate emissions from Berkshire's insurance group, its peers have made public commitments, and the report may help the company prepare for state climate regulations.</i>		
7	Report on Effectiveness of Diversity, Equity, and Inclusion Efforts	Against	For
	<i>Blended Rationale: A vote FOR this resolution is warranted due to: - The absence of information regarding comprehensive company diversity-related policies, programs or metrics; and - The potential benefits for shareholders of increased reporting of diversity-related efforts and program effectiveness.</i>		
8	Require Independent Board Chair	Against	For
	<i>Blended Rationale: A vote FOR this proposal is warranted given the importance of having an independent board chair.</i>

<p><i>Blended Rationale: A vote AGAINST the proposal is warranted. Although the annual bonus was largely based on pre-set financial metrics, a number of issues are noted, including poor disclosure of payout ranges for financial metrics and that multiple targets were set below the prior year's actual performance without any rationale. In addition, the qualitative targets are poorly disclosed and the proxy does not disclose guardrails into how much the individual performance modifier can increase payout. The CEO's base salary is also relatively high, which leads to a compounding effect on his target bonus opportunity. A number of improvements were made in the LTI program, though some concerns are noted. The CEO's equity grant mix was increased to 50 percent performance based and utilizes a three-year performance period, though concerns are noted regarding the target setting as well as for NEO equity grants, where less than a majority of their target equity grant is in performance equity.</i></p>

3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<p><i>Blended Rationale: A vote AGAINST this proposal is warranted given that the company recently modified the CEO's employment agreement without removing the entitlement to a problematic modified single-trigger cash severance. In addition, an unmitigated pay-for-performance misalignment exists for the year in review. The CEO continues to receive a large base salary as well as annual bonus opportunity. The strategic goal portion of the annual bonus is poorly disclosed, along with actual performance. This is compounded in the LTI program, as certain overlapping metrics are used in both programs, including a relatively short performance period. Disclosure of strategic metrics remains relatively poor in the LTI program, which makes up the majority of the program. Though some positive changes were made in response to shareholder feedback, some changes appear to be merely incremental improvements, which will be further analyzed in next year's report.</i></p>

2.e	Approve Discharge of Management Board	For	Against
	<p><i>Blended Rationale: A qualified vote AGAINST the discharge of Frans van Houten, and as a consequence the entire management board as the vote is not unbundled, because: - Former CEO Frans van Houten was dismissed during 2022 and this being the last possible and most adequate venue for holding Van Houten accountable for his 'performance' leading to Philips' current situation; - In 2022, Van Houten was dismissed by the supervisory board in the context of the company being in need of an accelerated CEO change, confirming the view Van Houten did not perform according to expectations; - The former CEO has not been responsive to shareholder sentiment around variable incentives in light of the company's performance and electing not to forego his variable annual incentive, in deviation of the rest of the management board. Moreover, this decision might even be considered not in the best interest of the company and not to fulfill his fiduciary duty as director (or in his current capacity as 'advisor'); - The substantial reputational and financial damage to the company and its shareholders (since announcement the company lost EUR 26 billion in market capitalization (-67%) largely attributed to the recall) as a result of the announced product recall and the FDA has raised concerns with Philips communication to end users of the devices about the recall, and Philips, and Van Houten specifically, being a defendant in his capacity as former CEO in a class action suit by shareholders relating to alleged inadequate disclosures by the company. - However, this is not without qualifying and noting that this recommendation is specifically directed to former CEO Van Houten, and not necessarily the other members of the management board. It is also recognized that no specific member of the company's management board thus far has been found guilty of misconduct or negligence nor are the FDA observations a final determination. Lastly, Philips has undertaken remedial actions and is performing further investigations into its products.</i></p>

<p><i>Blended Rationale: We consider a vote in favour of this resolution to be warranted. For 2023, our guideline policy now recommends a vote against the incumbent nominating committee chair or incumbent members of the nominating committee in Continental Europe if 40% or less of the board is gender diverse. We support the spirit of this policy, and continue to review board composition on a case-by-case basis. In this case, we appreciate that the company is proposing a new female candidate, finally improving the diversity level. We are reassured that this trend will hold on and we keep engaging on this topic with the company to continue driving diversity on board level. In addition, Family-owned businesses may be penalized by Corporate Governance ratings from data providers on issues such as board independence and minority shareholder rights. We use proprietary qualitative assessment tools and invest in many companies with voting rights controlled by families or individuals, and therefore sometimes take a different view of overall independence.</i></p>

<p><i>Blended Rationale: We consider a vote abstain is warranted. We share the concerns of ISS regarding the lack of transparency of the remuneration report and in particular the link between level of compensations and accountability of the performance. Base figures from which annual bonuses are derived are not disclosed nor are maximum bonuses and therefore a maximum cap is missing. However, in total, it appears that total pay for the CEO is slightly below median, and for other executives it is also slightly below median on a total remuneration basis 9wit ha bias toward larger base salaries). We would prefer to see greater transparency and will continue to engage over the course of the year.</i></p>			
7.1	Approve Remuneration of Directors in the Amount of CHF 5.5 Million	For	Do Not Vote
7.2	Approve Remuneration of Executive Committee in the Amount of CHF 30 Million	For	Do Not Vote
<p><i>Blended Rationale: We consider a vote in favour is warranted. The board of Directors proposes a maximum aggregated compensation of the executive committee in the amount of CHF 30 Million. This represents a moderate increase vs the previous AGM noting also that it is in part to reflect in increases in the size of the executive team. In light of the increased complexity of the organization, we view this as justified and not excessive. This is in our view also highlighted by latest acquisition of Apex in Asia, one of the largest M&A activities in the company's history, which is fully self-financed and making Kühne & Nagel the global leading air logistics company. In addition, the current executive committee managed the company well during the pandemic, and has generated significant shareholder value over the year. We therefore vote FOR the aggregated remuneration of the executive committee.</i></p>			
7.3	Approve Additional Remuneration of Executive Committee in the Amount of CHF 2.6 Million for Fiscal Year 2022	For	Do Not Vote
<p><i>Blended Rationale: We consider a vote in favour is warranted. We want to highlight the solid performance of Kühne & Nagel in 2022. Despite very challenging times of post-Covid and global supply chain bottlenecks, the company was able to deliver strongly and grow substantially thanks to the strong management of the company. Kühne & Nagel was able to increase its dividends per share by a record 40% to CHF 14. As a consequence, we view the additional CHF 2.6 Million as not excessive taking into consideration the increased complexity of the company and its shareholder value creation, along with the increase in the size of the executive team. We therefore vote FOR the additional remuneration of the executive committee.</i></p>			
8	Transact Other Business (Voting)	For	Do Not Vote
<p><i>Blended Rationale: A vote AGAINST is warranted because: - This item concerns additional instructions from the shareholder to the proxy in case new voting items or counterproposals are introduced at the meeting by shareholders or the board of directors; and - The content of these new items or counterproposals is not known at this time. Therefore, it is in shareholders' best interest to vote against this item on a precautionary basis.</i></p>

1	Accept Financial Statements and Statutory Reports	For	For
2	Approve Treatment of Net Loss	For	For
3	Approve Remuneration Report	For	Against
<p><i>Blended Rationale: A vote AGAINST the remuneration report is warranted because: - The annual incentive for the CEO was guaranteed during the year. - There is insufficient disclosure regarding the terms of the CEO's current LTI. - There is insufficient ex-post disclosure to explain the application of the variable incentive for other executives.</i></p>

3	Approve Auditors' Report on Company Financial Statements for FY 2022	For	For
4	Approve Dividends of SAR 0.70 per Share for FY 2022	For	Against
<p><i>Blended Rationale: We consider a vote AGAINST this resolution to be warranted. We initiated a targeted engagement with Saudi Electricity in January 2022 with the stated objective of the company introducing a progressive dividend policy in line with earnings growth. In March 2022 the company again announced a flat dividend prompting us to escalate our engagement approach, writing a letter to the CEO formally stating our position. In March 2023 the company again announced a flat dividend after reporting 10.5% EPS growth. The next step in the escalation of our engagement is to vote against this policy at the AGM. The company is very well capitalised with leverage below its regulatory allowed level while the pay-out ratio is substantially below international peers despite operating in a similarly robust regulatory construct. A progressive dividend policy would bring the company into line with international peers, rewarding shareholders for the growth of the company while allowing the financing of the strategic plan.</i></p>

Blended Rationale: A vote AGAINST this proposal is warranted. There are significant concerns surrounding the magnitude and structure of a large off-cycle award granted to the CEO in connection with entering into a five-year employment agreement. On the positive side, the award has a relatively long five-year cliff vesting period. However, the award, which was granted amid back-to-back increases in target LTI opportunities, lacks performance-vesting criteria. With respect to regular incentive awards, some concern is raised by the STI program structure, as awards may be substantially increased by discretionary assessments of individual performance and have been for the CEO's awards for consecutive years. Lastly, the relative TSR metric in the LTI program, although not heavily weighted, provides for target vesting for below median performance against a relatively small peer group.

Blended Rationale: We consider a vote against this shareholder resolution is warranted. A deviation from our voting policy recommendation acknowledges the work the company has done in the last year. After engaging with shareholders in 2022, the company increased its disclosures in the following ways: it disclosed its EEO-1 employment data for 2020 and 2021 and plans to continue disclosing the information annually; it improved the diversity of its executive leadership team; it conducted pay gap, pay equity, and labor market analyses; it added two new diversity-related goals into its executive compensation metrics; and it added to the diversity disclosure on its website. Regarding the Monterey Peninsula Water Supply project, the company says that it modified the project and enhanced the benefits to the local community after receiving extensive feedback from the community. Given the progress made we are supportive this year but will continue to engage with the company on the issues raised by proponents during the coming year.

17	Approve Service Provider Sublimit under New Share Award Scheme	For	Against

Blended Rationale: A vote AGAINST these resolutions is warranted because: - The company could be considered a mature company, and the limit under the proposed New SAS, together with other share incentive schemes of the company, exceeds 5 percent of the company's issued capital. - Performance conditions and meaningful vesting periods have not been disclosed. - The directors eligible to receive awards under the New SAS are involved in the administration of the scheme.

	<p><i>Blended Rationale: We consider votes in favour of the re-election of these directors is warranted. Our guideline policy for 2023 advises voting against the incumbent chair of the committee responsible for climate risk oversight in the event that the company is a significant emitter (as defined by Climate Action 100+) and its decarbonisation disclosure and targets do not fulfil minimum expectations. In the event that the incumbent committee chair is not known, the policy extends to all incumbent members of that committee. In the case of Dominion Energy, the guideline policy notes that the company has only partially disclosed a net zero by 2050 target or has only partially set medium term targets aligned with a Net Zero by 2050 pathway. Dominion Energy has a net carbon neutral target by 2050 including scope 1, 2 and most scope 3 emissions for both the Electric and Gas operations. The company has an interim decarbonisation targets for 2030 including scope 1 emissions for the Electric operations (the vast majority of scope 1 emissions) and a methane emissions reduction target for both 2030 and 2040 for the Gas operations – all vs a 2010 baseline. The company discloses scope 1, 2 and 3 emissions in line with the Task Force on Climate-related Disclosures and published three scenarios for the company getting to net zero in line with a 1.5 degree pathway in its 2022 Climate Report. While we will engage with Dominion Energy regarding any strengthening of their interim targets in order to meet the minimum standards required by the policy, we do not believe that votes against the directors are warranted at this stage and wish to deviate from this recommendation.</i></p>

6.1	Slate 1 Submitted by Ministry of Economy and Finance	None	Against
	<i>Blended Rationale: Vote AGAINST this slate because: - Shareholders can support only one slate. - The Ministry of Economy slate has notable candidates for the chairman and CEO positions, and the Ministry of Economy itself would have enough votes to support their election unless Covalis slate is the most voted one and the vote for the second list is very disputed. It is notable, however, the lack of relevant skills and experience of the other four candidates considering Enel is a EUR 60 billion market cap company; these candidates mostly lack public board, c-suite, or industry experience. - Slate 2 is well rounded with individuals that can ensure proper oversight and have been selected following strict procedures. In addition, candidates on Slate 2 have agreed to adhere to the chart of corporate governance principles adopted by Assogestioni.</i>		
6.2	Slate 2 Submitted by Institutional Investors (Assogestioni)	None	For

6.3	Slate 3 Submitted by Covalis Capital LLP and Covalis (Gibraltar) Ltd.	None	Against
	<i>Blended Rationale: Vote AGAINST this slate because: - Shareholders can support only one slate. - Covalis' majority slate is mostly missing relevant public board experience for a company the size of Enel (only one candidate with relevant experience though from a decade or two ago, and another with experience at small cap/microcap companies). The most notable candidate in the list would be Marco Mazzucchelli, former senior corporate and investment banker whose skills in deals and capital markets would address some of the company's key issues like debt and divestments. While nominating a majority slate, the shareholder is not proposing a CEO candidate. We note this slate is the only one with international candidates, a factor to consider given the company's international operations. - Slate 2 is well rounded with individuals that can ensure proper oversight and have been selected following strict procedures. In addition, candidates on Slate 2 have agreed to adhere to the chart of corporate governance principles adopted by Assogestioni.</i>

	<i>Blended Rationale: Significant risks to shareholders stemming from severe ESG controversies have been identified at the company, which reflects a failure by the board to proficiently guard against and manage material environmental, social and governance risks. Votes AGAINST this item are warranted for the following reasons: - Support for the election of CEO Claudio Descalzi is not warranted. Given that board chair, Emma Marcegaglia, who shoulders the greatest responsibility amongst the board members for failing to effectively supervise the management of risks to the company and its shareholders is not up for election at this year's annual meeting, CEO Claudio Descalzi should be held accountable for poor board and management oversight of ESG risk exposures at the firm; and - The election of directors is bundled in a single item.</i>

Blended Rationale: Votes AGAINST all incumbent nominees are warranted given the concerns raised regarding the company's management and oversight of climate related risks. Additionally, the company is not aligned with investor expectations on Net Zero by 2050 targets and commitments. Significant risks to shareholders stemming from severe ESG controversies have been identified at the company, which reflects a failure by the board to proficiently guard against and manage material environmental, social and governance risks. Votes AGAINST Glenn Tilton, Charles Holley Jr., Denise Singleton and Marna Whittington are warranted for the following reasons: - Given that board chair, Greg Garland, who shoulders the greatest responsibility amongst the board members for failing to effectively supervise the management of risks to the company and its shareholders is not up for election at this year's annual meeting, all board members, with the exception of new nominees Gregory (Greg) Hayes, should be held accountable for poor board and management oversight of ESG risk exposures at the firm.

5	Disclose GHG Emissions Reductions Targets	Against	Against
<p><i>Blended Rationale: We believe that a vote against this proposal is warranted. We fully support the spirit of the shareholder proposal and agree with the proponent on the important role that the utilities sector must play in reducing emissions, driving the energy transition and keeping temperature rises in line with the goals of the Paris Agreement. Indeed, we have our own active engagement with the company aimed at gaining credible third party verification of its decarbonisation targets. However, the resolution requests that the company discloses short, medium and long term greenhouse gas emissions targets and plans to achieve those targets. We agree with the board that the company has already set those targets and the Integrated Resource Plan provides the plan to achieve those targets - within the confines of the current regulatory framework for the company. Contrary to the conclusions of the voting policy, we do not believe that voting for this proposal will provide additional information or a better assessment of how the company is mitigating climate related risks. We prefer to continue to work with the company through engagement to ensure that the company is doing all that is possible to accelerate and strengthen current decarbonisation targets where possible.</i></p>

Blended Rationale: A vote AGAINST this item is warranted because: - The CEO's salary has been increased at an above inflationary level for the second consecutive year and, while company rationale was provided, its merit was also questioned. - Performance targets applicable to LTIP awards granted during the year have been reduced (for ROCE) or not been disclosed (for free cash flow), without sufficient justification. - There is scope for improvement in the disclosure of bonus targets.

1.8	Elect Director David F. Levi	For	Withhold
	<i>Blended Rationale: WITHHOLD votes are further warranted for all incumbent board nominees (Robert Goldstein, Patrick Dumont, Irwin Chafetz, Micheline Chau, Charles Forman, Nora Jordan, Lewis Kramer, and David Levi), due to poor responsiveness to the 2022 say-on-pay vote and the persistent compensation and responsiveness concerns at the company.</i>		
2	Ratify Deloitte & Touche LLP as Auditors	For	For
3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
	<i>Blended Rationale: Following low say-on-pay support last year, the board did not make any meaningful changes to address shareholders' expressed concerns. Moreover, there are persistent pay structure concerns that underscore a pay-for-performance misalignment. The CEO's base salary and target STI opportunity are outsized, and recent changes to the STI program reduce the importance of objective financial metrics. The regular LTI awards are based on the same short-term goals as the STI program, and the CEO's equity grant value was relatively large. There are also ongoing concerns regarding pay benchmarking practices, perquisites, and gross-ups. Several of the above concerns persist despite recent negative shareholder feedback on those issues. In light of these issues, a vote AGAINST this proposal is warranted. Shareholders are further advised to "withhold" votes from incumbent board members.</i>		
4	Advisory Vote on Say on Pay Frequency	One Year	One Year
5	Disclose Board Skills and Diversity Matrix	Against	For
	<i>Blended Rationale: A vote FOR this resolution is warranted for the following reasons: - A board matrix would enhance transparency and would provide shareholders with a better tool to assess the quality of Las Vegas Sands' board and to evaluate its director nominees; and - A growing number of large companies are providing a board skills matrix.</i>

<p><i>Blended Rationale: A vote AGAINST this proposal is warranted. Annual incentives appear to incorporate significant committee discretion, with no disclosure of the specific performance targets, weights, nor actual performance used to determine bonus payouts. The long-term incentive program has similar disclosure issues, with no disclosure of forward-looking performance targets for either financial metric. Further, closing cycle awards only provide the performance target and actual performance, but not threshold and maximum. These disclosure issues are particularly concerning for the year in review given above-target earnouts and the identified pay-for-performance misalignment.</i></p>

Universal Music Group NV

Proposal Number	Proposal Text	Mgmt Rec	Vote Instruction
3	Approve Remuneration Report	For	Against
	<i>Blended Rationale: A vote AGAINST is warranted because the proposed remuneration is below par in relation to market standards, particularly with regard to CEO STI award that, due to pre-IPO legacy arrangements, is purely based on the level of EBITA (1 percent pay out). Furthermore, the CEO receives an additional one-off contingent bonus for which it is unclear how the performance assessment was implemented. In addition, the CEO and deputy CEO are granted a significant increased base salary without the company providing any compelling rationale. Overall, the total quantum of CEO pay for 2022 reaches EUR 47.3 million, which is considered to be excessive as it is 12.4x higher than the median of Sustainability Advisory Services selected peers. Finally, a concern is raised because the company provided limited response to last year significant dissent on the remuneration report.</i>

7.a	Reelect Lucian Grainge as Executive Director	For	For
7.b	Approve Supplement to the Company's Remuneration Policy in Respect of Lucian Grainge	For	Against
	<i>Blended Rationale: A vote AGAINST is warranted because: - The proposed total pay package opportunity at target of USD 35 million and severance pay higher than 2 year base salary is considered to be excessive. - The company did not provide any compelling rationale regarding the grant of a one-time transition award of USD 100 million, further increasing the total quantum of pay, which is already considered to be excessive.</i>		
8.a	Reelect Sherry Lansing as Non-Executive Director	For	Against
	<i>Blended Rationale: A vote AGAINST incumbent nomination committee member Sherry Lansing is warranted for lack of diversity on the board.</i>		
8.b	Reelect Anna Jones as Non-Executive Director	For	For
8.c	Reelect Luc van Os as Non-Executive Director	For	Against
	<i>Blended Rationale: A vote AGAINST the election of non-independent nominee and chair of the audit committee Luc Van Os is warranted as the future board composition lacks sufficient independent among its members.</i>

1	Accept Financial Statements and Statutory Reports	For	For
2	Approve Allocation of Income and Dividends of CHF 32 per Share	For	For
3	Approve Remuneration Report	For	Abstain
<i>Blended Rationale: We vote ABSTAIN. We acknowledge the concerns of the third-party independent proxy advisor such as the lack of ex-post disclosure of variable payouts versus company performance as well as the lack of a standalone long-term incentive component that measures performance over a multi-year period. However, we also note the two-step process in the STI structure where an earnings quality assessment is used to determine the final payout. At the same time a proportion of the STI result is deferred in shares for four years. So while the structure is unusual, there are some positive features which are supported by the lack of pay for performance misalignment.</i>

7.2	Approve Remuneration of Executive Committee in the Amount of CHF 4.8 Million	For	For
8.1	Reelect Paul Zumbuehl as Director and Board Chair	For	For
<p><i>Blended Rationale: We consider a vote in favour is warranted. For 2023 our guideline Policy now recommends a vote against the incumbent chair of a the nomination committee in Continental Europe if 40% or less of the board is gender diverse. We support the spirit of this policy, and continue to review board composition on a case-by-case basis with a view to improving board diversity. The Board has a diversity rate of 33%, which we consider as sufficient and considering it's a small board with only six members. While we understand the concerns relating to overboarding, in this case we note that Paul Zumbuehl holds two other board memberships in two smaller Swiss industrial companies, which we do not consider as excessive in this case. Moreover, we regard Paul Zumbuehl as a key person for Interroll, which he formed as CEO to a success story for more than 20 years (2000-2021).</i></p>

Blended Rationale: A vote AGAINST is warranted because: - This item concerns additional instructions from the shareholder to the proxy in case new voting items or counterproposals are introduced at the meeting by shareholders or the board of directors; and - The content of these new items or counterproposals is not known at this time. Therefore, it is in shareholders' best interest to vote against this item on a precautionary basis.

Blended Rationale: A vote for the requirement for an independent board chair is not warranted in this case. We are satisfied with the recent performance of Sempra's existing management team and the shareholder protections offered by their current structure of corporate governance, including the presence of an independent lead director, whose responsibilities are clearly defined, a majority independent board (78%), and fully independent committees. As a result, given that there are no pressing governance concerns at this time we consider it appropriate to vote against this proposal.

In this case, Peter Spuhler took over Stadler Rail in 1989 and grew it to the highly successful company it is today and he still owns almost 42% of the outstanding shares. Since Peter Spuhler is the major shareholder and founder of Stadler Rail, we believe it is legitimate to have him on the compensation committee as a main shareholder representative</i>

9	Approve Remuneration Report (Non-Binding)	For	Abstain
	<i>Blended Rationale: We vote ABSTAIN. We acknowledge the concerns of the third-party independent proxy advisor such as the lack of ex-post disclosure of variable payouts versus company performance as well as the lack of a standalone long-term incentive component that measures performance over a multi-year period. At the same time a proportion of the STI result is deferred in shares for four years. So while the structure is unusual, there are some positive features which are supported by the lack of pay for performance misalignment.</i>

3	Approve Remuneration Report	For	For
	<i>Blended Rationale: A qualified vote FOR is warranted as the proposed remuneration report is broadly in line with market practice, regarding both actual content and disclosure and no concerns were identified with regard to pay practices. We do note improvements regarding the disclosure of non-financial performance metrics. <i>Blended Rationale: WITHHOLD votes are warranted for governance committee members Woodrow Levin, Jocelyn Moore, Valerie Mosley, and Marni Walden for maintaining a dual-class structure that is not subject to a reasonable time-based sunset provision. WITHHOLD votes are further warranted for Marni Walden, as governance committee chair, given the board's failure to remove, or subject to a sunset requirement, the pop-up supermajority vote requirement to enact certain changes to the governing documents, which adversely impacts shareholder rights.</i>			
2	Ratify BDO USA, LLP as Auditors	For	For
3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<i>Blended Rationale: A vote AGAINST this proposal is warranted. Although the annual incentive program is entirely based on objective goals, there are concerns surrounding the lack of disclosed forward-looking goals for sizable retention awards granted to NEOs in FY22. In addition, the annual-cycle equity awards are entirely time based.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against

Blended Rationale: A vote AGAINST this proposal is warranted. The CEO received a sizable retention equity award for which forward-looking goals are not disclosed. Further, while the company targets a majority of the annual-cycle long-term incentives to be performance based, one-quarter of the annual-cycle PRSUs are based on a subjective evaluation of achievements, and the remaining annual-cycle PRSUs target merely median performance. There is also some concern about the lack of goal disclosure surrounding the portion of the STI based on individual performance.

3	Approve Omnibus Stock Plan	For	Against
---	----------------------------	-----	---------

Blended Rationale: A vote AGAINST this proposal is warranted due to a pay-for-performance misalignment override. There is an unmitigated pay-for-performance misalignment that is driven by problematic equity usage, and the program is highly concentrated to top executives.

9.2	Approve Fixed Remuneration of Executive Committee in the Amount of CHF 1.2 Million	For	For
9.3	Approve Variable Remuneration of Executive Committee in the Amount of CHF 598,000	For	Against
	<i>Blended Rationale: A vote AGAINST this proposal is warranted because: - There is insufficient ex-post disclosure to explain the evolution of variable payouts versus company performance. As such, performance achievements underlying the requested amount are unclear. - There is no long-term incentive component that measures performance over a multi-year period. - Because the company has not provided shareholders with a non-binding resolution on the remuneration report, this is the most appropriate item for expressing a view on the company's variable remuneration practices.</i>		
10.1	Amend Articles of Association (Incl. Approval of Virtual-Only or Hybrid Shareholder Meetings)	For	Against
	<i>Blended Rationale: A vote AGAINST the proposed article amendments is warranted because: - The proposed amendments would allow for virtual-only shareholder meetings on a permanent basis and there is no explanation of the circumstances under which virtual-only meetings would be held. - The ownership threshold for shareholders to submit agenda items will increase from currently 0.29 percent of the share capital to 0.5 percent of the share capital. - Although the ownership threshold for requesting that an EGM be convened will remain unchanged, the board would now be required to comply with the request within 60 days instead of 30 days. - The company has bundled a set of amendments that could have been submitted for shareholder approval under separate resolutions, presenting shareholders with an all-or-nothing choice.</i>

1.1	Elect Director Michael Burkland	For	For
1.2	Elect Director Robert Zollars	For	Withhold
<i>Blended Rationale: WITHHOLD votes are warranted for governance committee member Robert (Bob) Zollars due to board's failure to remove, or subject to a sunset requirement, the classified board and the supermajority vote requirement to enact certain changes to the governing documents, each of which adversely impacts shareholder rights.</i>			
2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<i>Blended Rationale: A vote AGAINST this proposal is warranted. In connection with the CEO transition, the new CEO and several NEOs received relatively large equity grants resulting in a misalignment between executive pay and company performance, a significant portion of which was in time-vested equity. Furthermore, the long-term incentive awards are based on quarterly and annual performance periods instead of multi-year performance.</i>

6	Approve Remuneration Report	For	Against
<p><i>Blended Rationale: A vote AGAINST the remuneration report is warranted because: - Former CEO Carla Kriwet resigned after two months "at her own request" but was awarded EUR 3.2 million in total payments (including fixed, variable, and severance payments) in fiscal year 2022. Kriwet is also entitled to use her company car until Dec. 5, 2024. Further, another EUR 1.8 million in compensation for a two-year non-competition agreement was granted. - These payments are further concerning considering that the board failed to provide a compelling justification and background for the rapid CEO change. - Additional concerns are raised that Kriwet was awarded a sign-on bonus of EUR 100,000. Such discretionary payments are not aligned with market best practice.</i></p>

<i>Blended Rationale: Based on an evaluation of the estimated cost, plan features, and grant practices using the Equity Plan Scorecard (EPSC), a vote AGAINST this proposal is warranted due to the following key factors: - The plan cost is excessive. - The estimated duration of available and proposed shares exceeds six years. - The disclosure of change-in-control ("CIC") vesting treatment is incomplete (or is otherwise considered discretionary). - The plan allows broad discretion to accelerate vesting.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For
<p><i>Blended Rationale: Following last year's failed say-on-pay vote result, the committee demonstrated adequate responsiveness by disclosing engagement efforts, transparent shareholder feedback, and making positive pay program commitments and changes that addressed shareholders' primary concerns, most notably by committing to not grant any future special awards to the CEO or president. The process for determining cash bonuses remains heavily based on committee discretion and the proxy lacks certain key disclosures which inhibit a fully-informed assessment of pay and performance. While these issues warrant continued monitoring, there are mitigating factors identified. Most notably, the application of discretion has not contributed to a quantitative pay-for-performance misalignment. Additionally, most key financial metrics highlighted were consistent year-over-year (although continued monitoring of selective metric highlighting is warranted). Further, the large majority of CEO performance year pay, and the entirety of equity awards, consists of performance-conditioned equity that vests based on clearly disclosed multi-year goals and includes a relative metric which targets outperformance. Shareholders may additionally consider incremental improvements in disclosure and structure, including a new cap on the proportion of the CEO's total incentive that can be paid in cash form. On balance of these factors, a cautionary vote FOR this proposal is warranted.</i></p>

	<p><i>Blended Rationale: A vote AGAINST new nominee and former executive JB Straubel given independence concerns as well as potential conflicts of interest and inadequate oversight. A vote AGAINST Audit Committee Chair Robyn Denholm is further warranted given concerns on the risk oversight function of the board, in light of the pledging of a significant amount of the company's stock by certain directors and executives. Significant risks to shareholders stemming from severe ESG controversies have been identified at the company, which reflects a failure by the board to proficiently guard against and manage material environmental, social and governance risks. * A vote AGAINST board chair Robyn Denholm is also warranted given that the chair of the board ultimately shoulders the most responsibility amongst all board members for failing to effectively supervise the management of risks to the company and its shareholders, and should therefore be held the most accountable for poor board oversight of ESG risk exposures at the firm. A vote FOR Elon Musk is warranted at this time.</i></p>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For
	<i>Blended Rationale: Reported compensation for all NEOs, other than the CEO, consisted only of base salaries and 401K matching contributions, as the company does not maintain an annual incentive program nor make regular annual equity grants. Investors should continue to monitor pay outcomes, as the company's grant practices are periodic in nature and the most recent grants made to executives in prior years have been sizable. <p><i>Blended Rationale: We consider a vote in favour of this resolution to be warranted. For 2023, our guideline policy now recommends a vote against the incumbent nominating committee chair or incumbent members of the nominating committee in Continental Europe if 40% or less of the board is gender diverse. We support the spirit of this policy, and continue to review board composition on a case-by-case basis. In this case, the diversity level on board currently stands at 38% and therefore we do not share any concerns of the third-party proxy advisor. 6	Approve Remuneration Report	For	Against
	<i>Blended Rationale: A vote AGAINST the remuneration report is warranted because: - The level of disclosure provided in the remuneration report does not allow for an independent assessment of remuneration practices, in particular regarding ex-post target achievements, as well as additional remuneration elements. - There is significant ambiguity with regard to termination provisions. - Several discretionary payments were made in the past year. - There appears to be a misalignment between performance-linked remuneration and the company's actual performance.</i>

<p><i>Blended Rationale: We consider a vote FOR this resolution is warranted. For 2023 our guideline Policy now recommends a vote against the incumbent chair of a the nomination committee in Continental Europe if 40% or less of the board is gender diverse. We support the spirit of this policy, and continue to review board composition on a case-by-case basis with a view to improving board diversity. For E.on, with supervisory board of just 8 members, having 3 highly experienced female board members (including 2 new appointments in Anke Growth and Nadege Petit) appears to be sufficiently diverse – 37.5% - and with significant positive progress. While we support any efforts to continue to positive progress on improved board diversity, we do not feel that a vote against the nomination committee is necessary at this time.</i></p>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For
	<i>Blended Rationale: A vote FOR this proposal is warranted. The compensation committee demonstrated sufficient responsiveness after last year's failed say-on-pay vote, making several positive changes to the incentive programs and improving certain disclosures in the proxy. Additionally, pay and performance are reasonably aligned for the year under review. Some concern exists that a portion of the PSUs continue to utilize a one-year performance period. However, the positive changes to the PSUs for FY23 strengthen the overall pay-for-performance alignment of the program.</i>

WITHHOLD votes are further warranted for Darpan Kapadia and Paul Segal for the unmitigated pay-for-performance disconnect identified for the year under review. Specifically, the company utilizes aspirational peers to help guide pay decisions and LTI awards, which are of concerning magnitude relative to the total pay of ISS-selected peers, and are entirely time-vesting. WITHHOLD votes are further warranted for Darpan Kapadia and Paul Segal given the board's failure to remove, or subject to a sunset requirement, the "pop-up" supermajority vote requirement to enact certain changes to the governing documents and the classified board, each of which adversely impacts shareholder rights. <p><i>Blended Rationale: We are not supportive of this resolution. In discussion with the company we have received reassurances about the likely rate of dilution from the usage of the new authority over the next three years, and the continued progress being made towards a more normalised remuneration structure. We also fully understand the history of the company from IPO to now. However, we would like to see more rapid progress to that end point and the renewal of the omnibus plan could have been a good opportunity for change. We therefore vote against the two remuneration items, withhold on the re-election of the remuneration committee chair and seek further engagement with him in the coming months to better understand the future roadmap</i></p>

Proposal Number	Proposal Text	Mgmt Rec	Vote Instruction
3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against

Blended Rationale: A vote AGAINST this proposal is warranted. A pay-for-performance misalignment is driven by the value of the CEO's "outperformance" equity award, which the company grants periodically, and which is supplemental to his regular annual LTI awards. Although the award is based on multi-year TSR goals, a "lock-in" feature allows at least a portion of the award to be earned at two different measurement dates, reducing the rigor of the award. Moreover, the FY22 outperformance award was granted one day after the end of the measurement period for his FY19 outperformance award, raising concerns over the use of frequent non-annual equity awards to boost pay opportunities.

	<i>Blended Rationale: A vote AGAINST this remuneration reports is warranted because: - The payment of a retirement indemnity to a corporate officer still in function does not appear justified; - The LTIP grant, made one month before the separation of chairman and CEO functions, was not prorated in reference to the three-year vesting period (divided by six) but only in reference to the grant year (divided by two); - Similarly, the awards that are vesting in 2023 are not prorated in order to take into account the partly irrelevant performance period (last six months of FY 2022); - The level of disclosure surrounding the bonus performance conditions and their achievement remains limited; - The performance conditions attached to the granted LTIP are only vaguely disclosed; and - The company fails to disclose the achievement of the performance conditions attached to the LTIP that vested.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For
	<i>Blended Rationale: A vote FOR this proposal is warranted, with caution. Some concerns are noted regarding the magnitude of CEO pay as CEO Berger received a notable base salary increase and a relatively significant LTI award with limited disclosed rationale. However, both the annual and long-term incentives appear sufficiently performance-based, with a portion of annual incentive awards paid out in RSUs.</i>

6	Approve Remuneration Report	For	Against
	<i>Blended Rationale: A vote AGAINST the remuneration report is warranted because: - There is insufficient ex-post disclosure to explain performance achievements underlying variable payouts for the year. - The application of the discretionary component under the STI has not been well explained. - Outstanding variable awards for a former executive were settled prematurely in connection with their departure.</i>		
7	Approve Remuneration Policy	For	Against
	<i>Blended Rationale: A vote AGAINST this resolution is warranted because: - The restricted share plan allows for discretionary payments. Although the policy describes this is restricted to attracting and retaining individuals, this can be interpreted very broadly. - Up to 30 percent of the STI is determined on a discretionary basis via the Telefonica SA component. - The two long-term incentive plans have a three-year vesting period, which is less than the four years recommended by the German Corporate Governance Code. - The remuneration policy contains a degree of complexity from an external perspective given the multiple plans, combined with an overall low level of transparency, considering that concrete KPIs or metric weightings are disclosed.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<i>Blended Rationale: A vote AGAINST this proposal is warranted. The compensation committee did not demonstrate sufficient responsiveness to the failed say-on-pay vote in 2022. In addition, total CEO pay more than tripled year-over-year due to a special equity award. Although the grant was entirely performance-based, it is unclear if the grant is meant to cover multiple years of pay and the value is viewed as outsized. Furthermore, several concerns are noted in regard to the incentive plans, including a relatively high CEO base salary, a discretionary increase to the STI result, annual performance periods applied to regular LTI grants, and the potential for above-median benchmarking.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<i>Blended Rationale: A qualitative review of incentive pay programs reveals mostly positive features, though certain aspects of disclosure could be improved. However, there are significant concerns regarding the committee's decision to amend the CEO's outstanding PSU awards in connection with his announced retirement. This discretionary decision provides more favorable vesting treatment of his outstanding awards and resulted in an incremental value disclosure of more than \$7 million and total CEO pay that is outsized at more than \$32 million. Recent enhancements to retirement benefits are considered a problematic practice and the committee has not disclosed a compelling rationale. In light of this concern, a vote AGAINST this proposal is warranted.</i>

<p><i>Blended Rationale: We consider a vote against is warranted. This voting decision is consistent with our vote on the same proposal at the 2022 AGM. While we support the promotion of diversity and inclusion across all of our companies, we are satisfied with NextEra's policies, disclosures and efforts in this area. We note that the proxy states that the board has 50 percent overall diversity with 33 percent gender and 17 percent racial/ethnic diversity. It also provides a graphic of board members' ages, biographies and qualifications for each board member along with a picture, their age, how long they have been a director, and other public company boards they serve on. The company has already enhanced disclosure in response to this shareholder proposal which is helpful, and we therefore agree with the board that the information supplied is sufficient, and back their statement regarding ensuring the highest quality board composition.</i></p>

5	Require Independent Board Chair	Against	For

Blended Rationale: Company performance has been robust over the long-term, all key board committees are independent, there are no concerns regarding the company's governance practices, and the board has adopted an independent lead director role with clearly delineated duties. That being said, although the current board leadership structure has been effective, the appointment of an independent board chair at the next board leadership transition would simplify and streamline the board leadership structure while also providing the greatest form of independent oversight. Given the precatory nature of this proposal and discretion afforded to the board to implement this policy whenever possible, a vote FOR this proposal is warranted.

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For

Blended Rationale: We consider a vote in favour of this item is warranted. Certain elements of the NEO remuneration structure were present in previous years including the utilization of multiple metrics. While we would prefer to see fewer target areas we do not consider this to be unusual in the context of a regulated entity which often link a range of their regulated targets with pay practices. In relation to the mid-cycle goal changes to the 2021 LTI awards, we do not, as a rule, support such changes. However, in this case some mitigation is provided by the change in the regulatory backdrop to the company's operations. The changes made align NEO compensation targets with the company's Wildfire Mitigation Plan, which was amended during 2022 and approved by the regulator, and therefore the outlook for capital expenditure and shareholder returns. While the compensation structure may be seen as complicated and we will engage directly with management on target metrics, we are comfortable that the compensation structure reflects the current situation of the company and aligns management incentives with shareholder interests.

The share price used to determine the grant value was briefly impacted by the material uncertainty brought about the COVID-19 pandemic, leading to an increased number of shares being granted to cover the award. However, no amendment to the award at grant or vesting has been made and the Company's explanation is not considered to be sufficiently compelling.</i></p>

6	Amend Bylaws to Require Shareholder Approval of Certain Provisions Related to Director Nominations by Shareholders	Against	Against
7	Adopt a Paid Sick Leave Policy	Against	Against

Blended Rationale: We believe that a vote against this shareholder proposal is warranted. While we support the concept of paid sick leave for employees in principle, and encourage the company to support the principle in practice, the practicalities of mandating the board on this topic are complex. As stated in its opposing statement, the company is prohibited by law from unilaterally implementing such a policy to unionised employees, has already negotiated a policy with 10 of the 13 unions involved, is working with the remaining 3, and has an existing sick leave policy for its non-unionised employees. Additionally, the Investing in our Workforce initiative in the company's "Building a Sustainable Future 2030" strategy prioritises employee health and well-being. We fully support the proponent's goal of sick leave for all employees but believe the optimal approach is either through broader regulation or for management, through union negotiations.

3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against

Blended Rationale: A vote AGAINST this proposal is warranted due to an unmitigated pay-for-performance misalignment. There are continuing concerns regarding the annual bonus and LTI structure. Although bonus pool funding is largely formulaic, payouts are discretionarily determined and the proxy lacks key disclosures, such as per-metric weightings, pre-set threshold/target/maximum goals and, for the CEO, a target payout opportunity. Concerns over discretionary determinations are exacerbated as the CEO's STI payout nearly doubled year-over-year amid sharply negative TSR and generally poor earnings performance. Moreover, half of performance-conditioned equity utilizes relative metrics which merely target the median and the remaining half is primarily earned based on annual performance. The fact that closing-cycle awards continue to be forfeited due to company performance does not sufficiently mitigate these structural concerns.

4	Advisory Vote on Say on Pay Frequency	One Year	One Year
5	Approve Omnibus Stock Plan	For	Against

Blended Rationale: Based on an evaluation of the estimated cost, plan features, and grant practices using the Equity Plan Scorecard (EPSC), a vote AGAINST this proposal is warranted due to the following key factors: - The plan cost is excessive. - The estimated duration of available and proposed shares exceeds six years. - The disclosure of change-in-control ("CIC") vesting treatment is incomplete (or is otherwise considered discretionary). - The plan allows broad discretion to accelerate vesting.

4	Require Independent Board Chair	Against	Against

Blended Rationale: We consider a vote against is warranted. We recognise the importance of a split Chair role, and the advantage of having split roles enshrined in company policy. This company has had split CEO and Chair roles for twelve years, has recently appointed an independent Chair (with 5 year term), and the company confirmed during our engagement that it does not plan on changing its practice in this regard. So while not enshrined in policy, we therefore do not think there is any obvious need to change the current approach and are happy to support management. However, the company wishes to preserve some flexibility should a combined role be considered appropriate in the future. We therefore believe it would be prudent to add provisions to company policy related to the roles and responsibilities of a Lead Independent Director in the event of a combined role. This would provide an extra level of reassurance that board oversight and accountability would not be compromised in the event the roles are combined. We will vote against the resolution but continue to engage to see this change to policy during the coming year.

1	Accept Financial Statements and Statutory Reports	For	For
2	Approve Remuneration Report	For	Against
<p><i>Blended Rationale: A vote AGAINST the remuneration report is warranted because: - In-flight adjustments were made to outstanding stock options via a significant reduction in the exercise price. - Long-term equity awards partially vest in less than three years and do not require the achievement of any performance conditions. - There is insufficient ex-post disclosure to explain performance achievements underlying variable payouts for the year.</i></p>

5.1	Approve Remuneration of Directors in the Amount of CHF 2.8 Million	For	Against

5.2	Approve Remuneration of Executive Committee in the Amount of EUR 10.5 Million	For	Against

6.1.1	Reelect Michael Tojner as Director and Board Co-Chair	For	Against
<p><i>Blended Rationale: Votes AGAINST incumbent nominating committee chair Michael Tojner are warranted for lack of diversity on the board. 6.2.1	Reappoint Michael Tojner as Member of the Nomination and Compensation Committee	For	Against
	<i>Blended Rationale: We note that the company has a combined nomination and compensation committee. As such, a vote AGAINST the reappointment of the chair, Michael Tojner is warranted due to board diversity concerns. Votes AGAINST Michael Tojner, Thomas Williams, and Christian Hosp are warranted because their elections to the board do not warrant support and due to the failure to establish a majority-independent committee.</i>		
6.2.2	Reappoint Thomas Williams as Member of the Nomination and Compensation Committee	For	Against

7.6	Amend Articles Re: Editorial Changes	For	For
7.7	Amend Articles Re: Compensation of Board and Senior Management	For	Against
<p><i>Blended Rationale: A vote AGAINST the proposed articles amendments is warranted because they would introduce the option to award variable compensation to non-executive directors, as well as the option to grant loans and credits to directors and executives in an amount up to CHF 20 million, which is not aligned with market practice.</i></p>			
8	Transact Other Business (Voting)	For	Against

7	Amend Articles Re: Participation of Supervisory Board Members in the Annual General Meeting by Means of Audio and Video Transmission	For	For
8	Approve Remuneration Report	For	Against

Blended Rationale: A vote AGAINST the remuneration report is warranted because: - Guaranteed payments were made to management board members in the past year. - There remains insufficient ex-post disclosure to explain the evolution of variable payouts versus company performance, particularly with regard to non-financial performance metrics. - Two executives received a significant base salary increase during the year without a detailed explanation. - Awards granted under the long-term incentive (partially) vest in less than three years.

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<p><i>Blended Rationale: A vote AGAINST this proposal is warranted. There are significant concerns raised by the size of new Executive Chairman Doyle's equity awards, which the company values at \$116.7 million. These concerns are magnified as a large portion of the award consists of time-vesting stock options and RSUs. While PSUs awarded to Doyle require significant stock price improvement, the overall magnitude of the award may be concerning to investors, which is nearly 8 times the median total CEO pay at ISS-selected peers. It is also not clear if these grants were meant to cover multiple years of equity awards.</i></p>

Blended Rationale: Significant risks to shareholders stemming from severe ESG controversies have been identified at the company, which reflects a failure by the board to proficiently guard against and manage material environmental, social and governance risks. - Votes AGAINST board chair Sir Andrew Mackenzie are warranted given that the chair of the board ultimately shoulders the most responsibility amongst all board members for failing to effectively supervise the management of risks to the company and its shareholders, and should therefore be held the most accountable for poor board oversight of ESG risk exposures at the firm.

Blended Rationale: A vote AGAINST the transition progress report is warranted. The Company's Scope 3 targets relate to intensity reduction, rather than absolute emission reduction. Additionally, there is a lack of detail on the Company's Scope 3 emissions and on how it intends to meet its associated targets. More granular and explicit disclosure should be provided to enable stakeholders to make the connection between the Company's goals and the relevant IEA net zero pathways. Furthermore, CCS (Carbon Capture and Storage) and offsets form a sizable part of the plan.

----	--	---------	-----

Blended Rationale: A vote FOR this proposal is warranted as the alignment of the existing 2030 reduction target covering the greenhouse gas (GHG) emissions of the use of its energy products (Scope 3) with the goal of the Paris Climate Agreement would aid shareholders in understanding the company's assessment of how it could reduce its carbon footprint to limit global warming well below 2 degrees Celsius above pre-industrial levels and to limit the temperature increase to 1.5 degrees Celsius.

1j	Elect Director Kathryn M. Sullivan	For	For
2	Ratify Ernst & Young LLP as Auditors	For	For
3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against

Blended Rationale: A vote AGAINST the proposal is warranted. Though financial metrics in the annual bonus program appear rigorous and qualitative metric disclosure has improved, disclosure of each metric's payout percentage is lacking. Furthermore, though all financial metrics in the annual bonus performed below target, the final payout still exceeded target due to the performance of the qualitative portion of the award. Concerns are also noted in the annual LTI; though a significant portion of LTI is in performance-conditioned equity that utilizes a multi-year performance period, relative TSR goals merely target median and the maximum vesting opportunity is relatively high, no relative TSR vesting cap is disclosed if absolute TSR is negative, and forward-looking goals for one metric are not disclosed. More concerning, however, is with the existence of a special grant, which was granted one month after a special award granted in December 2022. Though the grant is entirely in multi-year performance equity with reasonably rigorous goals disclosed, the repeated use of special grants in close proximity is concerning, given the additive pay opportunities provided by off-cycle awards. Investors generally expect that special grants are infrequent.

3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<i>Blended Rationale: A vote AGAINST this proposal is warranted. Following last year's low say-on-pay vote, the compensation committee engaged with shareholders, disclosed specific feedback, and provided further details surrounding the company's compensation programs and long-term strategy. However, the company did not make material changes to the compensation program to address shareholder concerns. In addition, while CEO Jassy's pay declined following the prior year's mega promotion award, consisting only of base salary and certain perquisites, a review of the pay program reveals persistent concerning features. Specifically, compensation for other NEOs consisted primarily of time-vesting restricted shares, with incentive programs lacking objective performance metrics and quantified goals. In addition, the magnitude of an NEO's recent \$41 million grant is concerning, as it comes only one year after he received an \$81 million sign-on grant.</i>

6	Report on Climate Risk in Retirement Plan Options	Against	For
<i>Blended Rationale: A vote FOR this resolution is warranted. While the company offers an option to employees that want to invest more responsibly, it is unclear how well employees understand the retirement plans available to them. The information requested in the report would not only complement and enhance the company's existing commitments regarding climate change, but also allow shareholders to better evaluate the company's strategies and management of related risks.</i>

8	Revise Transparency Report to Provide Greater Disclosure on Government Requests	Against	For

12	Report on Climate Lobbying	Against	For
<i>Blended Rationale: A vote FOR this proposal is warranted at this time. 19	Establish a Public Policy Committee	Against	For
<i>Blended Rationale: By establishing a dedicated Public Policy Committee, the company will have a centralized device to continue, ensure, and promote its social and environmental policies and initiatives. The adoption of this resolution will also solidify the company's position among its peers as an industry leader in this area of environmental sustainability. As such, support FOR this proposal is warranted.</i>			
20	Adopt a Policy to Include Non-Management Employees as Prospective Director Candidates	Against	For
<i>Blended Rationale: A vote FOR this proposal is warranted, as the company continues to face significant controversies related to the treatment of its employees and the proposal would give the board more options for nominating director candidates that it considers could help it in considering worker grievances, potentially reducing risks of reputational damage and protecting shareholder value in the long-term, but without being overly prescriptive. It is not asking for an employee representative on the board, but a policy to include hourly workers among the list of candidates the Nominating and Governance Committee considers for open board positions.</i>

5	Reelect Marie Bolloré as Director	For	Against
<p><i>Blended Rationale: Significant risks to shareholders stemming from severe ESG controversies have been identified at the company, which reflects a failure by the board to proficiently guard against and manage material environmental, social and governance risks. Votes AGAINST Marie Bolloré are warranted for the following reasons: - Given that board chair, who shoulders the greatest responsibility amongst the board members for failing to effectively supervise the management of risks to the company and its shareholders is not up for election at this year's annual meeting, all board members should be held accountable for poor board and management oversight of ESG risk exposures at the firm. 2	Amend Omnibus Stock Plan	For	For
3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<i>Blended Rationale: Following low support for last year's say-on-pay vote, the committee demonstrated adequate responsiveness to shareholder concerns by committing to frame future severance arrangements to align with peer practices. Nevertheless, an AGAINST vote is warranted as there is an unmitigated pay-for-performance misalignment underscored by significant concerns regarding the magnitude of the CEO's pay opportunities amid sustained underperformance, in addition to disclosure and rigor concerns. CEO Kilroy's relatively high base salary and target annual incentive contributed to sizable annual incentive award earned whereas the program lacks key disclosures, such as per-metric weightings and threshold/maximum goals, and individual payouts appear to be ultimately based on committee discretion. Moreover, performance equity awards are based on a primary metric that utilizes on a one-year performance period.</i>

We support the spirit of this policy, and continue to review board composition on a case-by-case basis. In this case, the diversity level on board currently stands at 38% and has increased compared to last year due to the newly proposed candidate, Gaelle Olivier. 2	Receive Report of Supervisory Board (Non-Voting)		
	<i>Blended Rationale: No vote is required for this item.</i>		
3	Approve Remuneration Report	For	For
	<i>Blended Rationale: A qualified vote FOR is warranted as the proposed remuneration report is broadly in line with market practice. Blended Rationale: We consider votes in favour of the re-election of these directors is warranted. Our guideline policy for 2023 advises voting against the incumbent chair of the committee responsible for climate risk oversight in the event that the company is a significant emitter (as defined by Climate Action 100+) and its decarbonisation disclosure and targets do not fulfil minimum expectations. In the event that the incumbent committee chair is not known, the policy extends to all incumbent members of that committee. In the case of The Southern Company, the guideline policy notes that the company has only partially disclosed a net zero by 2050 target or has only partially set medium term targets aligned with a Net Zero by 2050 pathway. The Southern Company has set a net zero target by 2050 and an interim target to reduce scope 1 emissions (70% of total emissions) by 50% by 2030 vs a 2007 base and has provided clarity on coal plant closures for 90% of its coal capacity by 2035 – as currently allowed by its regulators. The company has a significant natural gas distribution operation and is working with its upstream suppliers to improve disclosure of scope 3 emissions and has initiated programmes aimed at reducing methane leaks and scope 3 emissions despite the lack of formal targets on this issue. As the company progresses with these programmes and as providers such as SBTi determine Paris Aligned pathways for natural gas distribution operations, we expect the company to align its decarbonisation targets with those strategies and will continue to discuss the strengthening of decarbonisation targets in our interactions with the company. As such, we do not believe that votes against the directors are warranted at this stage and wish to deviate from this recommendation.

6	Adopt Simple Majority Vote	Against	Against
	<i>Blended Rationale: In Item 5, management have brought a proposal with the same objective, the elimination of the supermajority vote requirement. They also supported a shareholder resolution with this objective in last year's AGM. A vote for Item 5 is warranted and we wholeheartedly support the improvement of shareholder protections that the elimination of the supermajority vote requirement would bring. However, the shareholder proposition, Item 6, also includes additional stipulations that we do not believe are in the best interests of the company or shareholders. We will therefore vote for Item 5 but against Item 6.</i>		
7	Adopt Scope 3 GHG Emissions Reduction Targets Aligned with Paris Agreement Goal	Against	Against
	<i>Blended Rationale: While we fully support the goals of the Paris Agreement and the role of the utility companies in achieving those goals, we do not believe that a vote for this proposal is warranted at this time. It is currently challenging for The Southern Company to adopt short and medium term Scope 3 targets aligned with science, as organisations like SBTi have not yet provided the Paris Aligned pathways for companies with significant natural gas distribution operations – such as Southern Company. However, a long term net zero Scope 3 target may be worth considering, especially in light of similar commitments from peers; target-setting methodologies will also become available for natural gas operations at some point. We will therefore continue to discuss the strengthening of decarbonisation targets in our interactions with the company and do expect the company to adopt the necessary Scope 3 emissions targets when possible, but we do not believe that a vote for this proposal will serve to hasten that moment</i>

1.1	Elect Director Kerry W. Cooper	For	For
1.2	Elect Director Mary Hentges	For	For
1.3	Elect Director Ciaran O'Kelly	For	Withhold
<i>Blended Rationale: WITHHOLD votes are warranted for incumbent Governance Committee nominee Ciaran O'Kelly given the board's failure to remove, or subject to a sunset requirement, the supermajority vote requirement to enact certain changes to the governing documents and the classified board, each of which adversely impact shareholder rights.</i>			
2	Ratify Deloitte & Touche LLP as Auditors	For	For
3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<i>Blended Rationale: Although CEO pay and company performance are reasonably aligned at this time, a vote AGAINST this proposal is warranted due to significant concerns raised regarding the magnitude and structure of a special equity award granted to a NEO. Special awards that lock in pay opportunities over an extended period are considered problematic as they limit the board's ability to meaningfully adjust pay based on changes in circumstances. The cancellation of the award just one year after grant due to a precipitous decline in stock price shows the risks of such awards. While the cancellation of the award somewhat mitigates concerns, shareholders should nevertheless be concerned that such award was approved by the board, and opposition to this proposal would signal concerns regarding that action.</i>

<p><i>Blended Rationale: A vote AGAINST the remuneration report is warranted because: - A EUR 500,000 sign-on bonus was awarded to incoming CFO Dembeck without an accompanying compelling justification for this award. - The remuneration report does not contain compelling responsiveness to the 2022 AGM voting result. Although the remuneration report was approved, 39.7 percent of the votes cast were not in favor and the board has not explained in a compelling way how it has taken feedback into account, thus failing to be responsive to shareholder sentiment. - The 2018 and 2019 LTI plans partially vested in 2022 but without adequate disclosure on the performance outcomes under the applicable performance criteria (CAGR).</i></p>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For
	<i>Blended Rationale: A vote FOR this proposal as pay and performance are reasonably aligned for the year in review. Annual and long-term incentives are primarily tied to financial performance, with a portion of the performance shares tied to TSR measured over a multi-year performance period. However, there are some concerns regarding the lack of TSR payout cap for negative returns, as well as the fact that the majority of performance-shares are based on the same metrics, goals and one-year performance period as the annual incentives.</i>		
3	Advisory Vote on Say on Pay Frequency	One Year	One Year

First Majestic Silver Corp.

Proposal Number	Proposal Text	Mgmt Rec	Vote Instruction
4	Advisory Vote on Executive Compensation Approach	For	Against

Blended Rationale: A vote AGAINST this non-binding advisory vote is warranted. The initial quantitative pay-for-performance screen has identified a medium concern driven by the company's relative degree of pay-and-performance alignment (RDA). After applying the financial performance assessment (FPA) test, the overall quantitative pay-for-performance screen exhibited a high concern. Although the CEO's total compensation decreased by approximately 26 percent in 2022, mainly driven by the annual bonus, the compensation of the CEO has remained above peer median for the past five years. The company has underperformed the S&P/TSX Composite Index for the one-, three-, and five-year timeframes. The company's TSR has outperformed its self-selected peer group on a five-year timeframe but has underperformed for the one- and three-year timeframes, respectively. In addition, certain financial and operational metrics, such as EBITDA margin and ROE were below the peer median over the past three years. In addition to pay-for-performance concerns, disclosures surrounding the company's annual and long-term performance incentives continue to lag investor expectations typical for a Composite Index company, thus making proper assessment of the company's compensation structure challenging. Finally, the lack of meaningful response to the low say-on-pay shareholder support at the last AGM is also cause for concern.

	<i>Blended Rationale: A vote AGAINST this resolution is warranted. - The proposed amendment to the constitution appears to provide the possibility for virtual-only shareholder meetings. While there are benefits from allowing participation at shareholder meetings via electronic means, virtual-only meetings are not permitted in this market and not supported as good governance. - Constitutional language providing for a hybrid meeting format, which includes physical attendance concurrently with the use of virtual technology to hold meetings, would not negatively impact shareholder rights (compared with a virtual-only meeting format) and would reasonably reflect the preferences of shareholders.</i>

<p><i>Blended Rationale: A vote FOR this proposal is warranted, with caution. Concerns are raised regarding the rigor of FY22 STI and LTI goal setting, as well as the company's retention award grant practices: multiple NEOs received retention awards, with one executive receiving multiple such awards in one year. However, rigor concerns in the annual-cycle LTI program appear to be fully addressed by changes for FY23, annual incentives were entirely based on pre-set objective metrics, and both annual and long-term incentives paid out below target in line with company performance. Based on these factors, in particular recent improvements to pay quantum and structure for the new CEO, the quantitative pay-for-performance misalignment is mitigated. Moreover, as disclosed in an 8-K, the company recently eliminated a problematic good reason definition that entitled the new CEO to severance upon her resignation for any reason following a change-in-control. Continued monitoring of goal rigor and equity award practices is warranted.</i></p>			
4	Advisory Vote on Say on Pay Frequency	One Year	One Year
5	Amend Omnibus Stock Plan	For	Against
<p><i>Blended Rationale: Based on an evaluation of the estimated cost, plan features, and grant practices using the Equity Plan Scorecard (EPSC), a vote AGAINST this proposal is warranted due to the following key factor(s): - The plan cost is excessive - The plan allows broad discretion to accelerate vesting.</i></p>			
6	Require Independent Board Chair	Against	For
<p><i>Blended Rationale: A vote FOR this proposal is warranted given the importance of having an independent board chair.</i></p>			
7	Submit Severance Agreement (Change-in-Control) to Shareholder Vote	Against	Against
<p><i>Blended Rationale: A vote AGAINST this proposal is warranted. The company recently adopted a policy which limits cash severance to a reasonable basis and requires shareholder approval for agreements that contain cash severance above that limit. That policy provides adequate protections for shareholders as it pertains to potentially excessive severance payments. Moreover, the company disclosed in a recent 8-K an amendment to its change-in-control severance policy, which eliminated a problematic good cause definition that entitled the CEO to severance upon a resignation for any reason following a change-in-control. Therefore, no significant concerns are identified with respect to the company's severance arrangements or broad-based equity award treatment.</i></p>

	<i>Blended Rationale: A vote AGAINST the proposed issuance authorization is warranted because: - The company would be authorized to issue new Class B shares to service outstanding options, which could perpetuate the existing dual-class capital structure. - The company has requested shares for both general purposes and to service the exercise of outstanding option rights under a single voting resolution, which is a negative governance practice, as it limits shareholder choice.</i>

	<i>Blended Rationale: A vote AGAINST this proposal is warranted. The CEO received new-hire equity awards that represented over six times the median total pay of company-selected peer CEOs, based on the company's valuation. Given the magnitude of the awards, pay-for-performance concerns are heightened. The company relied only on time-based awards for the equity awards. Shareholders prefer for new-hire awards to predominantly consist of performance-conditioned equity and utilize a multi-year performance period with robust disclosure of goal targets. Further, the proxy does not indicate that the awards are intended to cover multiple years of pay. Additionally, a new NEO received a sizable, entirely time-based, RSU award.</i>

1.1	Elect Director Jeff T. Green	For	Withhold

	<i>Blended Rationale: WITHHOLD votes are warranted for Governance Committee member Andrea Cunningham given the board's failure to remove, or subject to a sunset requirement, the supermajority vote requirement to enact certain changes to the governing documents and the classified board, each of which adversely impacts shareholder rights. In the absence of compensation committee members on ballot, WITHHOLD votes are warranted for incumbent directors Jeff Green and Andrea Cunningham given that the compensation committee demonstrated poor responsiveness to shareholder concerns following last year's low say-on-pay support.</i>

1l	Elect Director David Zwiener	For	For
2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against

Blended Rationale: A vote AGAINST this proposal is warranted. In FY22, the CEO received one-time equity awards, the large majority of which are based on achieving stock price goals. While a supplemental filing clarifies the stock price goals must be sustained for 30 days, the structure may nevertheless result in vesting for relatively short spikes in stock price without requiring long-term sustained share price appreciation, and proxy statement disclosure concerning the awards is limited. Additionally, there are concerns surrounding the regular pay program structure. While annual incentives are primarily based on objective financial metrics, there are concerns about the disclosure related to the strategic initiatives component and the targets for the financial metrics, which were set below last year's achieved performance without a corresponding pay reduction. A majority of long-term incentives are based on multi-year performance goals and another supplemental filing discloses a vesting cap on the relative TSR component if absolute TSR is negative; however, forward-looking PSU goals are not disclosed and the closing-cycle relative TSR metric targets merely the median.

<p><i>Blended Rationale: A vote AGAINST this proposal is warranted. There are significant concerns regarding adjustments made to mid-flight annual and long-term incentives that resulted in annual incentives paid out above target and otherwise forfeited closing-cycle PSUs, which vested near target. Additional concerns are raised by the company's equity award practices, as the proportion of performance-based equity in annual-cycle awards was reduced below half and the CEO received her third special equity award in as many years.</i></p>

8	Approve Compensation Report of Corporate Officers	For	For
9	Approve Compensation of Alexandre Bompard, Chairman and CEO	For	Against
	<i>Blended Rationale: A vote AGAINST this remuneration report is warranted because: - Under the 2022 LTI plan, the company still does not provide any target for each performance criterion. - The STI and LTI structures allow for compensatory effects between criteria that disrupt the alignment between performance and remuneration (maximum payout/vesting reached despite some criteria being not fully achieved). - As under the 2019 LTIP, the risk of compensation between criteria materialized under the 2020 LTIP where the underachievement of the relative TSR criteria was offset by the overperformance of the other three criteria.</i>		
10	Approve Remuneration Policy of Chairman and CEO	For	Against
	<i>Blended Rationale: A vote AGAINST this remuneration policy is warranted because: - The company does not disclose ex-ante the maximum theoretical achievement of the criteria under the bonus structure, preventing from assessing the possible compensation effects. - The performance conditions attached to the 2023 LTI plan would enable compensation effects between criteria. - Full vesting of LTI unvested awards in case of departure cannot be excluded at the departure of the executive, without remaining subject to any performance condition. - The performance structure attached to the calculation of pension rights to be accrued could reward pay for failure.</i>

23	Authorize Filing of Required Documents/Other Formalities	For	For
24	Approve Opinion on Quantification of the Company's Various Scope 3 Action Levers	For	For

Blended Rationale: A vote FOR this proposal is warranted, as the quantification of each proposed lever associated with the scope 3 categories 1, 4, and 11 is key to assess the company's underlying GHG reduction targets. However, this proposal raises several concerns: - The proposal questions the comprehensiveness and credibility of the company's climate transition strategy submitted to shareholders at the 2022 AGM, which casts doubts about the CSR committee's diligence in overseeing the company's E&S reporting effort and climate transition strategy. - The proposal's phrasing is unusual for a board-sponsored resolution, and its belated addition to this AGM agenda suggests that the board's thoroughness of this general meeting's preparation has been suboptimal. - The proposal does not set any deadline for making the information public. Considering that this information is critical, the company is expected to disclose the levers quantification as soon as practically possible.

<i>Blended Rationale: A vote AGAINST non-independent directors Mauro Ajani, Kevin Donovan, Dieter Enkelmann, David Maris and Maria Grazia Roncarolo is warranted since the board is less than 1/3 independent. A vote AGAINST incumbent nominating committee chair Kevin Donovan is warranted for lack of diversity on the board. In addition, we raise concerns to the reelections of Kevin Donovan and Dieter Enkelmann as audit and remuneration committee members and Maria Grazia Roncarolo as remuneration committee member, while both committees lack independence.</i>

<p><i>Blended Rationale: Significant risks to shareholders stemming from severe ESG controversies have been identified at the company, which reflects a failure by the board to proficiently guard against and manage material environmental, social and governance risks. Votes AGAINST board chair Kalidas Madhavpeddi are warranted given that the chair of the board ultimately shoulders the most responsibility amongst all board members for failing to effectively supervise the management of risks to the company and its shareholders, and should therefore be held the most accountable for poor board oversight of ESG risk exposures at the firm.</i></p>

<p><i>Blended Rationale: A vote FOR this shareholder proposal is warranted. The proposal seeks clarification and information in the next climate report that the Company will present, which is due in 2024. The points on which the shareholder seeks clarification are legitimate, and reflect deficiencies identified in the analysis of the framework of the transition plan, on previous occasions. There is no obvious disadvantage to shareholders' interests in the acceptance of this proposal. The advantage is greater clarity on issues, that, in our view, would benefit from such clarity.</i></p>

<p><i>Blended Rationale: The quantitative pay-for-performance screen has identified a high concern based on MOM and RDA screens. As such, vote AGAINST the continuing compensation committee members David Lewin and Daniela Mielke based on the following problematic pay practices - The quantum of NEO granted pay remains high, along with problematic benchmarking practices. - The NEO's 2022 annual PSU grants are based on one-year performance period and hence no long-term performance-based equity is granted. - The advancement of 2023 annual grant is problematic due to market-timing concerns, lack of performance-based equity awards and high quantum. - The requested increase of the rolling share reserve of company's omnibus incentive plan (under which the equity awards are granted - see Item 3 for plan analysis), is indicative of the company's excessive use of equity awards, increasing the potential for significant dilution.</i></p>

<p><i>Blended Rationale: Based on evaluation of the estimated cost, plan features, grant practices, and overriding negative factors using the Equity Plan Score Card (EPSC), vote AGAINST this omnibus plan due to the following key factor(s): - The plan does not sufficiently limit non-employee director participation; - The plan's detailed amendment provision does not sufficiently limit the board's ability to amend the plan without shareholder approval; - The plan's estimated cost is excessive; - The company's potential dilution from equity plans is excessive; - The plan contains a problematic change-in-control provision; - The full text of the plan is not disclosed.</i></p>

Proposal Number	Proposal Text	Mgmt Rec	Vote Instruction
	Annual Meeting Agenda of Atlas Arteria Limited (ATLAX)		

Proposal Number	Proposal Text	Mgmt Rec	Vote Instruction
2	Approve Remuneration Report	For	Against
	<i>Blended Rationale: A vote AGAINST this resolution is warranted. - Reduced weighting to financial metrics in the FY22 STI, resulting in increased risk of excessive board discretion for STI bonuses. - Board discretion to adjust upwards the CEO's STI bonus without strong justification and in recognition of certain non-financial measures which some shareholders may regard as part of a CEO's "day job". - The FY22 LTI has 50 percent based on non-financial measures, being poorly disclosed "strategic" items and raising increased risk for excessive board discretion in determining LTI bonuses. - The three-year LTI performance period does not reflect the long-term nature of the group's business model, compared with similar companies and the better practices of other large ASX-listed entities. - The LTI allows for "dividends on unvested shares" for distributions paid in the performance period on rights that vest, whereas there is no present entitlement to securities or dividends until after vesting. - Non-executive directors are entitled to receive travel time fees in addition to their directors' fees which is not aligned with better market practice.</i>		
3	Approve Grant of 2023 Performance Rights to Graeme Bevans	For	For
4	Approve Grant of Restricted Securities to Graeme Bevans	For	For
5	Approve Grant of Additional 2022 Performance Rights to Graeme Bevans	For	Against
	<i>Blended Rationale: A vote AGAINST the grant of additional 2022 performance rights (Item 5) to CEO Graeme Bevans is warranted. As noted under Item 2 above and in prior years, concerns for inconsistency with market practice, peers and shareholder interests are raised for the allocation of 50 percent of the award to poorly disclosed "strategic" measures which appear to involve excessive discretion in determination of vesting.</i>		
6	Approve the Increase in the Maximum Number of Directors	For	For
7	Approve the Increase in Maximum Aggregate Remuneration of Non-Executive Directors	None	For
	<i>Blended Rationale: A vote FOR this resolution is warranted. - There is not enough head room under the current cap to accommodate another board member. - The current level of non-executive director fees are not problematic based on analysis against the median of market cap peers.</i>

2	Appoint PricewaterhouseCoopers as Auditor and Authorize Board to Fix Their Remuneration	For	For
3	Approve Reduction in the Maximum Number of Directors	For	Against
	<i>Blended Rationale: A vote AGAINST this resolution is warranted. This represents a limitation on shareholder rights and may allow the board to invoke a 'no vacancy' in certain director elections. Should the proposed reduction be approved – there will be no board vacancy available unless and until any of the incumbent directors step down from the board or are not re-elected to the board by shareholders, as the case may be. This proposal is unusual in this market and represents an inconsistency with good corporate governance which ordinarily allows shareholders to determine the composition of the board by voting on each director's election irrespective of the number of incumbent directors.</i>

Blended Rationale: A vote AGAINST this proposal is warranted. Although cash severance is double trigger and reasonably based, certain outstanding equity awards will accelerate vesting upon the merger and recent agreements provide for the payment of excise tax gross-ups to certain NEOs. In addition, even though the former CEO's employment with the company ended in May 2022, he is eligible for certain change-in-control severance benefits.

<i>Blended Rationale: A vote AGAINST this proposal is warranted. Annual bonuses for most continuing NEOs were discretionary and the proxy does not disclose a meaningful cap on the CIO's sizable carried interest payments. Additionally, annual PRSUs utilize an annual performance period and one metric overlaps with a metric and performance period corresponding to a FY21 equity award. Moreover, the former CEO received a sizable discretionary equity grant which, although forfeited, raises structural concerns and reflects a repeated company practice of providing supplemental equity awards. Concerns are also raised regarding the new CEO's exceedingly large five-year front-loaded inducement equity grant. Although majority performance-conditioned, there are structural concerns identified.</i>

<p><i>Blended Rationale: A vote AGAINST the proposed authorization is warranted because: - The issuance request would allow for a capital increase without preemptive rights for up to 37 percent of the issued share capital. - The shares reserved for equity incentive plans would exceed 10 percent of the issued share capital and there are concerns regarding the company's equity compensation practices. - The company has requested shares for equity compensation and for servicing convertible bonds under a single voting resolution, which is a negative governance practice, as it limits shareholder choice.</i></p>

<i>Blended Rationale: A vote AGAINST this proposal is warranted. Concerns regarding the magnitude and design of the proposed mega option award outweigh the considerable performance criteria upon which it is conditioned. The grant size is considered to be excessive and effectively locks in high pay opportunities for multiple years. The structure restricts the board's ability to meaningfully adjust future pay levels or incentive metrics. Lastly, investors may question the need for another sizable stock award to a CEO who owns a substantial portion of the company's stock.</i>

6	Adopt GHG Emissions Reduction Targets Aligned with the Paris Agreement Goal	Against	Against

Blended Rationale: We consider a vote AGAINST this item is warranted. While we agree with the proponents that progress on GHG emissions targets has been slow, we consider that the company has been rightly focusing on the more material and immediate issues of water and wastewater quality, water supply management, and climate adaptation and resilience; we believe that the company should continue doing so. Furthermore, the company has recently completed a GHG emissions inventory for its Scope 1, 2, and some Scope 3 emissions, and disclosed its timeline for setting targets. This includes setting absolute GHG reduction targets by the third quarter of 2024, publishing targets for energy/greenhouse gas intensity of water sourced or delivered to targets by 2025, and an enterprise-wide renewable power purchasing strategy by 2023. However, we consider that setting of Scope 1&2 targets should be achieved by Q1 2024, due to the rapidly changing nature of broad societal expectations, and discussed this during our engagement with the company.

<i>Blended Rationale: A vote FOR is warranted as international organizations have provided standard setting guidance that the request of the proposal is a best practice regarding the transition to a low carbon economy. 3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<p><i>Blended Rationale: A vote AGAINST the proposal is warranted. Although a number of positive features are noted in the annual pay program, the company made a number of problematic grants to new executives amid significant executive transition. The new CEO received a large time-vested equity grant upon appointment which merely utilizes a one-year vesting period. The new CEO also received a much larger performance equity grant that, although appears to utilize rigorous performance criteria, is significant in size, contributing to the \$128 million in equity he received in FY23 (Sustainability Advisory Services calculations). Other new NEOs also received significant new-hire awards, though these consist entirely of time-vested equity that also utilize a relatively short vesting period. These other NEOs, on top of new-hire awards, also received retention awards in FY23, to which the proxy provides no disclosure into why retention grants to newly-hired NEOs would be necessary.</i></p>

7	Approve Remuneration Report	For	Against
	<i>Blended Rationale: A vote AGAINST the remuneration report is warranted because: - There are limited ex-post disclosures to explain non-financial performance achievements under the STI, while the disclosure of performance achievements under the LTI is vague. - Discretionary adjustments were made to the STI and in-flight changes were made to all outstanding LTI tranches (2018 through 2022) without a compelling rationale and a detailed explanation of how far outcomes were adjusted. - The report does not directly address shareholder dissent on the prior vote. - Service costs for executive pension arrangements were high in the past year in the context of market practice.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<i>Blended Rationale: A vote AGAINST this proposal is warranted. A lack of at-risk, performance-based pay elements under the compensation program underscores a pay-for-performance misalignment for the year under review. Specifically, the company does not have a formal annual incentive program and NEOs received only fixed cash compensation for FY22. In addition, of the two NEOs that received performance-based equity awards in FY22, only one of those awards comprised a significant portion of the executive's equity mix. Further, the new CFO received a relatively large sign-on equity grant that lacks any performance conditions. These pay decisions are particularly concerning, given that investors increasingly prefer for a meaningful portion of executive incentive pay to be tied pre-set performance goals.</i>

In addition, the company is not aligned with investor expectations on Net Zero by 2050 targets and commitments. Significant risks to shareholders stemming from severe ESG controversies have been identified at the company, which reflects a failure by the board to proficiently guard against and manage material environmental, social and governance risks. - Votes AGAINST CEO/Chair Darren Woods are further warranted given that the CEO and chair of the board ultimately shoulders the most responsibility amongst all board members for failing to effectively supervise the management of risks to the company and its shareholders, and should therefore be held the most accountable for poor board oversight of ESG risk exposures at the firm.</i></p>

Significant risks to shareholders stemming from severe ESG controversies have been identified at the company, which reflects a failure by the board to proficiently guard against and manage material environmental, social and governance risks. - WITHHOLD votes for CEO/Chair Mark Zuckerberg are warranted given that the CEO and chair of the board ultimately shoulders the most responsibility amongst all board members for failing to effectively supervise the management of risks to the company and its shareholders, and should therefore be held the most accountable for poor board oversight of ESG risk exposures at the firm.</i>

12	Report on Executive Pay Calibration to Externalized Costs	Against	For

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<p><i>Blended Rationale: A vote AGAINST this proposal is warranted. Concerns are raised surrounding the new CEO's one-time awards valued by the company at over \$57 million. While half of the awards are performance based and require stock price outperformance, the remaining half is entirely time-based. Although the company discloses that these awards were designed to offset forfeited equity, it did not disclose which portion was considered make whole. In addition, NEO Dansey also received a large one-time performance option award, which, when combined with his annual and long-term awards, resulted in outsized total pay that is more than two times that of the company median peer CEO pay. In addition, concerns are raised surrounding the annual LTI for other NEOs, which is majority time based. Further concerns are identified surrounding a separation arrangement that will allow the former CEO, who was terminated without cause in May 2022, to receive certain CIC benefits if a merger closes by the end of 2023. Also problematic, the company entered into agreements with CEO Epstein and NEO Dansey that will provide excise tax gross-up payments in connection with the recently announced merger.</i></p>

<i>Blended Rationale: The incentive program is predominantly based on objective financial criteria and annual target goals appear reasonably rigorous. However, there are significant concerns regarding equity award structure, as the LTI program utilizes solely one-year measurement periods, rather than multi-year performance periods. This concern is heightened as the company uses an overlapping metric between the short- and long-term programs, which resulted in maximum achievement for same goal under both programs. While the company provides a rationale for its pay program structure, investors generally expect a majority of long-term awards to be tied to long-term, multi-year performance goals. In light of these concerns, the quantitative pay-for-performance misalignment is not mitigated and a vote AGAINST this proposal is warranted.</i>

3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
	<i>Blended Rationale: A vote AGAINST this proposal is warranted. Although annual incentives were determined by pre-set financial metrics and annual-cycle equity awards were entirely performance conditioned, significant concerns are noted under both incentive programs. First, the CEO's FY22 base salary and target bonus opportunity were relatively high and will be increased further in FY23. In addition, PSUs utilize overlapping one-year metrics with the annual incentive program, which resulted in above-target payouts under both programs for duplicative performance. Significant concerns are also raised regarding the one-time awards granted to multiple NEOs during FY22. Although some of the awards are performance based, the proxy offers very limited disclosure regarding performance conditions, which is particularly concerning given the significant upside.</i>

<p><i>Blended Rationale: A vote AGAINST this item is warranted because: - The company's remuneration policy allows uncapped one-off awards. - Under equity-based plans, the board may allocate share awards to executive directors on a yearly basis. - The proposed remuneration policy suggests that the board is not responsive to minority concerns over the company's remuneration practices.</i></p>

<p><i>Blended Rationale: Following a failed say-on-pay vote result, the company disclosed its engagement efforts with shareholders, noted shareholder feedback, and made substantive changes to the pay program. This indicates sufficient responsiveness by the compensation committee. Nevertheless, there are ongoing concerns regarding the pay structure. Though improvements were made to ensure that base salaries for co-CEOs remain at a reasonable level, salaries for other NEOs may still be exceedingly large depending on their selected allocation of payment. In addition, equity awards, which remain a significant portion of executive pay, continue to lack pre-set performance vesting criteria, and the introduction of annual bonuses only covers the co-CEOs. In light of these concerns, a vote AGAINST this proposal is warranted.</i></p>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<i>Blended Rationale: Following a failed say-on-pay vote last year, the committee has demonstrated only a limited degree of responsiveness by responding to a primary shareholder concern regarding one-time awards, but the committee did not make meaningful structural improvements to the regular pay program to address shareholders' secondary feedback points. It is positive that the STIP was based primarily on financial metrics and the goals utilized were reasonable, even after a mid-year goal modification. However, there are continuing pay structure concerns that underscore a pay-for-performance misalignment. Specifically, the LTIP continues to utilize one-year measurement periods for primary metrics, with significant overlap to a STI metric and goal, and the CEO's LTI awards are relatively large in the year following a mega award. In light of these concerns, a vote AGAINST this proposal is warranted.</i>

As part of our assessment of corporate governance practices, we use input from third party analytical services. However, it is our view that there is no single ideal corporate governance structure that is suitable for all companies and assessments should be made on a case-by-case basis according to the company's situation. In line with the best practices of minority shareholder protection at board level, we have a preference for one-vote-one-share structures and to reflect that, Pictet Asset Management will vote for Item 18 at this AGM. However, we do not believe that voting against the members of the governance committee will be conducive to driving change at Alphabet.</i></p>

Blended Rationale: Based on an evaluation of the estimated cost, plan features, and grant practices using the Equity Plan Scorecard (EPSC), a vote AGAINST this proposal is warranted due to the following key factor(s): - The plan cost is excessive. - The three-year average burn rate is excessive. - The disclosure of change-in-control ("CIC") vesting treatment is incomplete (or is otherwise considered discretionary). - The plan permits liberal recycling of shares. - The plan allows broad discretion to accelerate vesting.

Proposal Number	Proposal Text	Mgmt Rec	Vote Instruction
4	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
	<i>Blended Rationale: A vote AGAINST the proposal is warranted. A number of concerns are noted in the annual pay program for non-CEO NEOs. First, an annual bonus program was established based on ESG goals. However, pre-set goals were not disclosed, with the proxy only noting performance achievements after the fact, with the award appearing to pay out based on the committee's discretionary assessment of performance. Though the ESG bonus payout was halved at the committee's discretion due to "macroeconomic conditions," NEO base salaries were increased in FY22 and are relatively high. Further concerns are noted in the annual LTI program, which inexplicably switched to an LTI mix predominantly in time-vested equity in FY22, with no rationale for the change disclosed in the proxy. On top of that, two NEOs received equity grants with values in excess of the total median CEO pay for the company's peer group. The relative TSR target was non-rigorous and no vesting cap was disclosed if absolute TSR were to be negative over the performance period. CEO Pichai received a triennial equity grant in FY22, which, even on a per-year annualized basis, was relatively large compared to peers. Merely 60 percent of the award was in performance equity, half of which utilized a two-year performance period. Though the target goal was rigorous, in situations where an equity grant is intended to cover multiple years of equity, shareholders prefer that a significant percentage of the grant be in performance equity with a long-term performance period. Additionally, due to a combination of award structure and total magnitude, even with relative TSR performing well-below target, CEO Pichai would realize substantially more pay than a significant portion of his CEO peers, undermining a pay-for-performance philosophy.</i>		
5	Advisory Vote on Say on Pay Frequency	Three Years	One Year
	<i>Blended Rationale: A vote for the adoption of an ANNUAL say-on-pay frequency is warranted. Annual say-on-pay votes are considered a best practice as they give shareholders a regular opportunity to opine on executive pay.</i>		
6	Report on Lobbying Payments and Policy	Against	For
	<i>Blended Rationale: A vote FOR this resolution is warranted, as additional reporting on the company's lobbying-related practices and policies, such as its trade association memberships and payments, would benefit shareholders in assessing its management of related risks.</i>		
7	Publish Congruency Report on Partnerships with Globalist Organizations and Company Fiduciary Duties	Against	Against
8	Report on Framework to Assess Company Lobbying Alignment with Climate Goals	Against	For
	<i>Blended Rationale: A vote FOR this proposal is warranted. The request is not considered overly onerous or prescriptive, and shareholders would benefit from greater transparency of the company's framework for addressing misalignments between its climate goals and direct and indirect lobbying, and how the company would plan to mitigate any risks that might be identified.</i>		
9	Report on Risks Related to Fulfilling Information Requests for Enforcing Laws Criminalizing Abortion Access	Against	For
	<i>Blended Rationale: A vote FOR this proposal is warranted. The company is legally required to comply with information requests but could be doing more to protect consumers data privacy and protect the company from potential reputational risks.</i>		
10	Report on Risks of Doing Business in Countries with Significant Human Rights Concerns	Against	For
	<i>Blended Rationale: A vote FOR this proposal is warranted. Shareholders would benefit from increased disclosure regarding how the company is managing human rights-related risks in high-risk countries.</i>		
11	Publish Independent Human Rights Impact Assessment of Targeted Advertising Technology	Against	For
	<i>Blended Rationale: A vote FOR this proposal is warranted because an independent human rights assessment would help shareholders better evaluate the company's management of risks related to the human rights impacts of its targeted advertising policies and practices.</i>		

Alphabet Inc.

Proposal Number	Proposal Text	Mgmt Rec	Vote Instruction
12	Disclose More Quantitative and Qualitative Information on Algorithmic Systems	Against	Against
	<i>Blended Rationale: The human rights impact of targeted advertising and news algorithms is an extremely important topic that poses a risk to Alphabet, its investors and wider society and is a topic that is increasingly under scrutiny from regulators. As such, we support Item 11 in this AGM which requests that the board commission the publication of an independent assessment, by an external third party, of those impacts and the company's policies and procedures. However, in Item 12 the proponent calls for disclosure that goes above that required for an assessment by investors including the disclosure of quantitative and qualitative information on algorithmic systems which may be proprietary information. We do not believe that mandating the company to release this information would be productive amid well intentioned efforts to minimise this real and important issue.</i>		
13	Report on Alignment of YouTube Policies With Online Safety Regulations	Against	For
	<i>Blended Rationale: A vote FOR this proposal is warranted, as increased reporting would provide shareholders with more information on the company's management of related risks.</i>		
14	Report on Content Governance and Censorship	Against	Against
15	Commission Independent Assessment of Effectiveness of Audit and Compliance Committee	Against	For
	<i>Blended Rationale: A vote FOR this proposal is warranted as an independent assessment of the Audit and Compliance Committee's capacities and performance would allow shareholders to gain more information on how the company is overseeing and managing related and prevailing risks.</i>		
16	Amend Bylaws to Require Shareholder Approval of Certain Provisions Related to Director Nominations by Shareholders	Against	Against
17	Adopt Share Retention Policy For Senior Executives	Against	For
	<i>Blended Rationale: A vote FOR this proposal is warranted as the more rigorous guidelines recommended by the proponent may better address concerns about creating a strong link between the interests of top executives and long-term shareholder value.</i>		
18	Approve Recapitalization Plan for all Stock to Have One-vote per Share	Against	For
	<i>Blended Rationale: A vote FOR this proposal is warranted as it would convey to the board nonaffiliated shareholders' preference for a capital structure in which the levels of economic ownership and voting power are aligned.</i>

<i>Blended Rationale: A vote FOR this resolution is warranted, as additional disclosure could help shareholders assess the impacts of the company's policies and practices on racial and ethnic minority communities.</i>			
6	Report on Congruency of Political Spending with Company Values and Priorities	Against	For
<i>Blended Rationale: A vote FOR this proposal is warranted, as a report on the company's value alignment with political expenditures would enable shareholders to have a greater understanding of how the company oversees and manages risks related to its political affiliations.</i>			
7	Submit Severance Agreement (Change-in-Control) to Shareholder Vote	Against	For
<i>Blended Rationale: A vote FOR this item is warranted. The company's severance policy establishes a reasonable limit on cash severance. However, the proxy does not disclose a policy or requirement that payments in excess of amounts provided under the policy are subject to shareholder approval. Without such a requirement, shareholders do not have adequate assurances that the company's current practice safeguards against excessive severance payments.</i>

2	Ratify KPMG LLP as Auditors	For	For
3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<i>Blended Rationale: A vote AGAINST this proposal is warranted. The committee elected to increase the pay benchmark for all executives to the 75th percentile, contributing significantly to the pay for performance misalignment identified for the year in review as the target value of the CEO's annual-cycle award more than doubled, year-over-year. The granting of significant off-cycle awards in half time-vesting equity to all executives further increased pay magnitude, while performance equity used primarily annual performance periods and set less rigorous goals for a metric shared with the annual incentive. Moreover, the committee set certain annual incentive targets lower than the prior year's performance and utilized their discretion to further increase actual payouts without a compelling rationale.</i>

3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against
<i>Blended Rationale: A vote AGAINST this proposal is warranted. Modifications to previously granted performance-based equity awards to include a time-vesting component undermines a pay-for-performance philosophy and contributed to a misalignment between executive pay and company performance during the year in review. Additionally, the company's regular annual equity awards remain entirely time-based.</i>
